1973 Tuskeana

Introduction

This year the Tuskeana
conveys the thought of a
progressive cultural
development within the
black society through every
facet of experience,

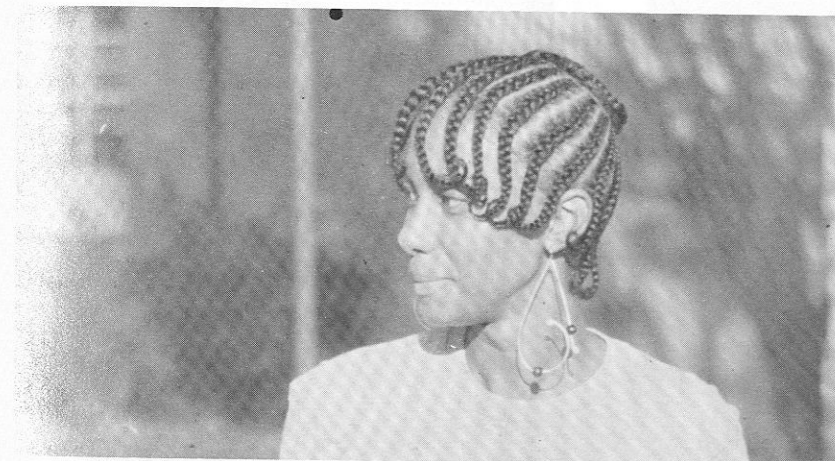

8 . . . History,

. . . Denial,

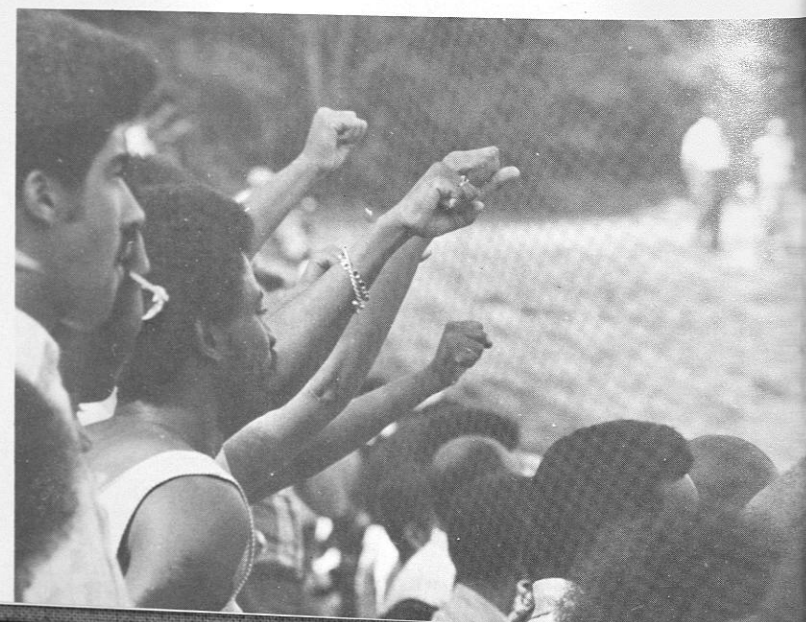

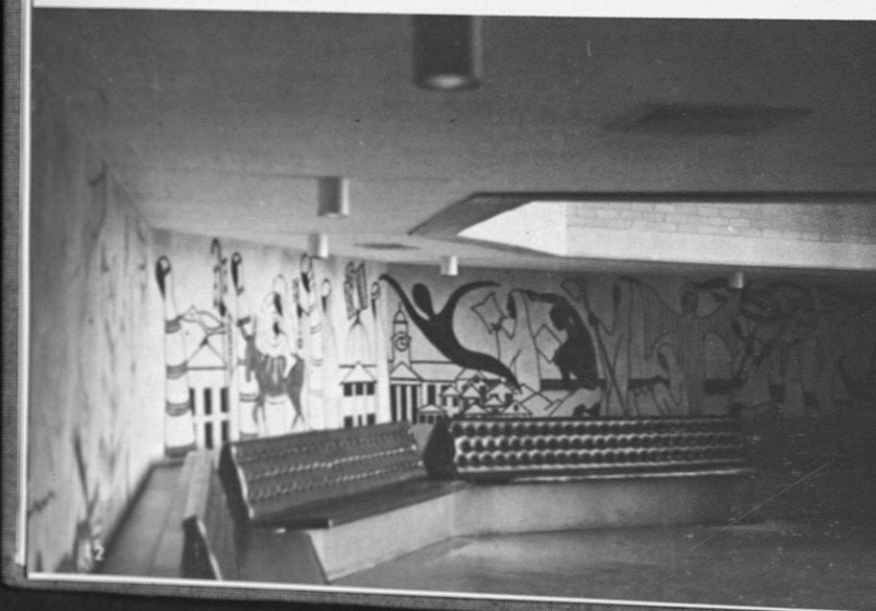

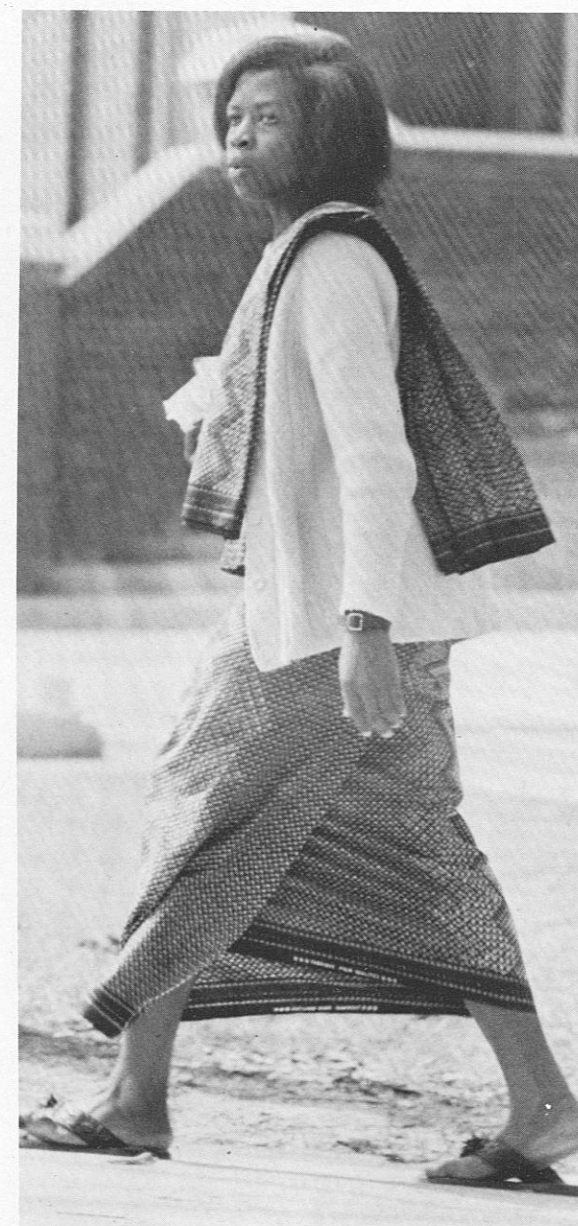

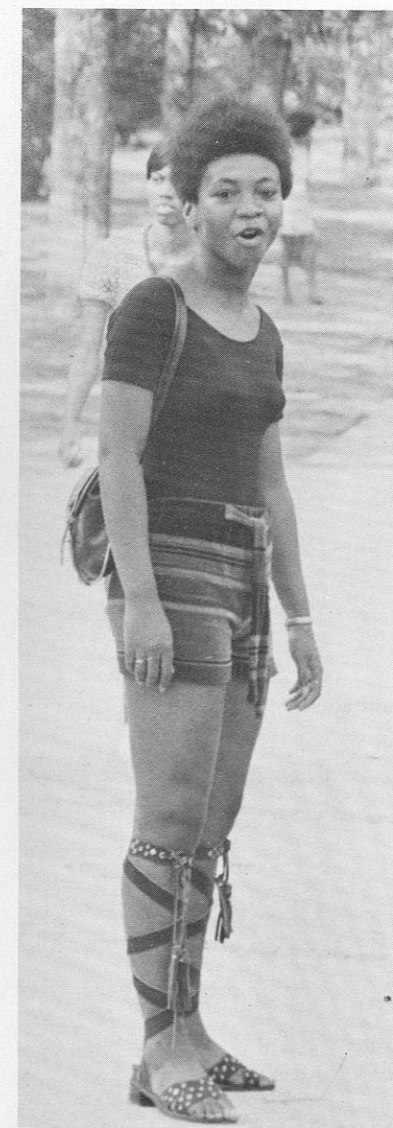

10 . . . Revolution,

. . . Pride,

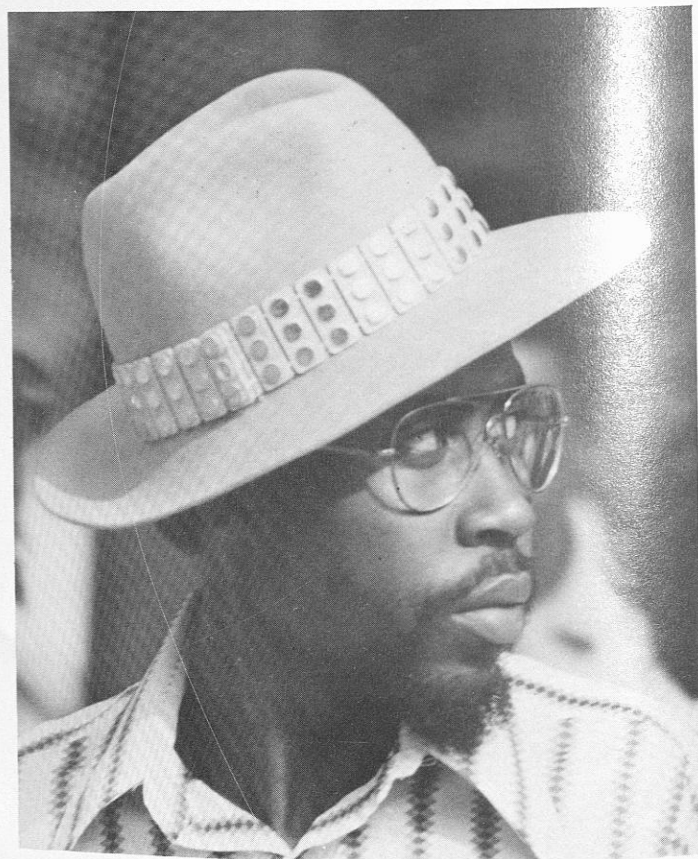

. . . Victory.

Student Life

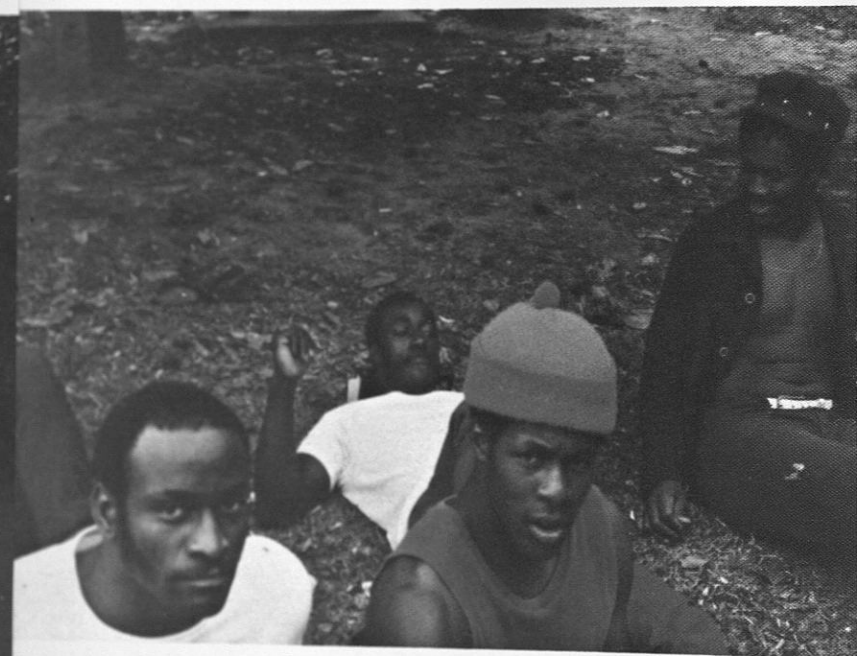

I look around me
and I wonder . . .

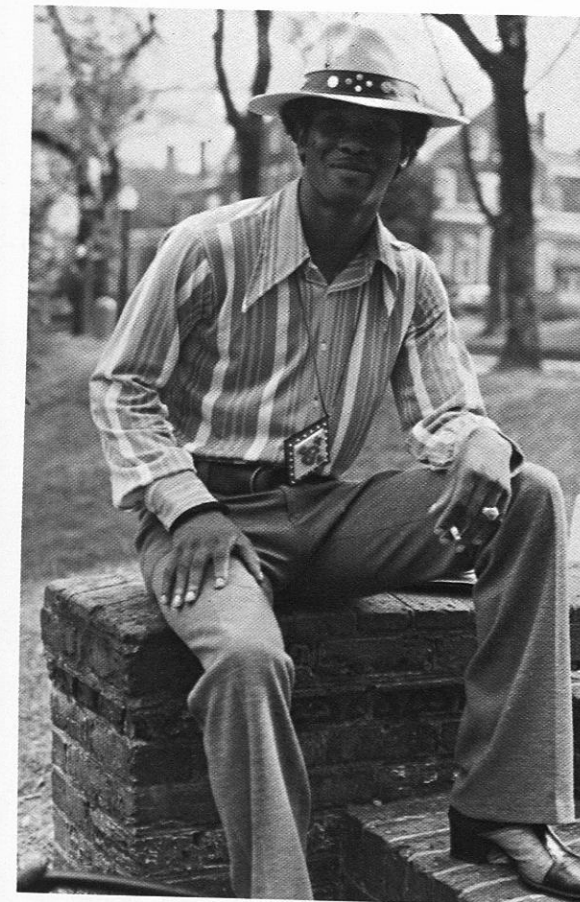

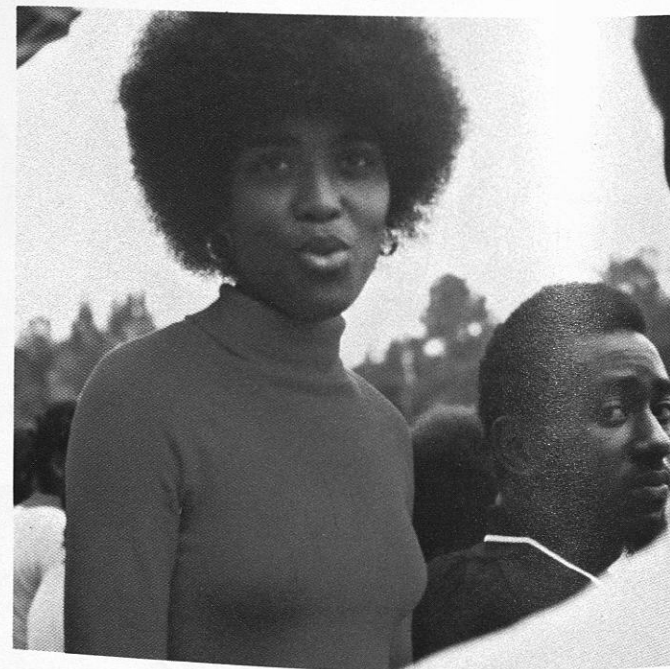

What do I
be about

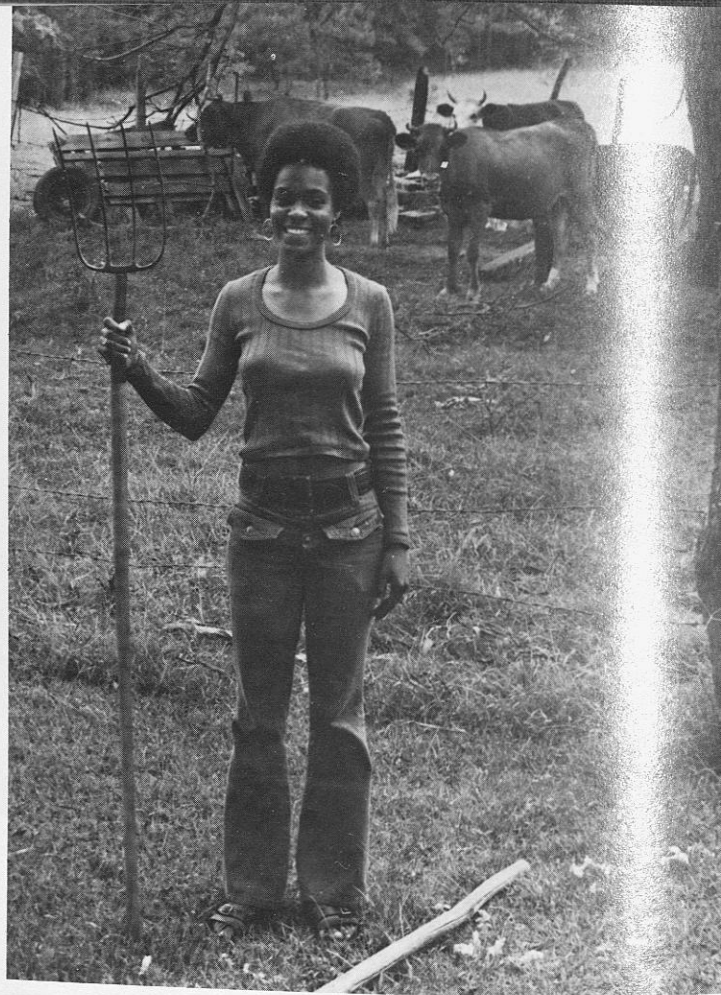

**VISITATION OF MEN
BEYOND THIS LOBBY IS PROHIBITED**

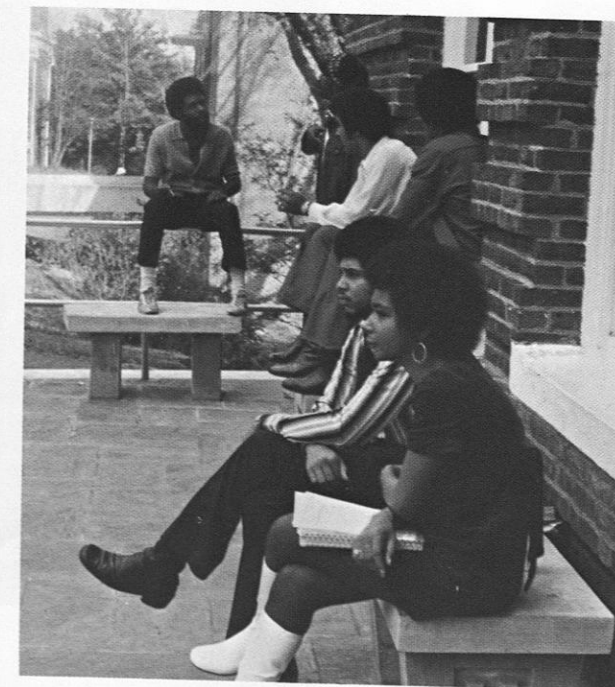

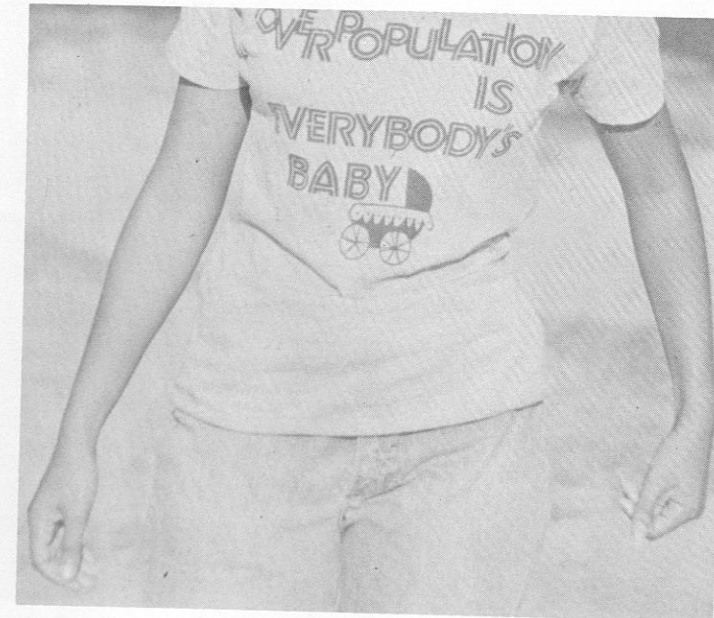

The reflection of me is
in the face . . .

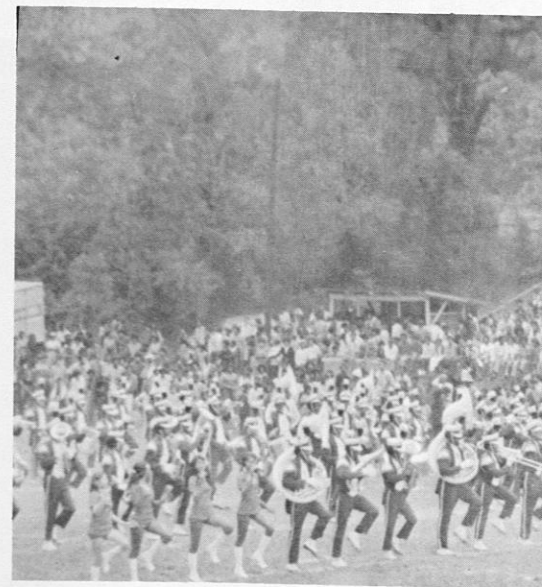

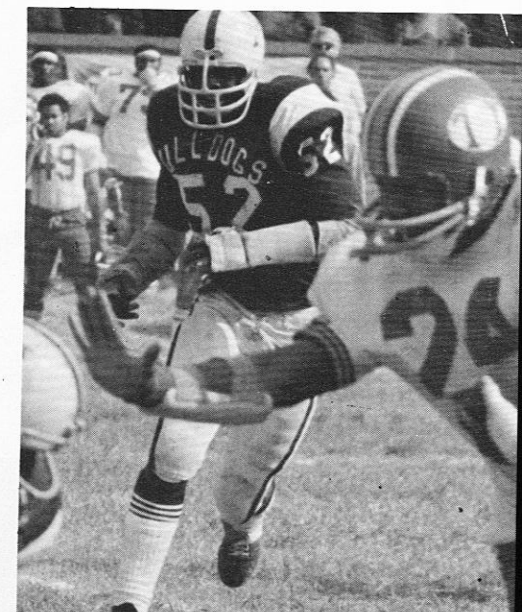

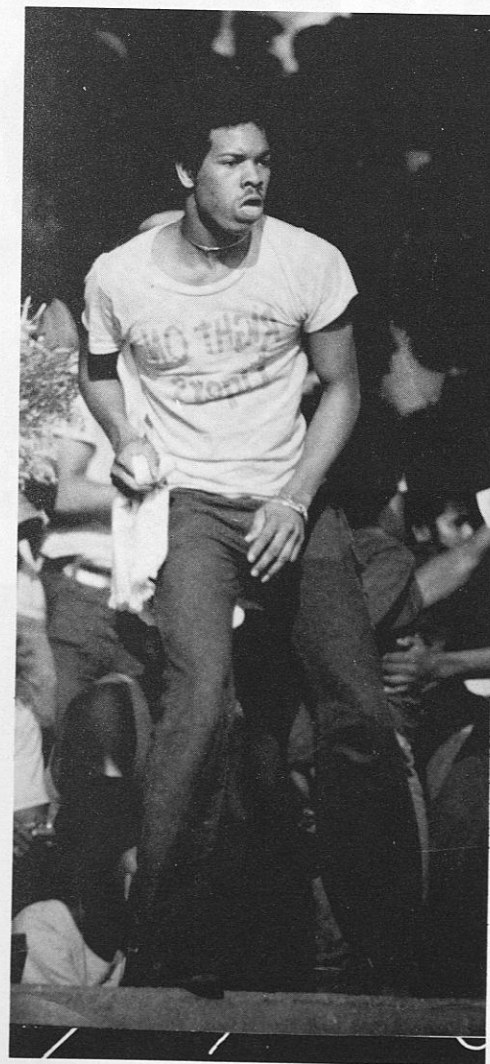

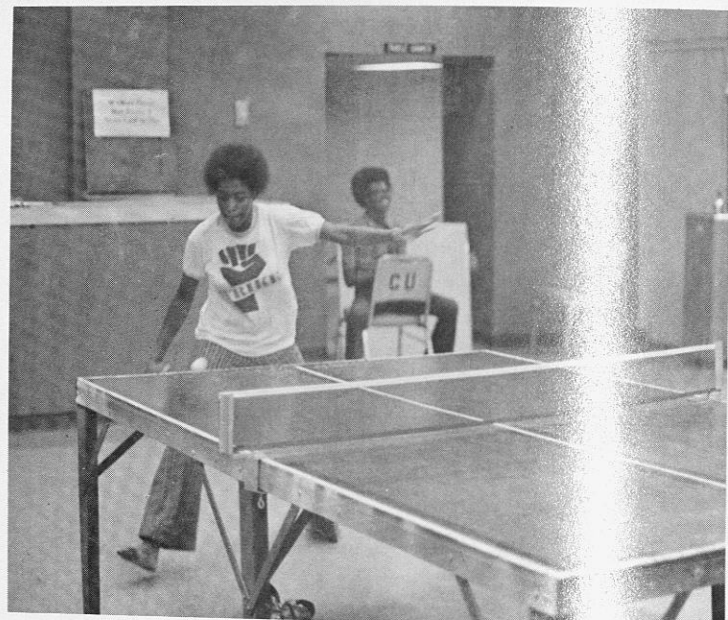

the
places . . .

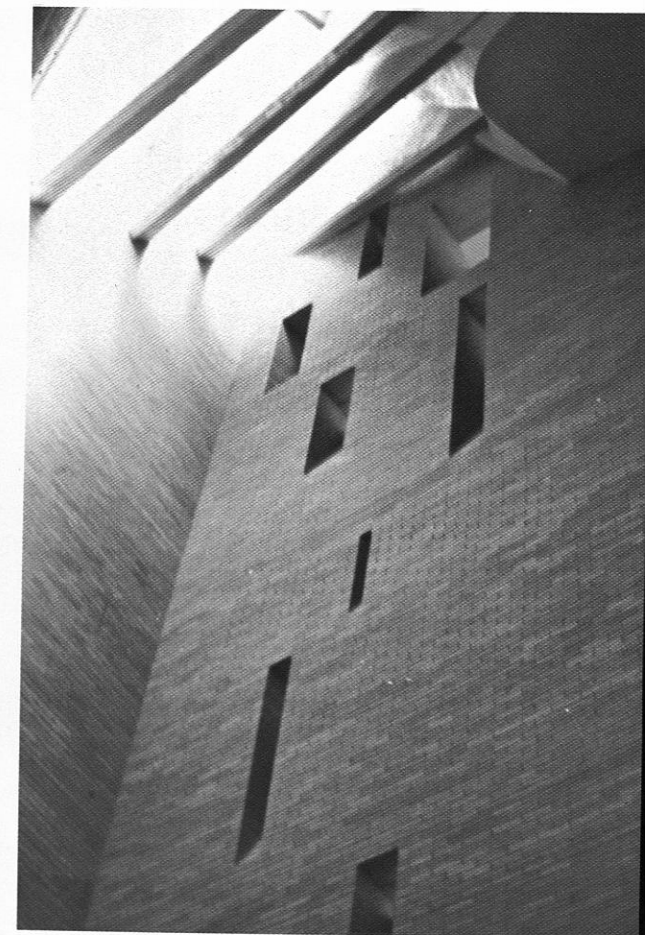

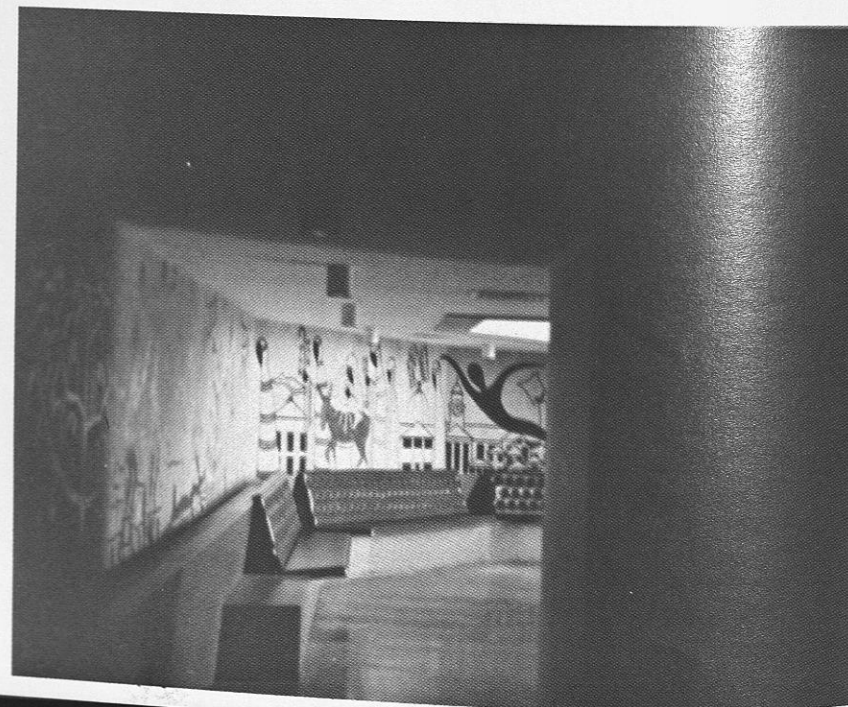

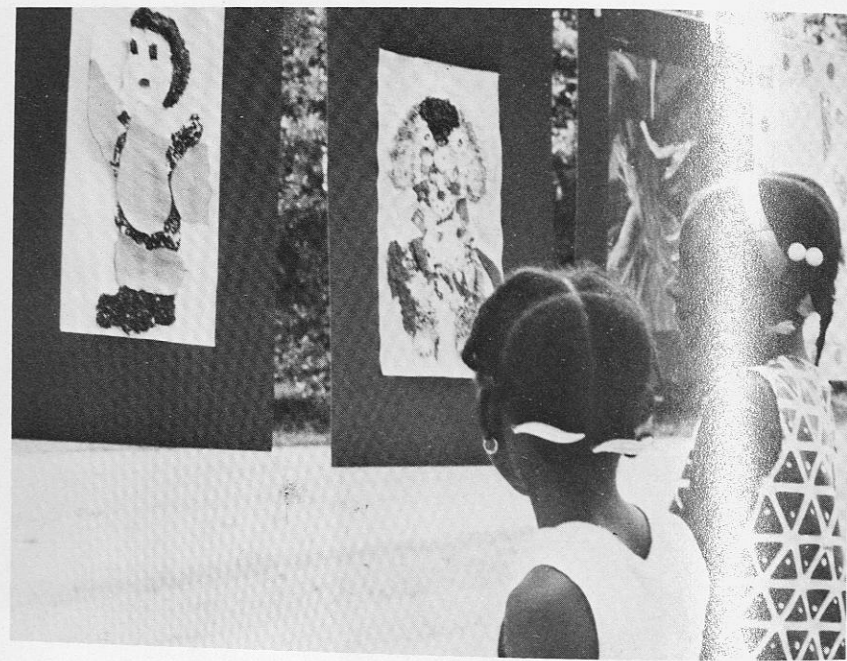

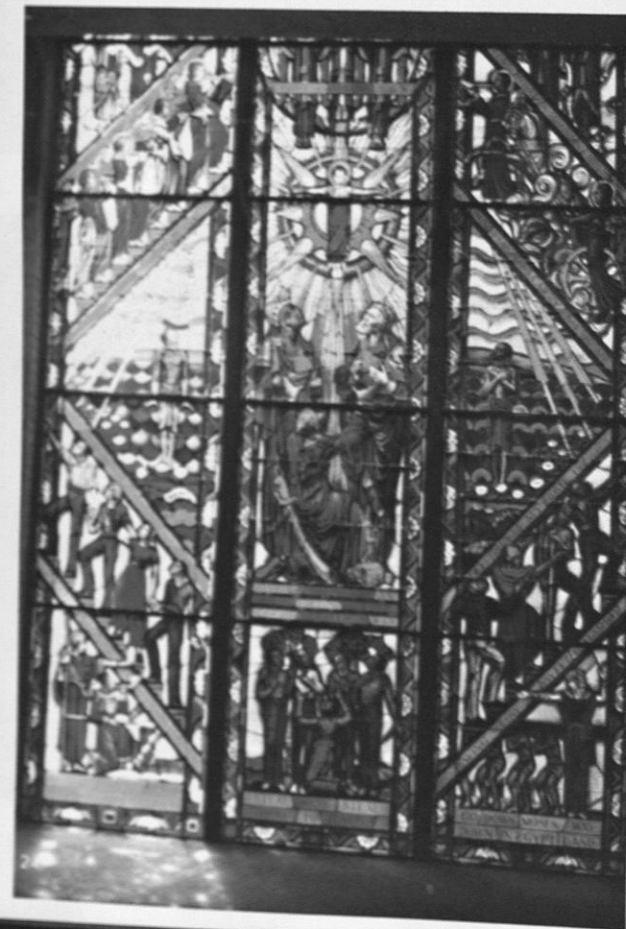

the
expressions . . .

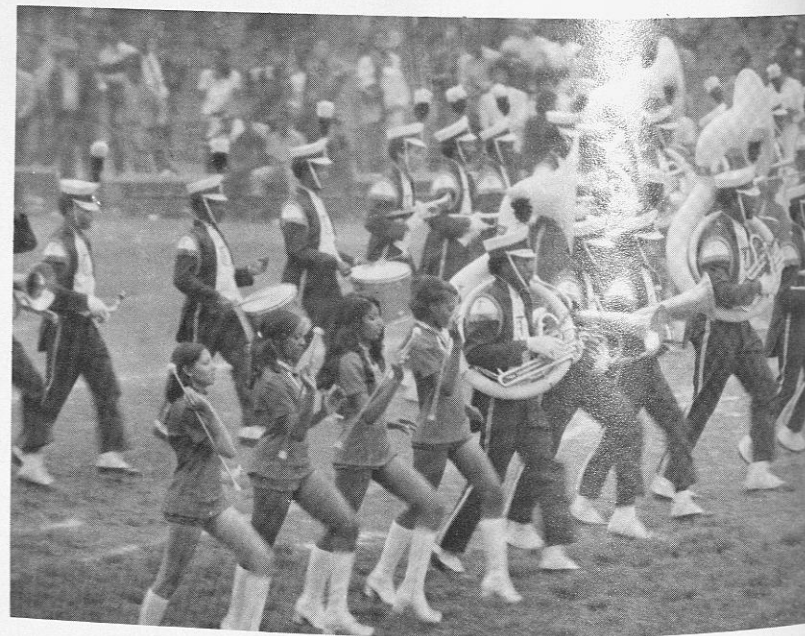

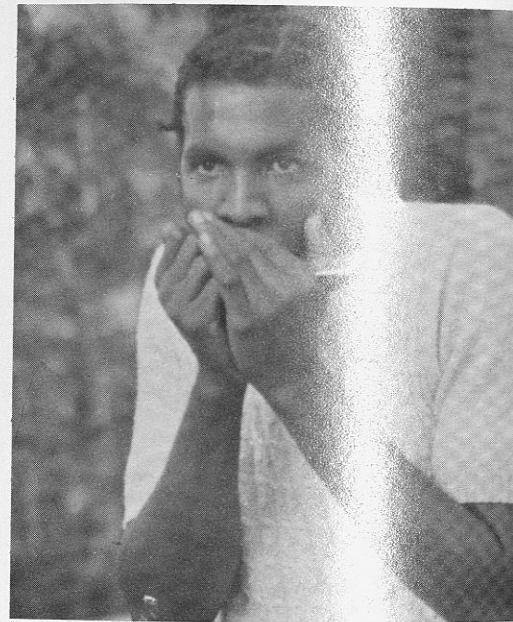

of
the
people
that
surround
me.

I see myself in
my art

I hear
me
in my
music

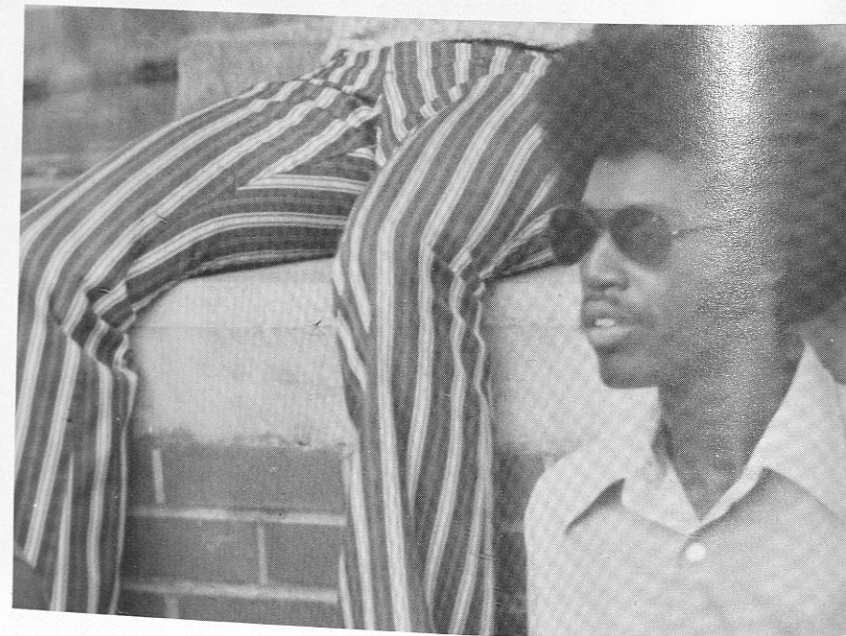

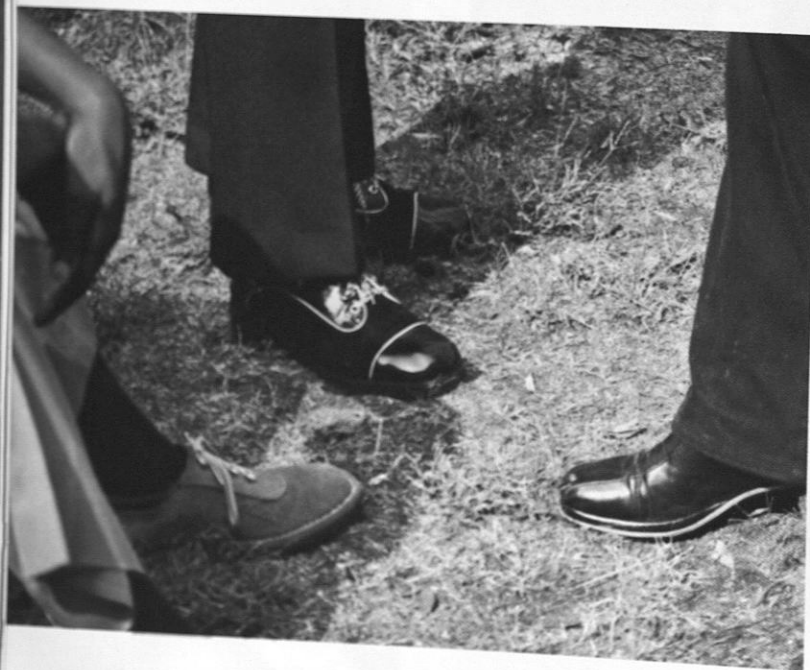

I find my hope
in the eyes of a child
I see my nation
in the new generation

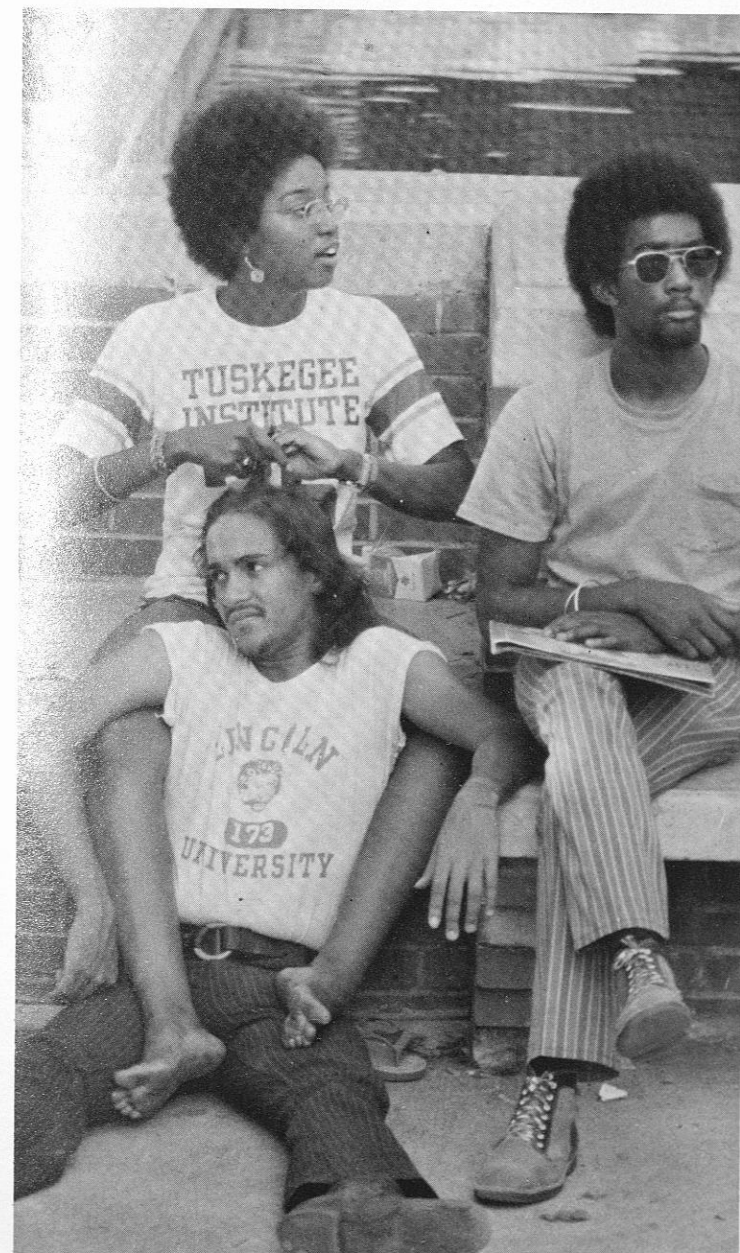

I search for a history
and I find
I've been on this earth
a long, long, time.

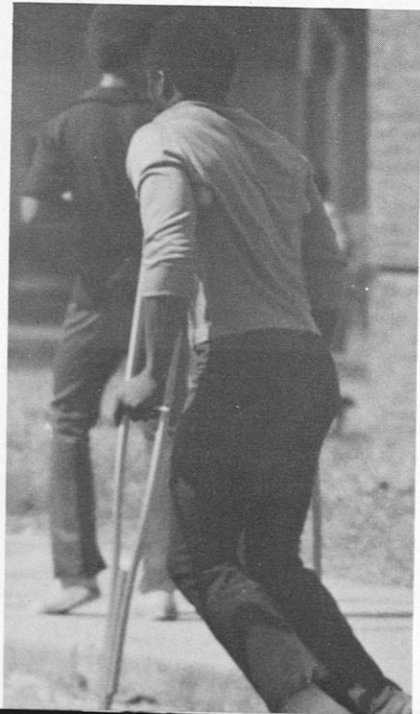

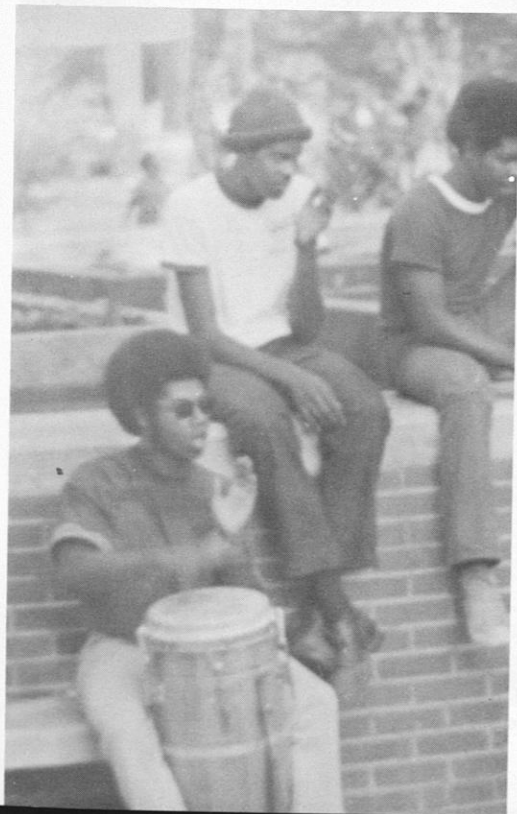

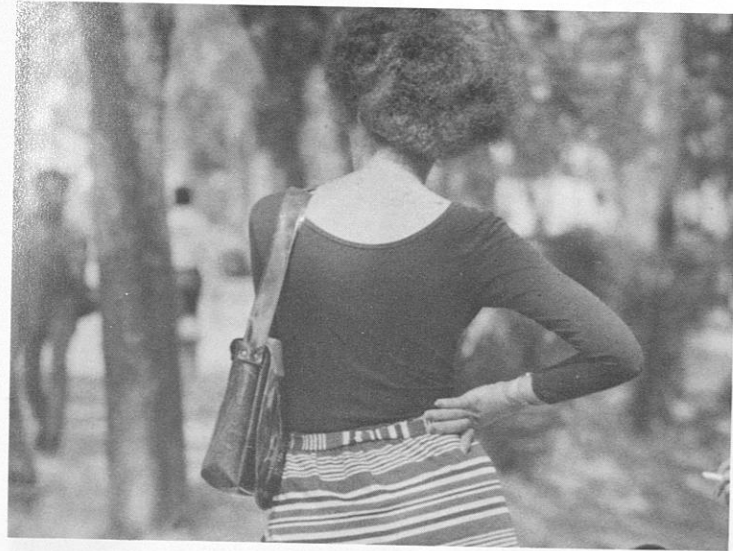

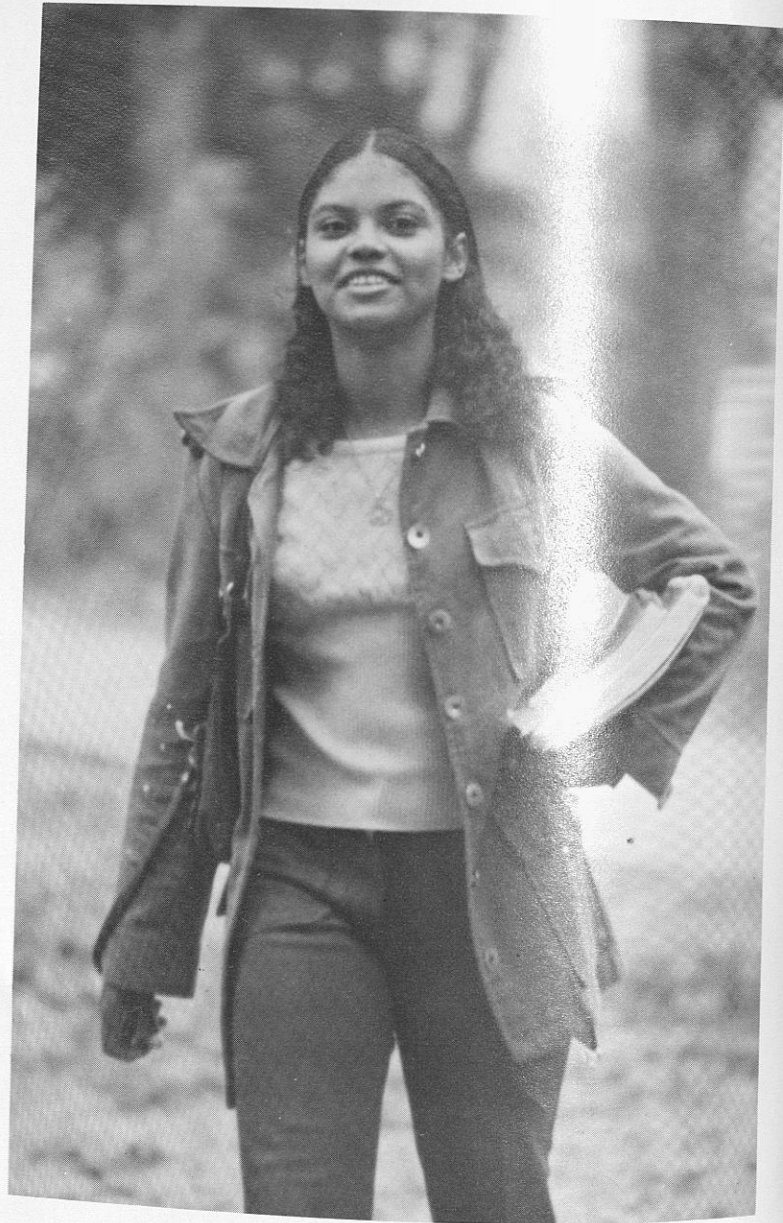

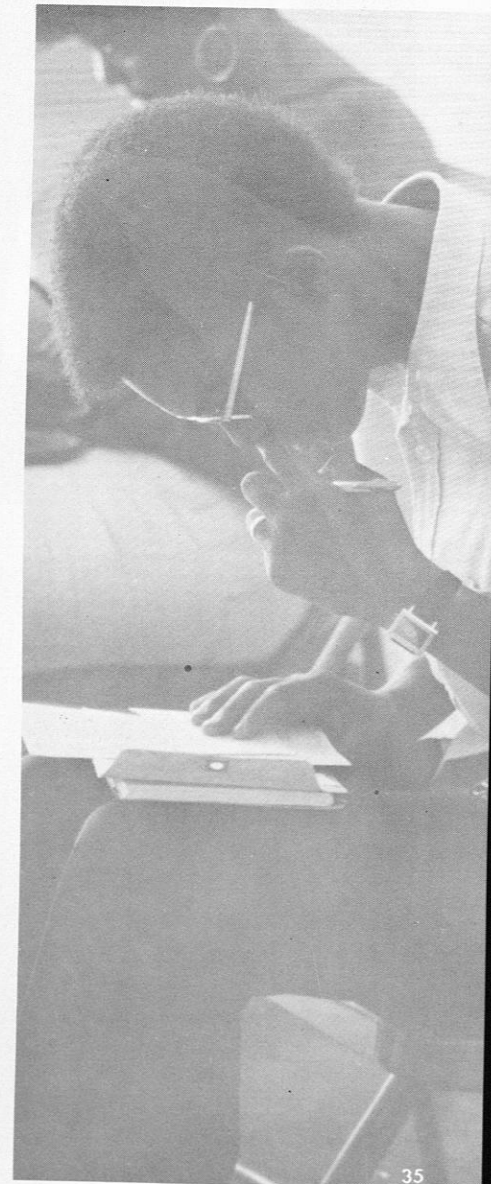

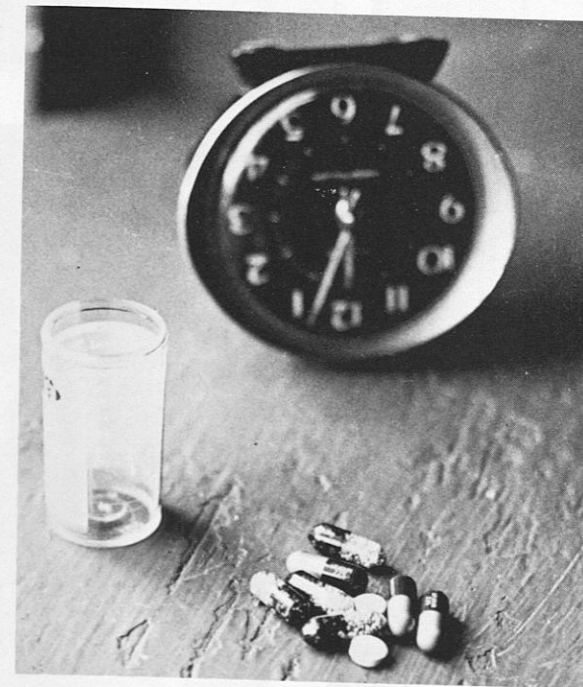

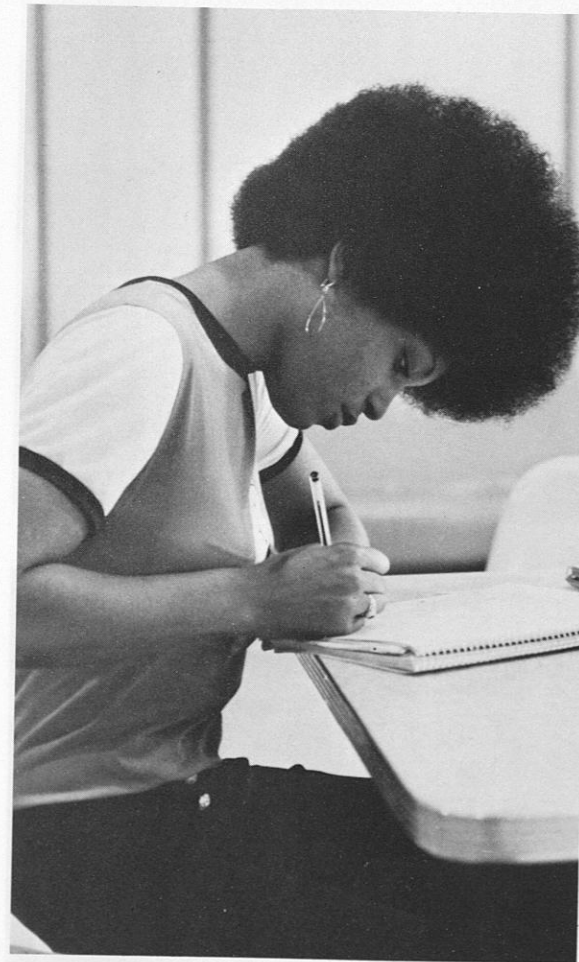

What do I be
about?

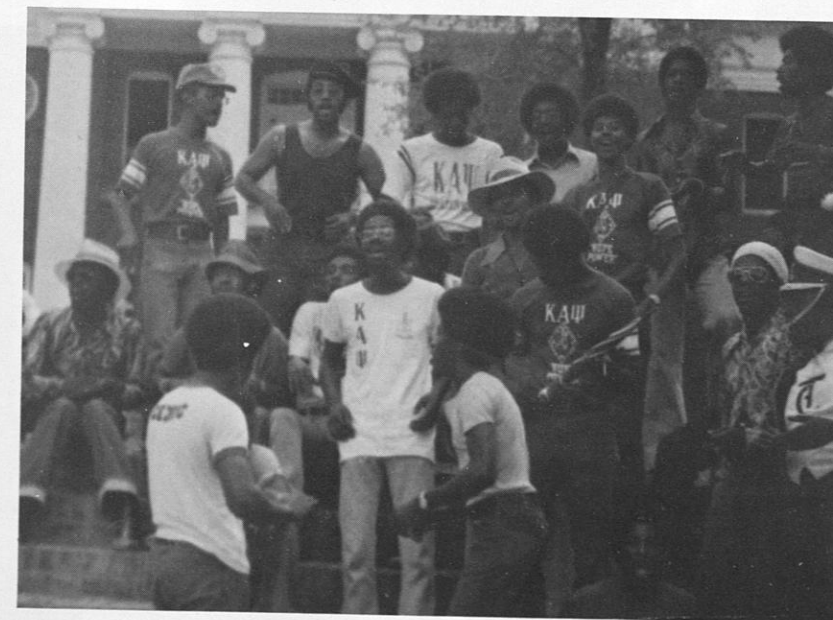

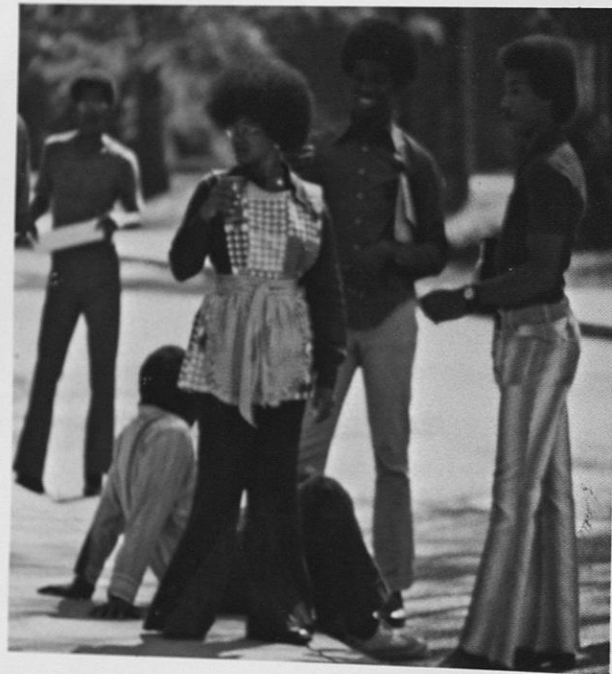

The reflection of
me is in
the face
the places
the expressions
of the people who
surround me

Departments

The School of Applied Sciences

The School of Applied Sciences places emphasis on student learning that is relevant for success and service in today's world and on effective student involvement in the educational process.

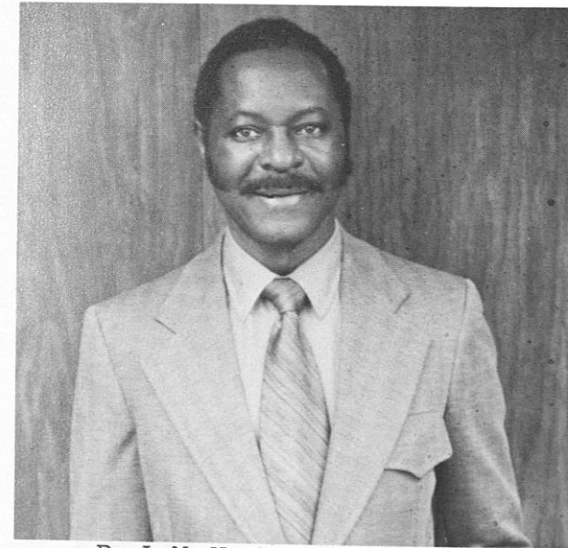

As our society has become more complex so has the array of problems which applied sciences graduates will face.

The School of Applied Sciences comprises five departments: Agricultural Sciences, Architecture, Business, Home Economics and Food Administration, and Industrial Technology. Each department is administered by the head of the department, who is responsible to the dean of the School of Applied Sciences for all programs assigned or developed in the department, including research, special projects, and community service programs.

Administration

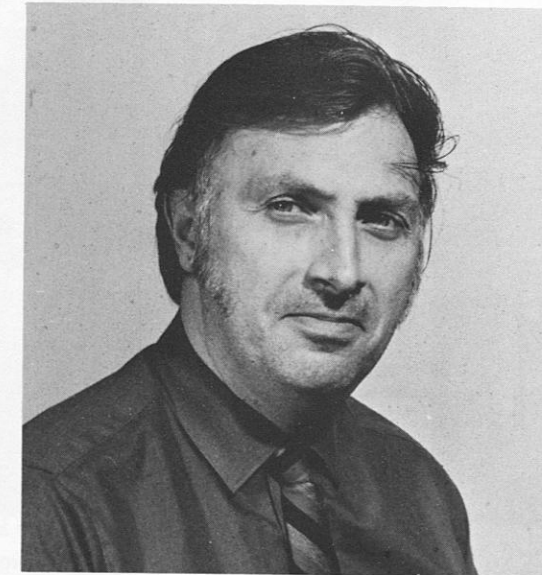

Dr. B. D. Mayberry, Dean
School of Applied Sciences

Dr. J. N. Harris, Head

Dr. Ronald A. Chung, Acting Head
Department of Home Economics and
Food Administration

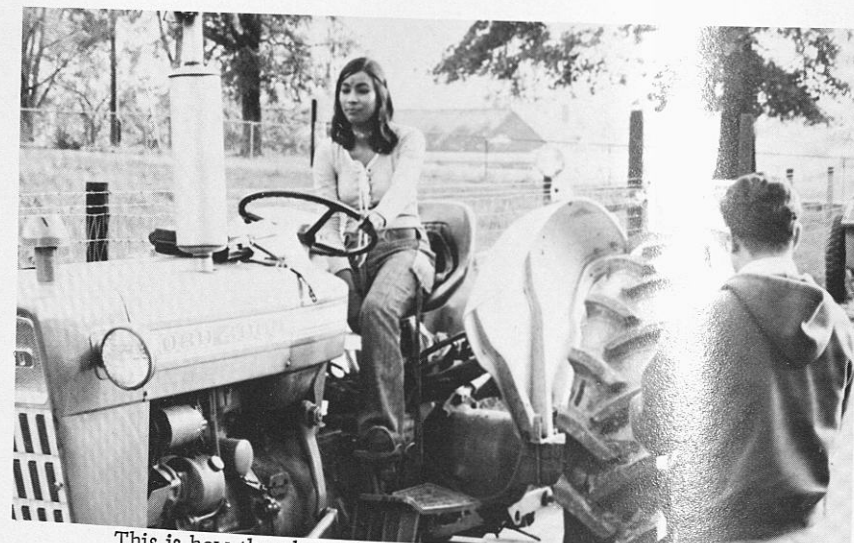

Department of Agricultural Science

The Department of Agricultural Sciences is composed of three separate, yet closely interrelated programs. These programs are (1) Animal and Poultry Sciences, (2) Plant and Soil Sciences and (3) Environmental Sciences.

Curricula in Agricultural Sciences are designed to prepare individuals as trained professional and technical agriculturalists, who possess an insight into the scientific disciplines and who are proficient in modern agricultural practices. These curricula provide for (1) Fundamental training in the basic sciences; (2) experiences designed to broaden the student in general education; (3) systematic culture and (4) intimate contact with scientific, professional and technical agricultural workers.

Dr. C. O. Briles, Professor of Poultry Science

Professor E. T. Miles, Plant and Soil Sciences

Secretary of Agriculture, Earl Burtz, greets students majoring in Plant and Soil Science on his recent visit to Tuskegee Institute's Agricultural Research Farm. With him are Former Postmaster General Mr. Winton Blount and Dr. B. T. Whatley, Professor of Plant and Soil Science at Tuskegee.

Agricultural Science Riding Club.

Students separating plant hormones and vitamins in a general Plant Science laboratory session.

Department of Business

The curriculum, which leads to the degree of B.S. in Business, is organized to meet modern requirements for quality education leading to successful careers in Business, Public Services, and related fields. Emphasis is placed on the development of the students' critical, analytical, problem-solving, and decision-making capabilities.

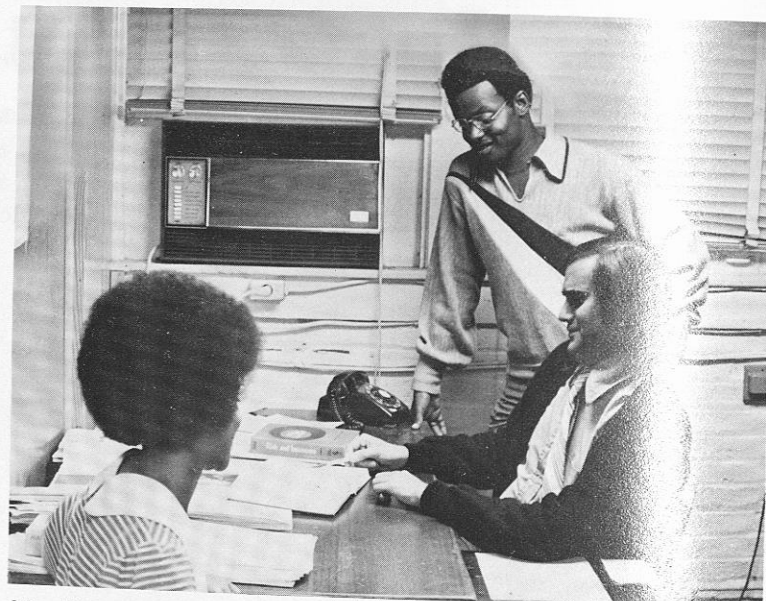

Mr. Jimmy King, Jr., Head, Department of Business, assists students in use of the computer card sorter.

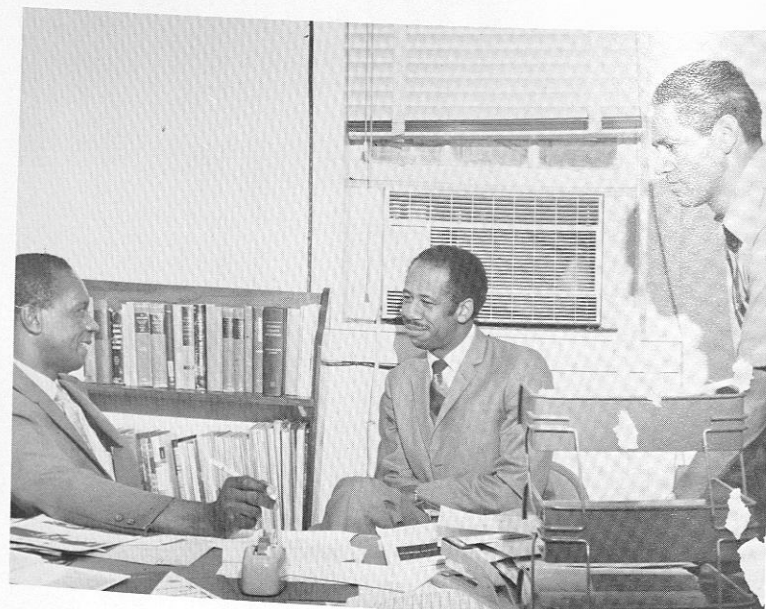

Student-Staff-Faculty Conference in Business Procedures.

Mr. King discusses the new curriculum in Business with colleagues.

Mr. Harvey Mirsky, Instructor in Business, in a conference with students on new marketing concepts.

Business faculty members in conference.

The Department of Home Economic and Food Administration —

The Department of Home Economics and Food Administration consists of five areas: (1) Clothing and Related Arts, (2) Food Administration, (3) Food Science, (4) Nutritional Science, and (5) Hospital Dietetics. Except for Hospital Dietetics, which is a postbaccalaureate program, each of the listed areas leads to a Bachelor of Science Degree. These undergraduate curricula provide a broad general education plus professional competency for positions in educational and social agencies, health service agencies, community services, certain branches of business and industry related to human needs, research laboratories concerned with foods, nutrition or textiles, and public and institutional food services.

Dr. Tolbert instructing students in the use of computer analysis in Food and Nutrition Research.

Radioisotopes are used to trace the metabolic pathways of foods.

Metabolic Research Laboratory - Hospital Dietetics

Food Administration Laboratory

The preparation of food samples for food and nutritional studies

Graduate students conducting vitamin assays using microbiological techniques.

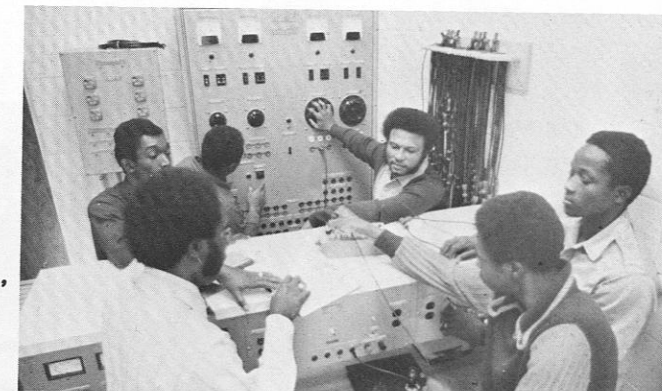

The application of gas-liquid chromatography in determining fatty acid and amino acids in foods

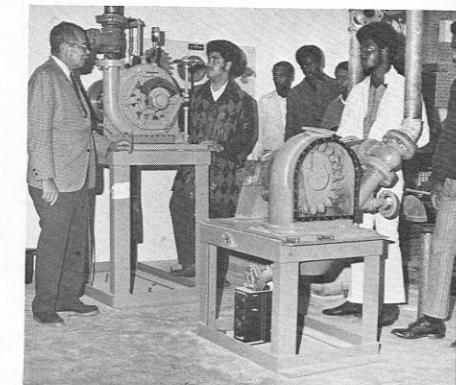

Checking Patient's Tray Line - Hospital Dietetics

Department of Industrial Technology

The Industrial Technology program is organized to provide students with scientific, technical, and leadership preparation for the more promising opportunities in construction, production, manufacturing, development testing, systems analysis, instrumentation, and effective utilization of materials and machines. Building Technology and Electronics Technology are the major program offerings in Industrial Technology.

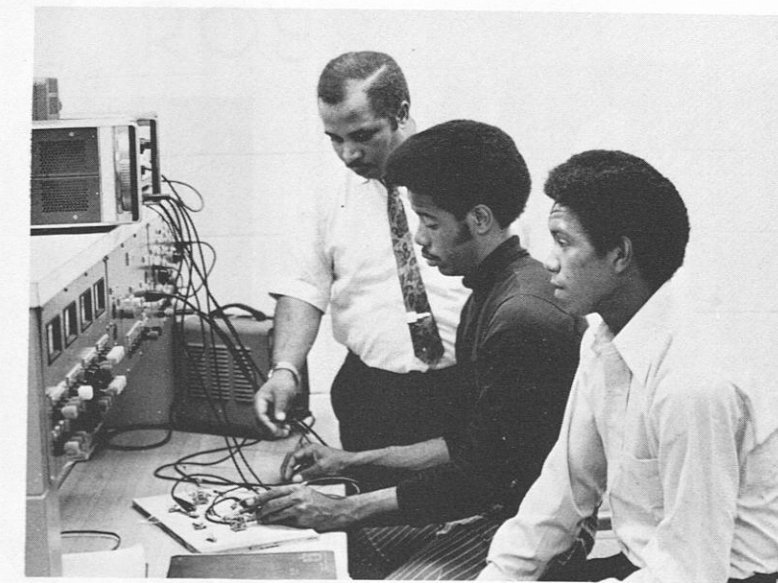

Students gathering data to complete electronics laboratory report.

Cooperative Education

Dr. J. N. Harris, Director, Cooperative Education Program

James Dunbar, A Co-op student with the Du Pont Company at the Savannah River Plant, Aiken, S. C., is shown discussing a problem with his supervisor.

Cooperative Education is a college program within which students are employed for specific periods of off-campus work as a required part of their academic program. This employment is related as closely as possible to the student's course of study and individual interest. The student is paid for his Co-op work periods by the cooperating employer. The financial assistance which

Program

results can be of great help in financing a college education. While financial reasons are secondary to the educational benefits to be derived from the job, the earning ability is important to most people and is often the enabling device to make such an education possible. Student earnings vary with the discipline which is being studied and with different sections of the country.

Mr. George Howard, III, Co-operative Education Coordinator, talked with Tuskegee Institute

Co-op students on a recent visit to Oak Ridge, Tennessee.

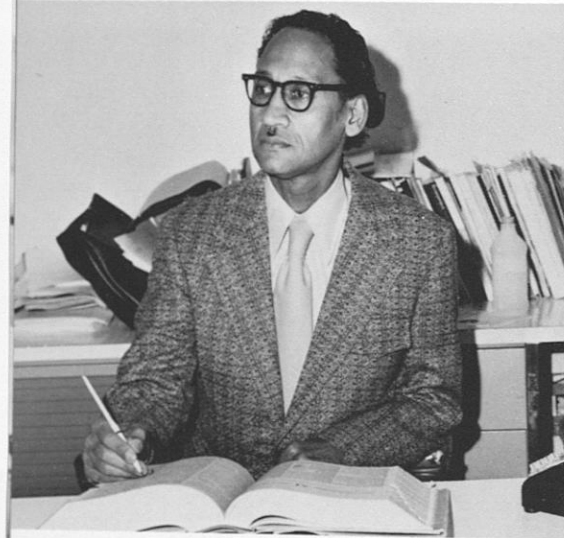

Clarice Smothers is a bright, ambitious, attractive, black beauty from Birmingham, Alabama, who has a lot going for her as a Co-op student at the Bell Labs Indian Hill Laboratory in Naperville, Illinois.

Upshaw H. Sams, a star Tuskegee Institute athlete, is also a Co-op student at Eastman Kodak company in Rochester, New York.

The Division of Behavioral Science Research

Over the years, Tuskegee Institute has had a distinguished history of involvement in organized social research and data compilation through the Rural Life Council, the Department of Records and Research, and the Office of the Director of Research. In September, 1967, the research activities of the Carver Research Foundation were expanded to include the Division of Behavioral Science Research. The inclusion of the Behavioral Science Research in the Carver Research Foundation made it possible for faculty and students in academic units other than the natural sciences to engage in research activities on the same basis as those in the natural sciences.

The focus of research in the Division includes race relations; student attitudes and aspirations, problems related to rural development, poverty and its alleviation, migration, adoption and divorce. Much of the research in the Division is supported by grants and contracts from government agencies and private foundations.

LEFT TO RIGHT: Dr. Lewis W. Jones, Research Associate, Division of Behavioral Science Research and Director, Center for Rural Development Research, and Dr. John Chavis, Director, Behavioral Science Research.

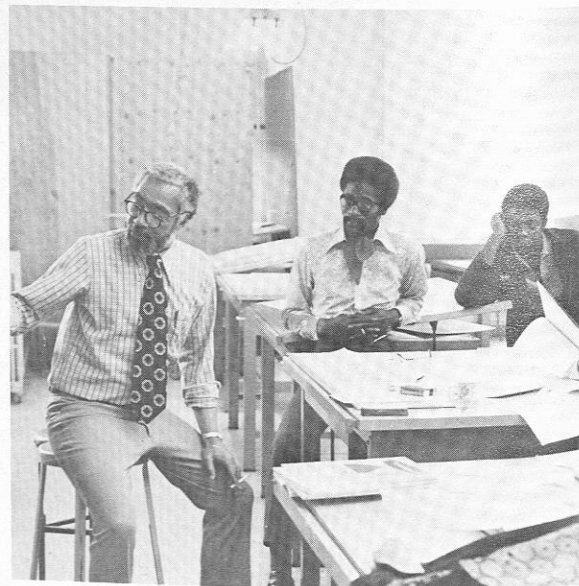

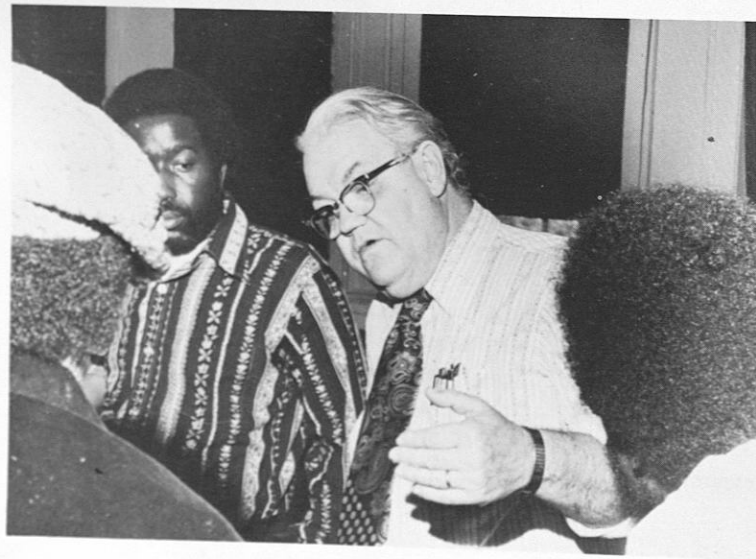

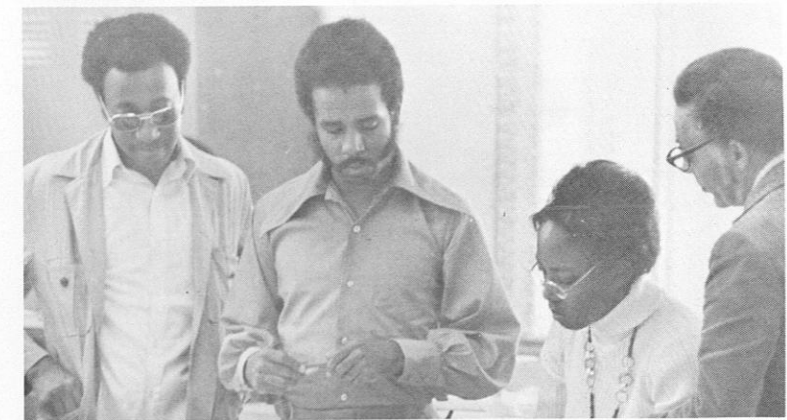

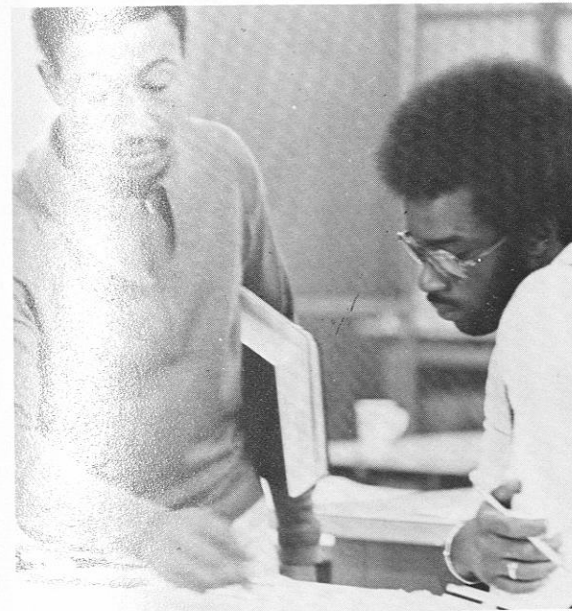

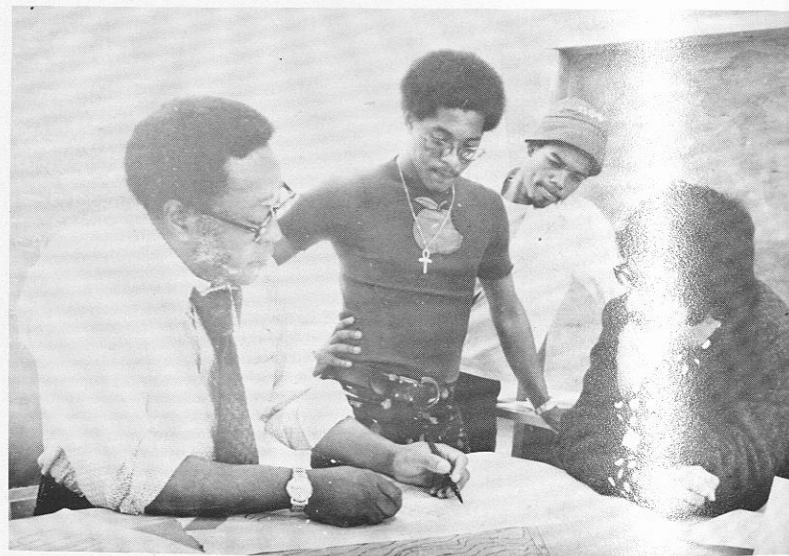

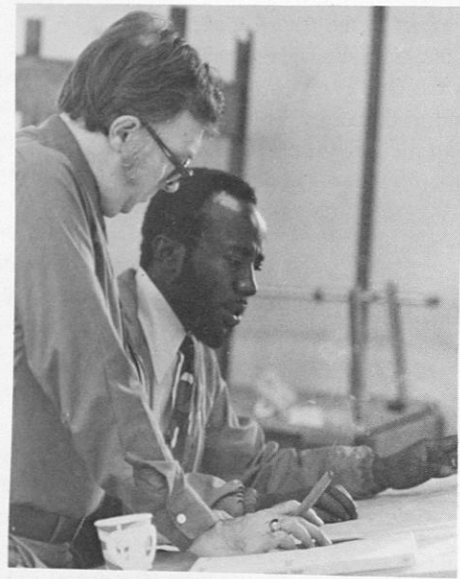

Center for Rural Development Research

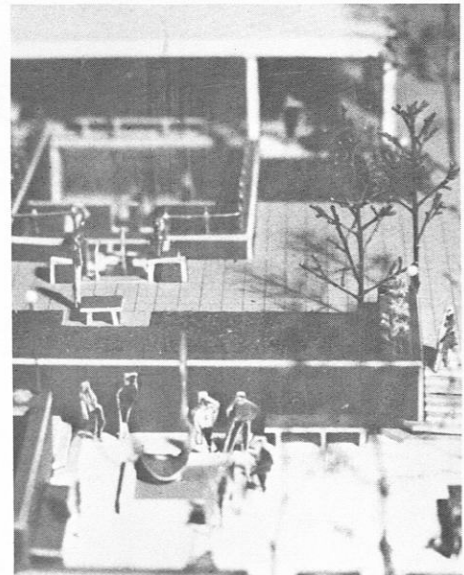

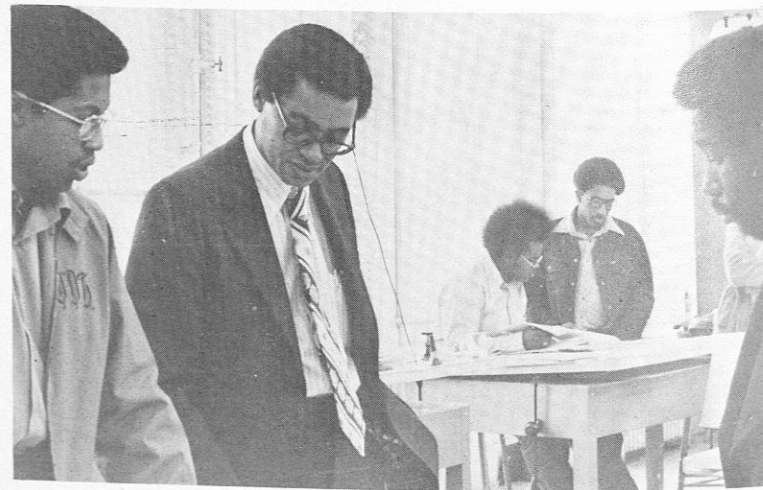

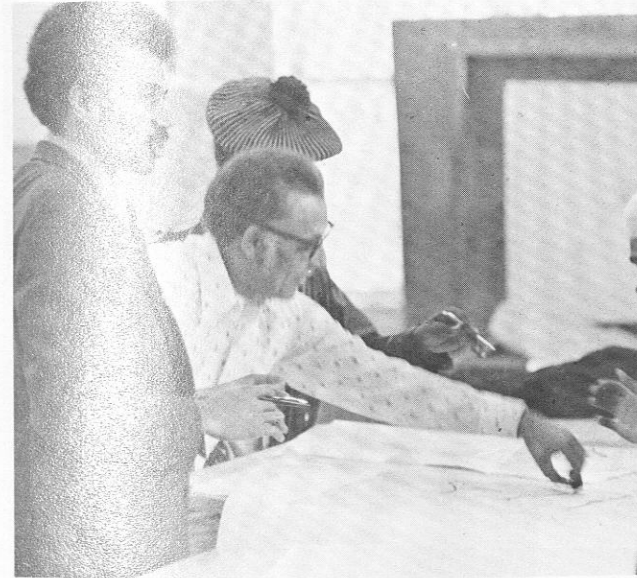

On July 1, 1972, the Center for Rural Development Research became a part of the Division of Behavioral Science Research. The Center was begun in 1971 as a regional center for the promotion, facilitation and coordination of rural development research in the behavioral sciences among the land grant colleges in the Southeast Region of the United States. Dr. Lewis W. Jones, Research Associate in the Division of Behavioral Science Research, has been appointed Director of the Center. As the Center moves to meet the challenges presently faced in rural America, its roles as a coordinating and research unit dealing with the problems of rural life in America, its roles as a coordinating and research unit dealing with the problems of rural life in America, will allow it to make a major contribution to our Region and our Nation.

STAFF OF BEHAVIORAL SCIENCE RESEARCH: STANDING, Left to Right: Dr. John Chavis, Director, Division of Behavioral Science Research; Mr. Richard Maye, Student Office Assistant; Mrs. Dalia Ducker, Research Analyst; Mrs. Celia H. Jefferson, Administrative Secretary; Miss Gladys Lyles, Faculty Research Assistant; Mr. Donnie Jackson, Student Office Assistant; Miss Jan Robbins, Student Office Assistant; Mrs. Pat Hill, Librarian Accountant; Mrs. Rita Foy, Research Assistant; Miss Ellen J. Knight, Student Typist. SITTING: Mrs. Norma Carson, Senior Research Assistant and Dr. Lewis W. Jones, Research Associate.

IEEE officers working in Electrical Engineering laboratories.

Department of Agricultural Research

In September 1971, Congress appropriated funds specifically for agricultural research by the Land Grant Colleges of 1890 and Tuskegee Institute. This appropriation resulted in a marked expansion of agricultural research activities. To assist in the administration of the expanded program in agricultural research and in research in the applied and natural sciences, a new administrative division was established within the Carver Research Foundation: The Division of Agricultural, Applied and Natural Science Research.

The initial activities of the Division are directed toward planning the USDA supported agricultural research program to complement teaching, outreach, and other research activities. The following are selected examples of the research:

Under Dr. Booker T. Whatley: Sweet potato breeding to develop a variety of sweet potatoes that can be used as a substitute for corn in livestock feed.

Under Dr. P. K. Biswas: Studies to develop a method to make maximum use of weather in control of weeds in field and vegetable crops.

Under Dr. Ronald A. Chung and Dr. Bernadine Tolbert: A study of the relationship between nutrition and disease in the population served by Tuskegee Institute's outreach programs.

Under Dr. E. M. Jenkins: Survey to determine the major nutritional and infectious disease problems of swine raised in Southeast Alabama.

The position of USDA Liaison Officer was established by mutual consent between USDA and Tuskegee Institute to be filled by a USDA employee. This position was established to strengthen relationships and facilitate cooperation between USDA agencies and Tuskegee Institute in areas of mutual interest in extension, research, teaching, and employment. It was through the Liaison Officer that a number of students obtained summer employment in 1972 with USDA agencies.

This year the enrollment in AFROTC is a total of 148, with 52 of these cadets enrolled in the Professional Officer Course which leads to a commission as a Second Lieutenant. Last School year, 21 cadets were commissioned and put on active duty.

The AFROTC program at Tuskegee Institute enrolls students in the two-year and four-year programs. The programs are available for women and men students to enter and pursue a commission.

AFROTC offers scholarships to students in the two-year and four-year programs who meet the application requirements. These scholarships cover full tuition, fees, and \$100.00 per month. Presently, there are 20 cadets on AFROTC scholarships.

The AFROTC staff consists of four officers and three Non-Commissioned Officers.

Major Richelieu N. Johnson, Professor of Aerospace Studies and AS400 Instructor

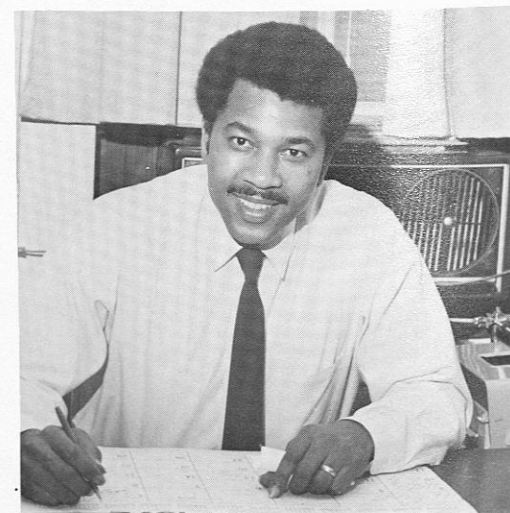

Captain Raymond R. Cook, AS100 Instructor and Commandant of Cadets

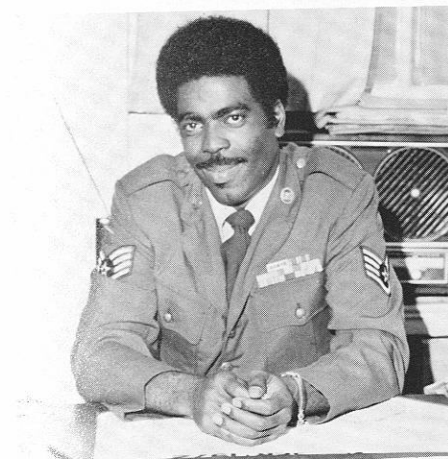

Captain Melvin G. Ross, Jr., AS200
156 Instructor and Administrative Officer

SSgt. Alexander P. Alston
Chief Administrative Division

SSgt Vernon Gray
Personnel Supervisor

SSgt Willie J. Lenard, Administrative Specialist

Captain Robert W. Western, AS300
Instructor and FIP Ground Instructor

Cadet Captain Ronald Durrah, Cadet 1st Lt. Samuel L. Love, and Captain Robert W. Western. Captain Western is the FIP Ground Instructor

Army ROTC

The Army ROTC Program at Tuskegee Institute has as its objective to place on active duty Lieutenants who will demonstrate dedication to their assignments; willingly accept responsibility; think critically and creatively; and who have the ability to communicate with clarity and precision.

In today's modern volunteer army the Officer Corps must be better educated, more versatile, and have a higher degree of professionalism than ever before.

In educating the students in ROTC at Tuskegee to meet these challenges, changes in teaching techniques, curriculum and leadership development have been made. The curriculum of the Senior Division ROTC has been changed to compliment the students' professional training in his chosen area with leadership training. This leadership training specifically prepares the student to comprehend and cope with tomorrow's challenges.

Students who successfully complete the Army ROTC Training realize a sense of high personal achievement and the self-satisfaction of being able to handle with assurance the many executive challenge in the modern Volunteer Army.

LTC Arthur H. Seabrook, Professor of Military Science discusses Cadre assignments with the new detachment Sergeant Major: SGM James Harris.

CPT Philander K. Ratcliffe, Operations Officer and principal instructor, Junior class, discusses training plans with SFC William N. Roland, Operations Sergeant.

MAJ Ervin N. Page, Adjutant and Principal Instructor Senior class, discusses administrative procedures with SSG Winston L. Baker, Administrative Specialist.

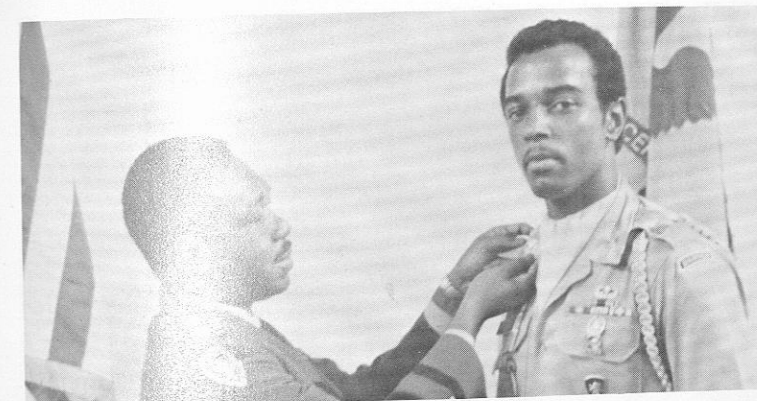

CPT Milton D. Corley, Security Officer and principal instructor, Sophomore class, checks safe security log with SGT Denny Bridges, Supply Specialist.

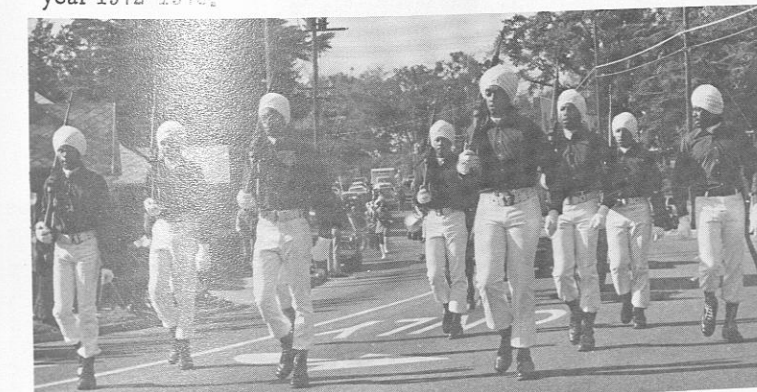

MAJ Harold R. Williams, ROTC property officer and principal instructor, Freshman class, checks property records with SSG Horace Laws, Supply Sergeant.

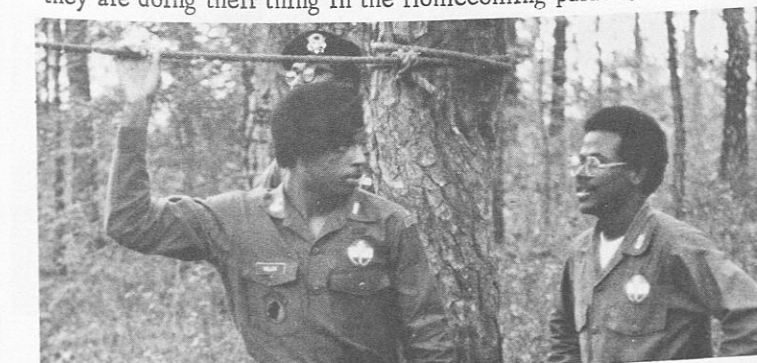

Miss Ruth Evans, Civilian Secretary, performs one of her many important duties by phone.

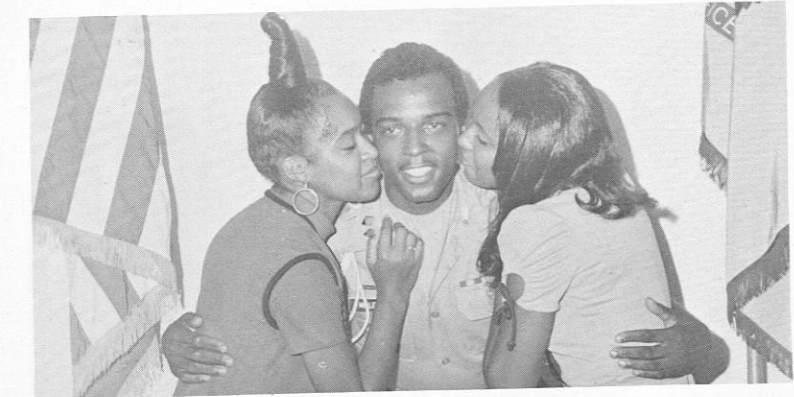

LTC Seabrook, PMS, pins rank of Cadet Lieutenant Colonel on Cadet Thomas Miller, the cadet battalion commander for school year 1972-1973.

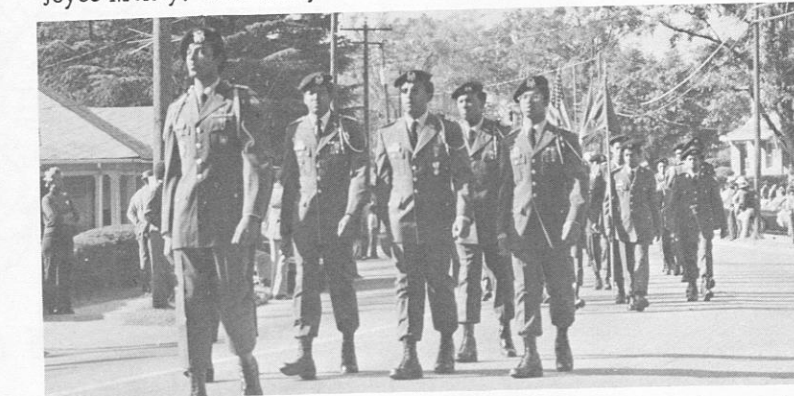

The Pershing Rifle Drill Team always look sharp and snappy. Here they are doing their thing in the Homecoming parade.

The Cadet Battalion Commander, LTC Miller discusses training with fellow Senior student, Cadet 1Lt Elton Bruce.

The coed queens also get involved in support of ROTC. Shown here congratulating Cadet LTC Miller are Joan Floyd: Miss ROTC, and Joyce McRoy: Miss Army ROTC.

The Battalion Staff, standing tall, looking good, leading the way in the Homecoming parade.

Training in confidence building can be downright risky business; but we learn by doing.

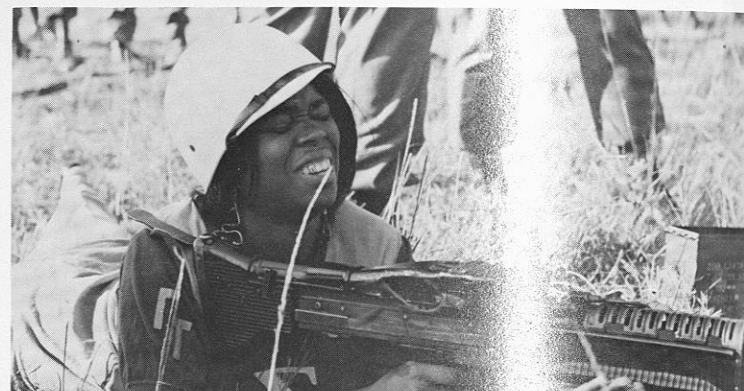

Senior cadets are constantly evaluated by Cadre personnel. Here CPT Milton Corley, Assistant PMS, gives pearls of wisdom to Cadet 1Lt Bruce Brown.

Miss ROTC, Joan Floyd, is always around during ROTC training periods. Here she takes a coke break while observing training.

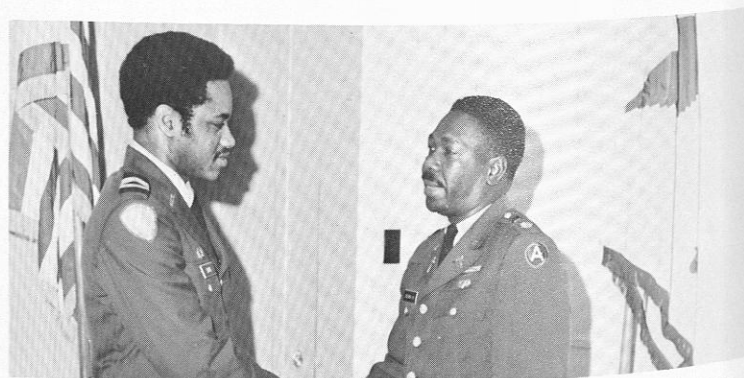

SGM Royster finally retires after more than 30 years service. Here he receives The Meritorious Service Medal.

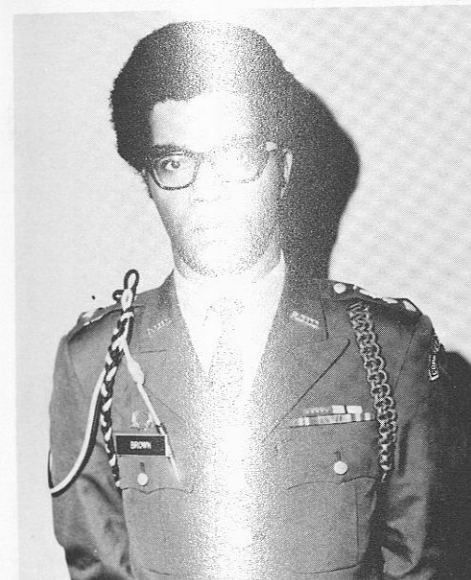

Coeds at Tuskegee show interest in ROTC Training. Here a coed tries her hand at firing the M-60 machine gun during weapons training.

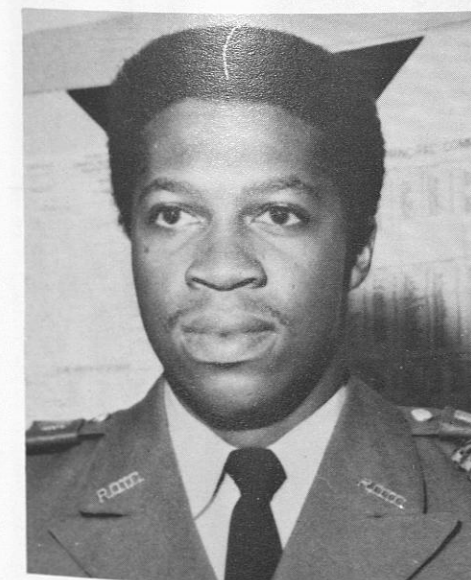

Tiger Chapter, AUSA, the leaders in ROTC, shown here with LTC Seabrook, PMS and CPT Corley, Chapter Advisor.

Cadet SFC Hornsby Sams is congratulated by LTC Seabrook upon being awarded an Athletic Scholarship in Football.

DEPARTMENT OF THE ARMY
200th Ordnance Detachment (GMGS) HAWK
U.S. Army Unit Training Command
Redstone Arsenal, Alabama 35808

28 November 1972

FROM: Lt Thomas H. Brown
200th Ord Det (GMGS) HAWK
Redstone Arsenal, Alabama 35809

TO: LTC Arthur Seabrook
Professor of Military Science
Tuskegee Institute
Tuskegee Institute, Alabama

Dear Sir;

I was more than happy to have had talked with you during our recent telephone conversation. I consider you and your staff at Tuskegee to be among the most capable among military instructors.

Before I graduated from Tuskegee I could not visualize myself as one of those "guys" who would soon be wearing the olive drab of the U.S. Army, but since I have been in the service I cannot now visualize any other profession that affords a man as many opportunities for responsibility and advancement as does the Army.

I have been praised and awarded on numerous occasions for my ability as a leader, but within myself I know that whatever abilities I have as a soldier and leader, I owe completely to you, your staff and the faculty at Tuskegee Institute.

I am proud to tell anyone that I am a product of Tuskegee and that the ROTC department there is among the best. A cadet from Tuskegee can compete with any individual from any other school including the service academies.

Tell all of the cadets at "Skegee;" those who remember me and those who never knew of me that basically I am the same old "T. Brown," but now I feel much more mature and much more aware of my future and myself. Also tell them that when they come on active duty not to rest until they receive a command. I am the Commander of a 55 man Hawk Missile Maintenance Detachment and I love everything about my job, even though my MOS is Supply Management.

Well sir, now I will close, but I do appreciate your assistance in applying for this fellowship and thanks again to you and your staff while I was in school at Tuskegee.

/s/Thomas H. Brown
/t/THOMAS H. BROWN
2LT, OrdC
Commanding 200th Ord Det

A recent graduate expresses his feelings and thanks to the faculty and the Army ROTC Department for the leadership training he received while in college.

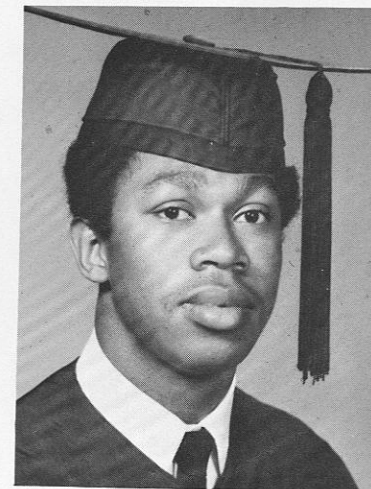

Miss Army R.O.T.C.

Organizations

THE OMBUDSMAN
Carl Statham is a senior majoring in Business Management from Macon, Georgia.

Ombudsman

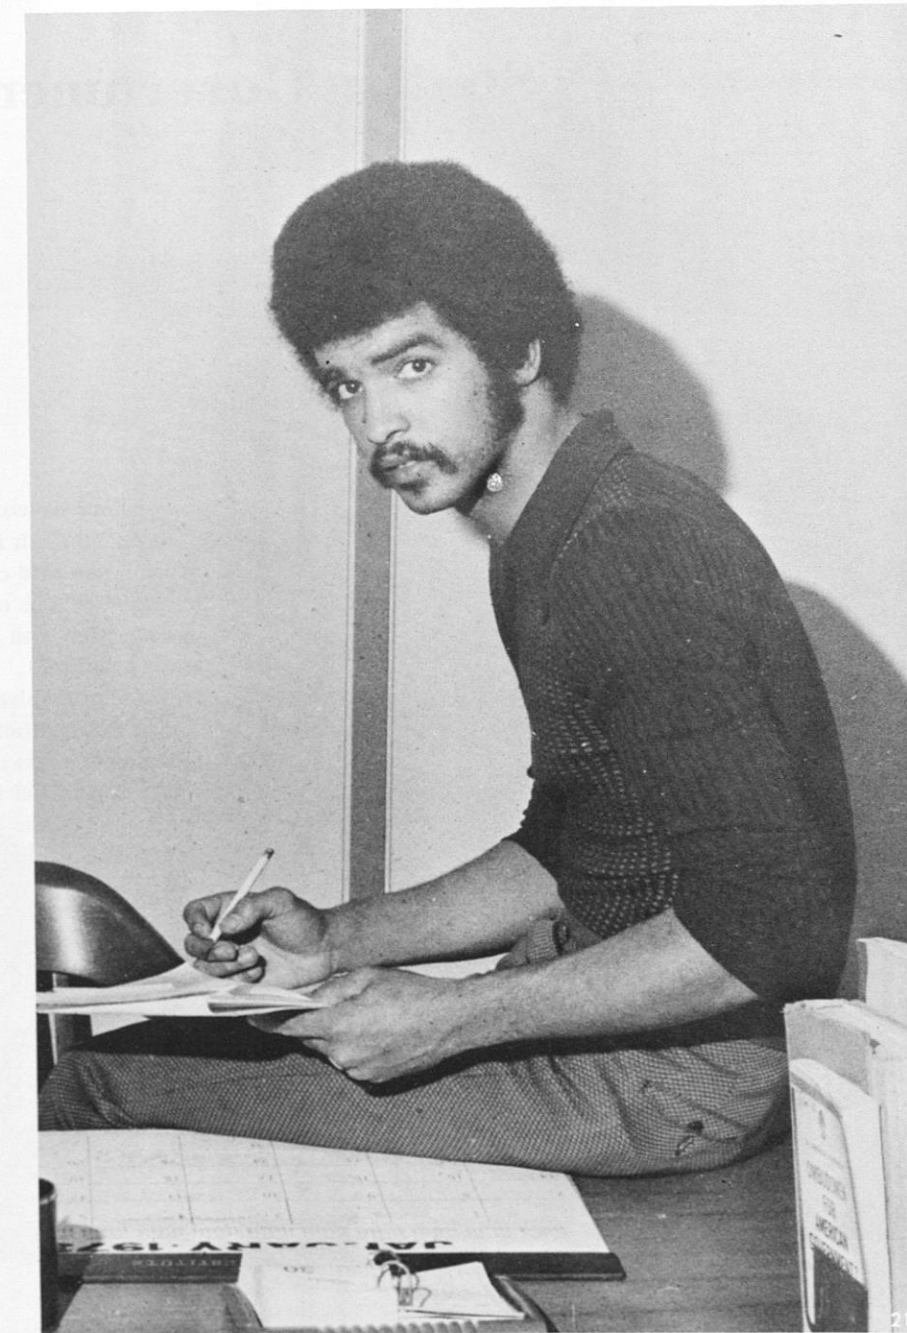

The student ombudsman is appointed by the President of the Institute from a panel of three students chosen by the Executive Council from applicants for the position. He must be an upperclassman who is not on academic or social probation.

DUTIES OF OMBUDSMAN

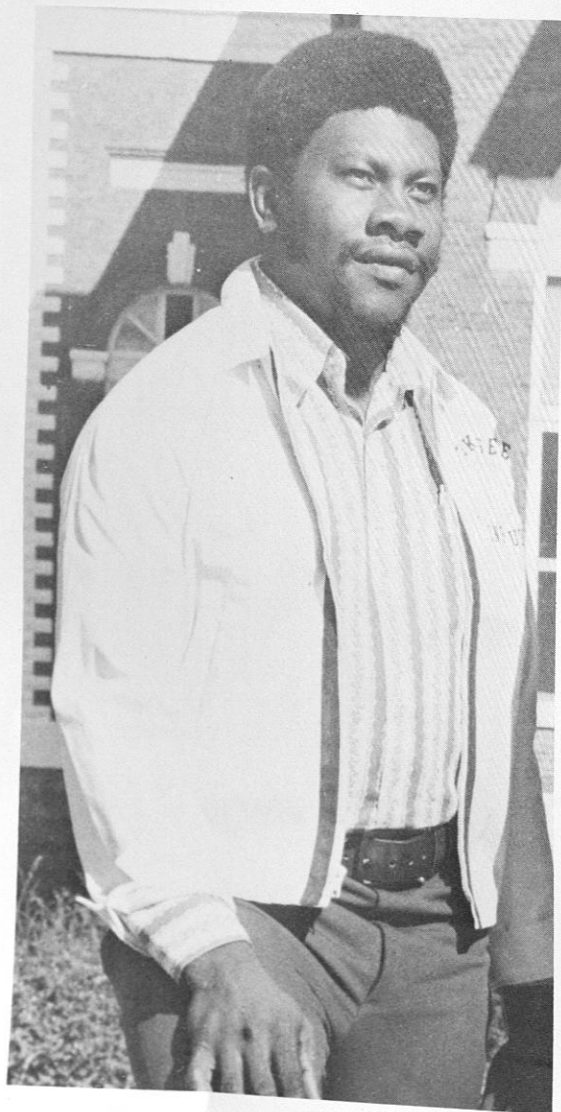

... Receives and reviews student grievances and institutes investigations whenever necessary.

... Calls attention to acts of indiscretion wherever these are found among faculty, staff, students or administration in carrying out their official duties.

... Suggests changes in rules, procedures, and policies whenever these are deemed necessary.

TUSKEGEE INSTITUTE
TUSKEGEE INSTITUTE, ALABAMA 36088
TELEPHONE NO. 727-8265

A MESSAGE FROM THE PRESIDENT

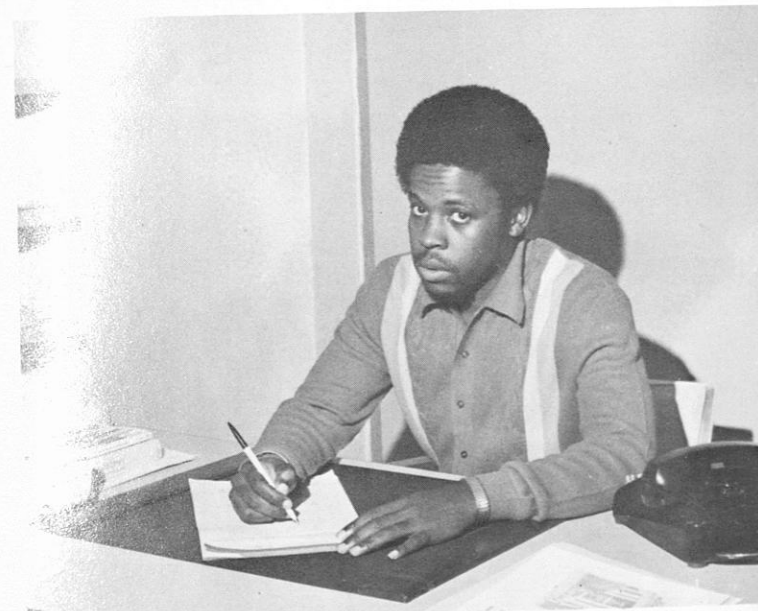

Student Government means a lot to a few people. The question that is often asked is, Why? It is a known fact that your returns are proportioned to your demands. The hard core fact is, very few students demand and support the organization that could be of great benefit to them. It should be part of all students college experience to get the maximum out of whatever they come in contact with that is beneficial.

Student involvement means something great to the growing effectiveness of campus organizations in general. Student Government which represents the entire student population could strive further with student support. We have proven this to be a fact by our increased involvement of students on various class levels. Our attempt to provide a variety in our program is successful. Student participation will make our organization the most successful in the last seven years. We are striving to make Student Government mean a lot to more people.

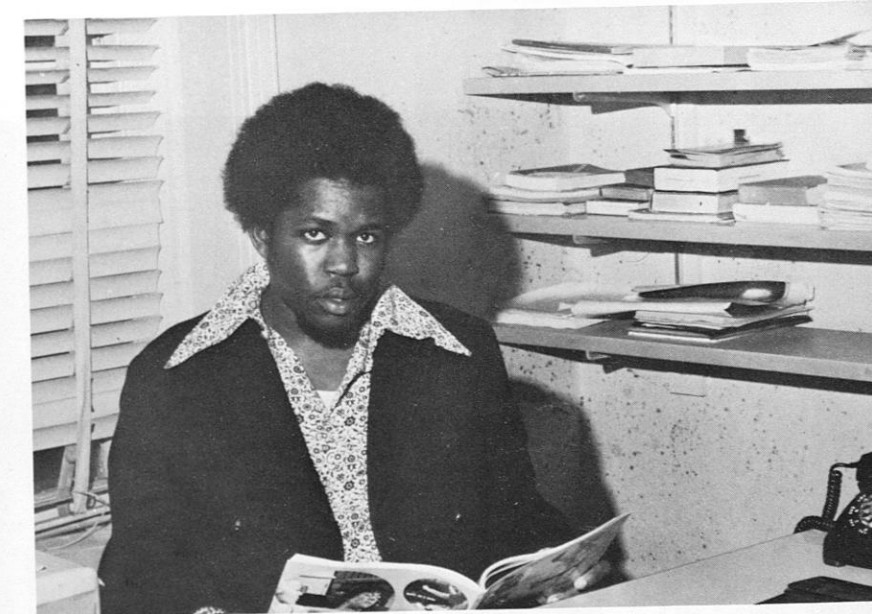

Respectfully yours,

Willie Wakefield

Bro. Mitch must have seen 'Super Fly.'

Right on for the Alpha Angels.

THERE GOES AN ALPHA MAN

There goes a man of high impulse
Of princely mien and grace
There goes a man of humble faith
A credit to his race
There goes a man of conscience vast
With will to reach his goal
There goes a man of lordly rank
Of heroes' stock and soul—

There goes a man of noble caste
Whom hardship cannot break
There goes a man in merit clad
Whom duty won't forsake
There goes a man in cultured verse
Who holds a sportsman's creed
There goes a man too vigilant
To bow to lust or greed
There goes a man whose life is spent in service not in scorn
There goes a man whose majesty
Shines like a May time morn.

There goes a man who is a friend
To love and duty truth
There goes a man to help uplift
The lives of wholesome youth
There goes a man with industry and faith at his command
There goes the best man in and out
For he is an Alpha Man.

The Alpha Angels

The Alpha Angels of Alpha Phi Alpha Fraternity, Gamma Phi Chapter, was organized on November 15, 1972. It has a membership of 23 young ladies, who have different backgrounds and attitudes, but they all share a common bond. That bond is their undying love for the men of Alpha Phi Alpha.

The Angels will function with the brothers of Gamma Phi Chapter in the capacity of their Sister organization.

GAMMA EPSILON OFFICERS
1972 - 1973

In the year 1911 in a white southern town Bloomington, at an all white college, Indiana University, ten black students wanted a change.

In the midst of segregation, in the midst of prejudice, in the midst of discrimination these ten students formed our fraternity KAPPA ALPHA PSI.

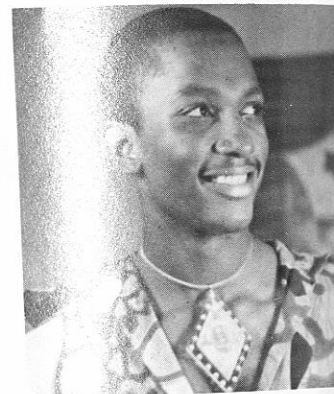

These ten men believed in and strived for our main purpose ACHIEVEMENT and today while in the midst of old and new problems we as Kappas and Black people strive to ACHIEVE morally, socially and intellectually.

Dedication

The 1972-73 Tuskeana is proudly dedicated to Mrs. Elizabeth Wright. Since 1949 Mrs. Wright has been administrator of the College Union. She has had a favorable association with students for many years and has an abiding faith in the future of young people, especially the students of Tuskegee Institute. A native of Knoxville, Tennessee, Mrs. Wright received her A.B. Degree from Knoxville College, did graduate work at Tuskegee Institute, and received her Master of Education Degree from Auburn University. Under Mrs. Wright's supervision, the College Union has progressed from a small eperatidual program to an enlarged one. This became especially true after renovations were made in 1960 including educational, social, and recreational activities for students, staff, alumni, and friends. During her stay here, Mrs. Wright has faithfully and diligently worked with student organizations, admission to the freshman class, the College Union Board, and is currently the director of all activities involving student organizations and clubs.

For your untiring efforts in our behalf, Mrs. Wright, we thank you in this small way.

No. 2 nationally—

Tuskegee is gunning at 19-4

BY AL O'BRIEN
News sports writer

The state of Alabama is having a banner season in college baseball, and a team having much to do with this fact is Tuskegee Institute.

Coach James Martin's Golden Tigers, currently the second-ranked team in the College Division of the National Collegiate Athletic Association (NCAA), are 19-4 after defeating Albany State 8-4 and then losing 11-10 at the Georgia school Saturday.

Eighteen of these wins have come in the last 20 games.

The 18th victory, the team's sixth in a row, was at the expense of Florida A&M Tuesday by the score of 4-3.

THE TIGERS, who are 15-2 in the Southern Interscholastic Athletic Conference, have an excellent chance of landing

Mon., Apr. 17, 1972 The Birmingham News —17

LORENZO OGDEN

... At top of list

a berth in the 1972 NCAA playoffs in the College Division.

Should they go, this would

be the second time in four years. They went in 1969, when they lost out to Illinois State in Cleveland, Miss.

Six regulars are hitting the ball at an eye-opening .353 or better, but Lorenzo Ogden of Birmingham is clearly at the top of this list.

The senior first-sacker is batting .460 with nine home runs, and 18 rbi's. He has scored 20 runs and stolen five bases. He leads the teams in average, runs scored and homers and is second in rbi's.

Other impressive batfielders prior to Saturday's games were shortstop Curtis Crump, .389; third baseman Richard Shaw, .387; second baseman Smith Atwater, .375; left-fielder Kenneth Threadgill, .365; and right-fielder Mac Shivers, .353.

ONCE ATWATER gets on the bases, he is a terror; he has stolen 27 bases, three more than Threadgill.

SHAW HAS five homers and 13 rbi's. Shivers and Crump each have 17 rbi's.

An outstanding mound staff is headed by Lucious McDade, who owns a 5-0 record. Charles Allen is 6-1, Reese Henderson 4-1 and Willie Johnson 3-1.

Allen has a remarkable earned-run average of 0.77, while McDade has one of 1.22.

McDade also leads in strikeouts with 64 in 51 $\frac{1}{3}$ innings,

while Allen had 38 in 46 $\frac{2}{3}$ innings and Johnson 29 in 22 innings.

The entire pitching staff has six shutouts, one no-hitter, three one-hitters, one two-hitter and five three-hitters.

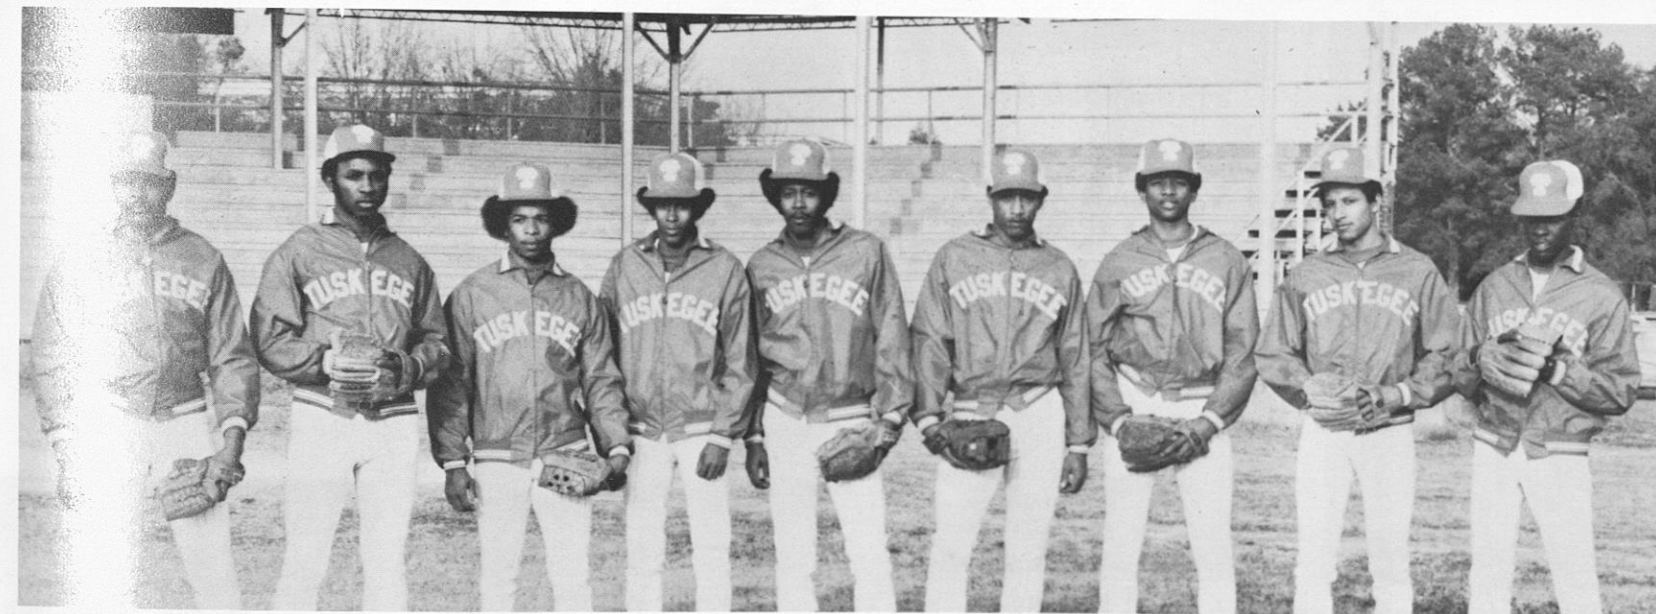

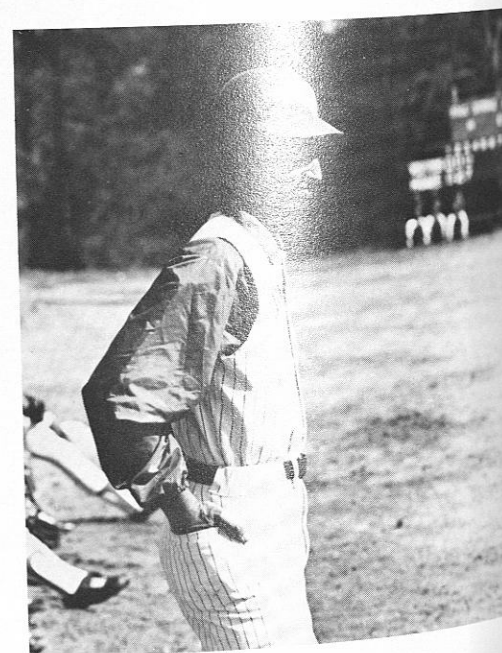

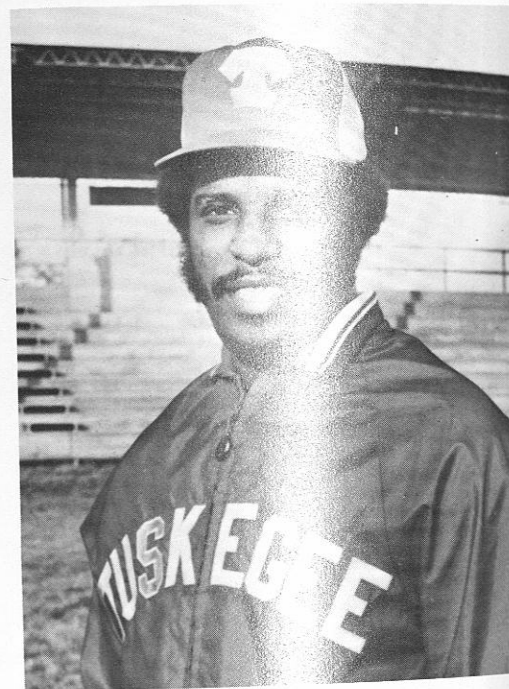

The only teams besides Albany to beat the Tigers this season have been Spring Hill (2-1), Alabama State (11-4) and, most recently, Tennessee State (9-0).

They will have a chance to atone for one of those when Alabama State visits Tuskegee Monday.

Shadow — The Light The White Man's Strange

By HERBERT TOWELL

His most descriptive weapon
For their came the light of dawn.
The delicate, luminous rays of the
Sun would softly pierce the earth's
atmosphere
And the shadows would rise.
For they rose like a natural high.
Sentimental, soft, unsexed.
The white man moved in the light.
And the shadows moved.
The shadows followed him everywhere.
Like footsteps followed feet.
Or like a tick that followed tick.
tick tock, tick tock.
Shadows were victims of hostility
and injustice.
They were spit on
Vomited on
And even urinated on.
For anger was mute, silent.
They were passive.
This white magician:
He could stand bold and erect.
And command shadows to toil the fields.
The shadow could do it.
Epormous power he had.
He could seduce woman shadows.
Strip them of their
Beauty
Identity
Virginity
Ooh!!! This vicious magician.
But he had to do it in the light.
And this light has shone for centuries.
The shadows are no more a shade of Black.
For they exist in multitude of colors.
Darkness was the weapon of the shadows.
When darkness approached the
Shadows would merge together for form the night.
Yes, they were the night.
At night they tend to die down like the ocean tides.
This magician had magic, but lacked logic.
He did not realize that the shadows were the night.
And they reflected across the land during the day.
In power they had the night and portions of the day.
For the mother night came to aid of the lonely oppressed shadow.

And the strength of Blackness externalized
Dawn approached again.
The magician looked at his shadow.
And the shadow stared him back.
Dead in the eyes, rather stoically.
He looked around and the shadow had a shadow of his own.
The magician said "Hocus Pocus"
The shadow replied, "Hocus Pocus Back"
The white magician hit him, spit on him and called him NIGGER!!!
The shadow hit him back, spit on him and called him HUNKIE!!!
Thus ignited the glorious Black revolution
The liberated shadow, The Black Man.
Yes, and when night fell upon his ass, I felt sorry for him???

Will The Real Black People Please Stand Up?

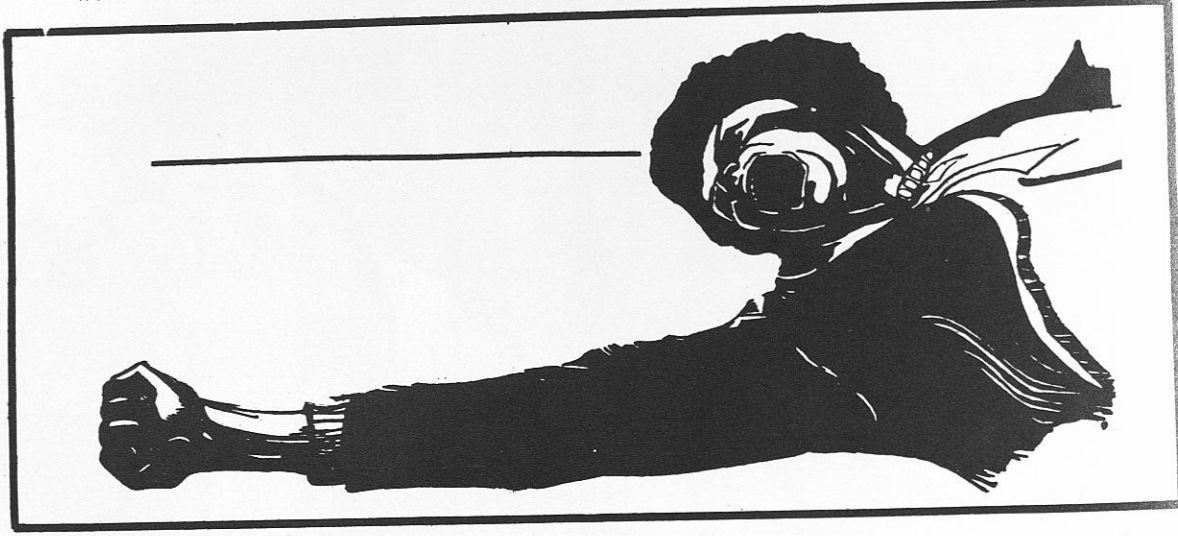

By RILEY HENDERSON, II

TO MY FRIEND
(that smiles and says hello)
she was good
i sometimes see her around,
we sneak a wave — hello.
i could see something in her
eyes,
(even from far away)
i didn't really know what
but, it was good
was i afraid of her?
she is Black; and i love her
we smile and say hello,
sneak a wave —
can i approach her?
do words really come easy?
i love her; she is Black,
i love her; she is Black,
i love her; she is Black,
and that's real good.

i don't know if she knows my
name
'or even cares to)
but i know hers.
there's something that shines
in her eyes —
(i don't really know what)
and i see her around
i want her to be, my Friend —
i love her; my good Friend
i love her; my Friend
that waves
i love her smile;
and say hello,
in the morning; (and all thru
the day)

she will be my Friend —

blk/grl — that smiles and says
hello —
hello; i love you
be my friend; i love you.
smile, and be my Friend (good)
and that'll be real good.
—— that'll be real good.

Shadow — The Light The White Man's Strange

By HERBERT TOWELL

His most descriptive weapon
For their came the light of dawn.
The delicate, luminous rays of the
Sun would softly pierce the earth's
atmosphere
And the shadows would rise.
For they rose like a natural high.
Sentimental, soft, unsexed.
The white man moved in the light.
And the shadows moved.
The shadows followed him everywhere.
Like footsteps followed feet.
Or like a tick that followed tick.
tick tock, tick tock.
Shadows were victims of hostility
and injustice.
They were spit on
Vomited on
And even urinated on.
For anger was mute, silent.
They were passive.
This white magician:
He could stand bold and erect.
And command shadows to toil the fields.
The shadow could do it.
Epormous power he had.
He could seduce woman shadows.
Strip them of their
Beauty
Identity
Virginity
Ooh!!! This vicious magician.
But he had to do it in the light.
And this light has shone for centuries.
The shadows are no more a shade of Black.
For they exist in multitude of colors.
Darkness was the weapon of the shadows.
When darkness approached the
Shadows would merge together for form the night.
Yes, they were the night.
At night they tend to die down like the ocean tides.
This magician had magic, but lacked logic.
He did not realize that the shadows were the night.
And they reflected across the land during the day.
In power they had the night and portions of the day.
For the mother night came to aid of the lonely oppressed shadow.

And the strength of Blackness externalized
Dawn approached again.
The magician looked at his shadow.
And the shadow stared him back.
Dead in the eyes, rather stoically.
He looked around and the shadow had a shadow of his own.
The magician said "Hocus Pocus"
The shadow replied, "Hocus Pocus Back"
The white magician hit him, spit on him and called him NIGGER!!!
The shadow hit him back, spit on him and called him HUNKIE!!!
Thus ignited the glorious Black revolution
The liberated shadow, The Black Man.
Yes, and when night fell upon his ass, I felt sorry for him???

BLACK EXPRESSIONS RICHARD NIXON — SUPERSTAR

Is The
Stage
Set?

Will
The
Curtain
Rise?

Nixon is my shepherd. I am in want.
He maketh me lie down in a pool of blood and disease.
He restoreth my doubts in the white man, his civilization and religion.
Yes, though I walk through the valley of the shadow of wealth
I am encircled and starved without conscience!
My old and young, women and children mean nothing to you.
Thou hast trampled upon my people, debased them and killed the man in me.
Thou suppliest arms and jets to Israel to fight against the Just.
Thou didst incite mine enemies and instigated a program against my people.
Thou annointest my race with hunger and pain.
Thou causeth the churches, hospitals, schools, and children of Vietnam to be
bombed and destroyed.
Thou convincest the world that we are the enemy.
Thou useth the UN to conspire against me and satisfy your whims.
Surely poverty, brutality and genocide shall follow me
All the days of thy system
And I shall dwell in the dungeon of America forever.

Wide World

To Tricky Dick On Election Day

By Riley Henderson, III

Is It
A
Stalemate
?

Tricky Dick; you show is slick/
you mind'd the harbour
and bombed the LAND:
you spent billions for death:
no-won-da-dey-call-you-de MAN
you took my tax-ees
and made a rocket dat-went-to-da-moon:
you de-valued de dollar-gonna do it a/gin soon:
Tricky Dick — you show is slick/
Trick us 4 years ago; by the head of a pin.
So slick — you done tricked us a/gin.
NOBODY died in the VE-IT NAM WAR TODAY
but two people died at the PARIS PEACE TALKS
.....of old age
and the war goes on.....
let me make this PERFECTLY CLEAR
TRICKY DICK is a TRICKY SLICK.....mann
Now you done slicked us a/gin.

Hey Tricky Dicky,
Is yow far/ers still sticky
wipe the blood off — quickie-quickie
you got SAMMY DAVIS Jr. on yow side
so he could sang to me/
while you slicked my vote
but that wuz a joke.
Tricky Dick — you show is slick/
you made it PERFECTLY CLEAR
.....what you wuz gonna do
you made it clear; now I'm starvin' on PHASE II
you made it clear; youmade it perfectly clear;
.....with the (yes) SIR TAX.
you made it clear; withalkindsa Apes on my back
Tho' it's perfectly clear.....
you committed almost every SIN
you tricked us so perfectly good
that its perfectly clear you'll WIN.

BLACK EXPRESSIONS

PHOTOGRAPHY BY BEN JOHNSON

The Black Expressions Page wishes to make this dedication to the two Black students whose lives were taken in the struggle, as well as those Brothers and Sisters who are determined in their efforts to destroy those forces which are aimed at their immediate and total destruction.

Brothers and Sisters, let us not forget

that we are facing forces which have no mercy — forces which are aimed at our total destruction by any means necessary.

Continue to be strong, Brothers and Sisters. Remember that one of the strongest weapons we have is "unity." Be ever conscious that we as Black people are about Liberation by any means necessary.

BLACK EXPRESSIONS

BLACK WORDS THAT

SAY:

DON'T CRY — SCREAM

By DON L. LEE

BUT HE WAS COOL
OR: HE EVEN STOPPED FOR GREEN LIGHTS

super-cool
ultrablack
a tan/purple
had a beautiful shade
he had a double-natural
that wd put the sisters to shame.
his daahkis were tailor made
& his beads were imported sea shells
(from some blk/country i never heard of)
he was triple-hip
his tikis were hand carved
out of ivory
& came express from the motherland.
he would greet u in swahili
& say good-by in yoruba.
wooooooooooooo-jim he bes so cool & in tel li gent
cool-cool- is so cool he was un-cooled by
other niggers' coo,
cool-cool ultracool was bop-cool/ice box
cool so cool cold cool
his wine didn't have to be chilled, him was
air conditioned cool
cool-cool/real cool made me cool — now
ain't that cool
cool-cool so cool him nick-named refrigerator
cool-cool so cool
he didn't know,
after detroit, newark, chicago &c.,
we had to hip
cool-cool/super-cool/ real cool
that
to be black
is
to be
very-hot.

DON L. Lee, poet, critic, essayist, and poet in residence at Howard University, is shown reciting his poetry.

Learning To Love Life

By DONITA STURDAVENT

to be
is to live when there's nothing
to live for
to search for the good when
you see nothing
but evil
to try to succeed when
failure seems certain
to love when you feel
nothing but hate
to search for hope in
the midst of despair
to find and strive for
goals regardless of obstacles
to search for the truth
find it face it and live with it
life was given to be
and when you come to be
LIFE IS BEAUTIFUL

NIGGERS YELLING 'I NEED TIME'

By WARREN RENTHROPE

Niggers yelling
I need time

Can't work today
I need time

To do it tomorrow
Time to get my mind together

My mind
Ticking back and forward
Like a clock
tick-tock, tick-tock

Times changing
Seconds: minutes, hours,
days, weeks, months,
years and centuries.

Round and round it goes
never stopping

mind, mind, mind, my mind
time, time, time, my time
mind, time, time mind

My mind is running out
So is my time

'Mental Capacity'

Green snakes, alligators on walls
People running back and forward

Laughing and smiling
Eyes shining in the dark
'Illusion'

Tick-tock, tick-tock
Bom-Bom-Bom.

Clocks ticking away,
Drums beating,
'Nerve reeking'

But niggers yell
I need time

Time for what

When time is running out

Time to: drink, smoke, f--- and talk
sh--

To do wrong
Or to be Black

But you can't do that today
You want to be hip

Deal

Until you do your brother wrong

Then you ask
What's next

The spring pops

No more time
Niggers

Dead is next.

SLAVERY

By JOYCE ALEXANDER 8-1

D. C. Wolfe High

We were slaves long ago;
but we won't be slaves anymo;
They used to make us figger
They even called us Nigger
doing use to be our only freedom;
but now we know how to treat 'em;
They use to make us plow the ground;
And wouldn't even let us make a sound;
We were slaves long ago;
but we won't be slaves anymo;
before they let us go into town;
they make us beg them on the ground;
before they let us eat food or meat;
they throw the food at our feet;
we were slaves long ago;
but Lord we won't be slaves anymo.

BEWARE

By WARREN RENTHROPE

Beware white America
The time of freedom rides are over
There are no tunes of old freedom songs
But in the distance "All Power To The People"
There is a shout of "Say it Loud! I'm Proud
There are Black people forming together
Fighting for dignity; pride, and what is
needed

by all means necessary "Freedom Now"
For what you did in the past is over
There are no more hanging of Black people
in trees
For we are not going to take anymore of

THIS IS THE MESSAGE WE WANT TO HEAR
AND WE WANT TO HEAR IT
So BEWARE

GIMME GIMME

Gimme Gimme!

Gimme my soul back, Jack!
Gimme ma thoughts, ma mind
Gimme everything you stole
Long ago, from the land of GOLD.
Gimme Gimme, back my soul!

Gimme my hopes, and fears
Gimme my children's tears
Gimme my life, like a man
Or I'll take it, by my mighty hands
Gimme all them things you stole
Gimme Gimme, back my soul!

Gimme ma mammites!
Workin' for you, six days a week
While my youth gaded in tha streets
Gimme my leaders, that you killed
Gimme my slogans, and songs
Gimme all them things you stole
Gimme Gimme, back my soul!

Gimme my woman, brang her back to me,
Unchanged — the way she suppose to be!
Gimme back my woman ———
Gimme all them souls
Who followed them "colored" signs
Think——ing they were right.

Gimme my rifle and blade, so i can fight!
Gimme Gimme, all them things you stole.
Gimme back my soul!

Gimme all tha sweat and blood,
That was lost on board ship.
Gimme the dead!
And that damn whip!
Gimme my youth and strength
My freedom, my woman——

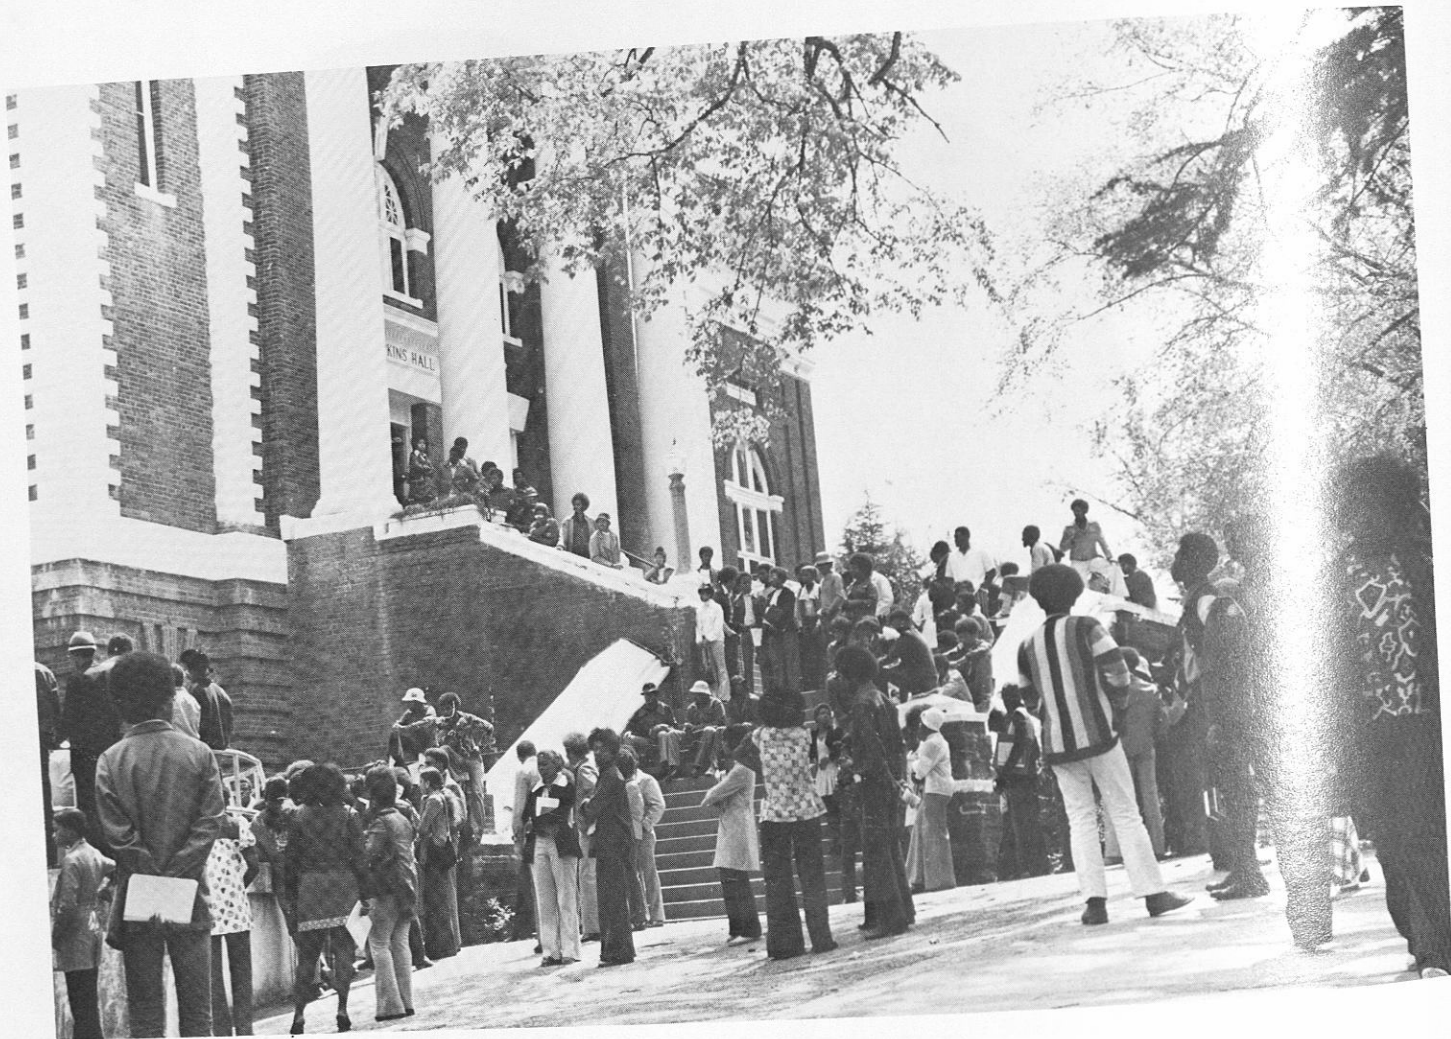

Gimme Gimme
All them things you stole——
For I'll need them
For the REVOLUTION!!

In Greek mythology, Aesculapius was the god of healing—the son of Apollo and pupil of Chiron the Centaur. He carried a staff with a single serpent wreathed around it, which later became his symbol.

The Age of Aesculapius.

As a graduating senior, this insignia will soon be your insignia. Display it proudly. While only recently adopted, it represents a noble calling with a proud past. It stands for lofty ideals and for highest standards of professionalism.

As a leading manufacturer of ethical products for your practice, we at Fort Dodge Laboratories subscribe fully to all the Staff of Aesculapius stands for. In the era ahead, you can continue to look to Fort Dodge for highest standards of modern veterinary medicine, as veterinarians have done for over a half century. Because we serve graduate veterinarians only. No one else.

"I've been in the Navy just 18 months and I'm a practicing defense attorney and in Legal Assistance. The experience I've had in the Navy is invaluable so early in my career. It's the kind of experience that could otherwise take years."

These are the feelings of LT Trevor Bryan, a 1971 law school graduate.

"I was interested in the Navy Judge Advocate General Corps because of the opportunity it offered. I joined the Navy following my second year in law school and used the Excess Leave Program to finish. It wasn't long after I received my commission that I was working in a courtroom . . . exactly where I wanted to be."

Before practicing law in the Navy, LT Bryan was admitted to the Massachusetts Bar, and while drawing full pay and allowances of \$838.68 per month, completed an intensive nine-week course in Military Justice at the Naval Justice School in Newport, Rhode Island.

"Right now, my income compares favorably with that of a civilian lawyer starting out in most areas of the country. Add to that all the Navy benefits!"

"I know of no other place that offers so much to a new attorney, as the Navy JAG Corps. You get experience in both civilian and military courts. It's a great opportunity!"

This same opportunity is open to you if you qualify. And there's no need to delay your career. You are eligible to apply as a college senior or in any year of law school. Whether your area of interest is Maritime Law, International Law, Civil Law or others, the Navy has a practice for you . . . around the world.

If you think you've got what it takes to become a Navy Judge Advocate General, call, toll free 24 hours day: **800-841-8000**

(In Georgia call 800-342-5855)
or write for information today.

TREVOR HAMILTON
SYLVESTER SARTOR

Dear Publisher,

The 1973 Tuskeana wishes to express our gratitude
to the many clients who contributed to the advertisement
section of our yearbook.

Advertisements in our book in the past have proven
to be an asset to both clients who contribute by increasing
business demands and to us in deferring cost in the pro-
duction of our book.
It is therefore appropriate to say that with the coopera-
tion of business clients a reciprocal benefit is yielded.

We hope that in the future more businesses will
co-operate with us for this reciprocal benefit.

Thank again,

Ira R. Golden
