Dear Fellow Students,

After a couple of years, I believe we've finally got it right. The Tuskeana '93-'94 staff and I hope you agree.

I would like to thank my great staff for their hard work and dedication to producing this spectacular book.

I encourage each of you to actively support the Tuskeana and all other campus organizations. Get involved and join an organization. Make tuskegee what you want it to be. It can only be the terrific institution it is with the love and dedication of terrific people.

Wishing you success,

Kristie L. Carter

LEARNING CAN BE FUN!?

The School of Education is the academic unit responsible for preparation in the educational, psychological and related professions. The School prepares men and women for careers of professional service in schools as teachers, administrators, or counselors, and in other agencies such as daycare centers, business organizations and colleges.

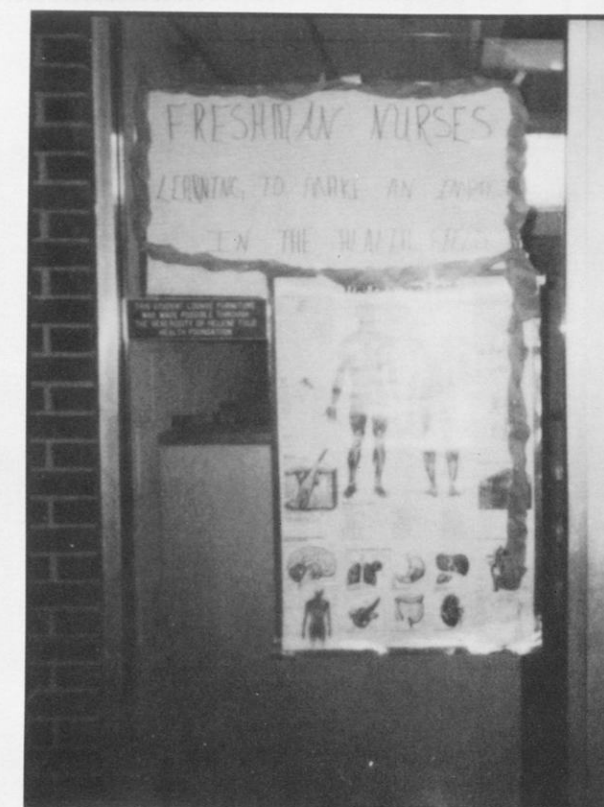

An Educated Mind Is A Terrible Thing to Waste

"Words of Wisdom"

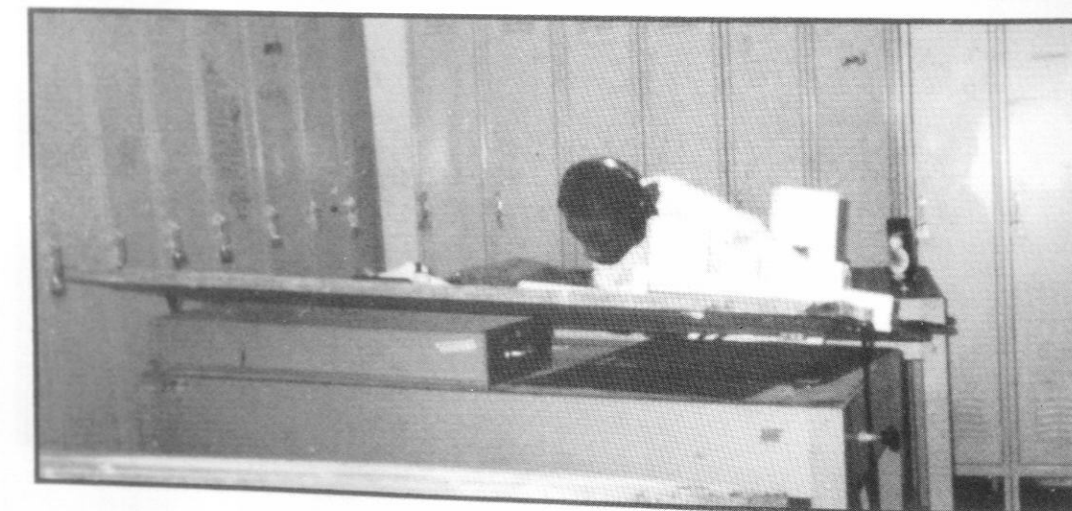

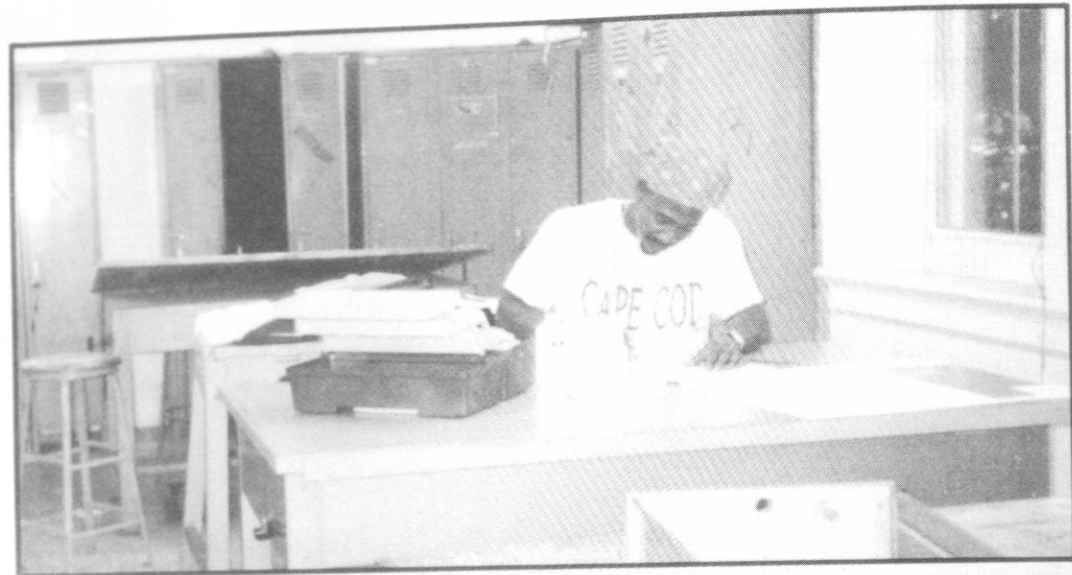

"AN APPLE A DAY KEEPS THE DOCTOR AWAY"

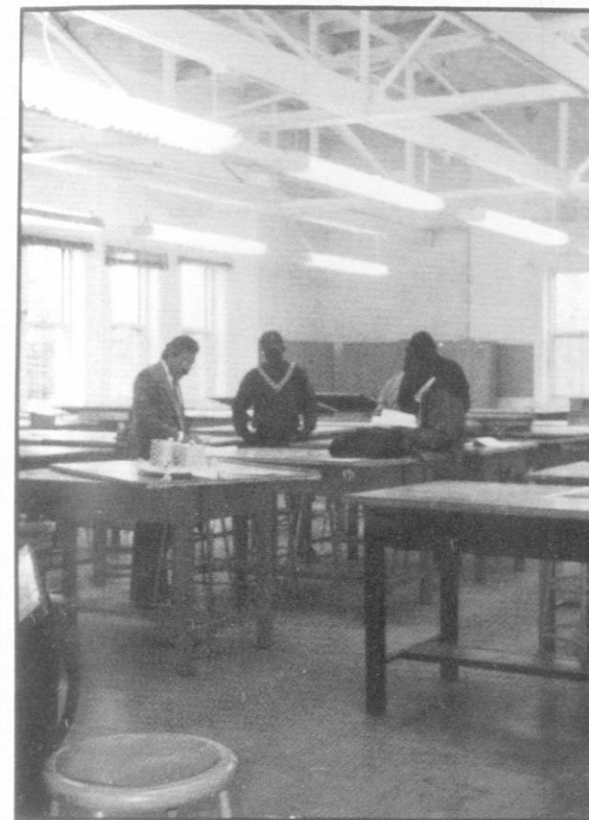

The School of Nursing and Allied Health offers undergraduate programs leading to degrees in Nursing, Medical Technology and Occupational Therapy. These undergraduate programs are designed for students who wish to pursue a career in nursing or the allied health professions. All professional disciplines have been accredited by their national accrediting agencies.

BUILDING BLOCKS FOR THE FUTURE!

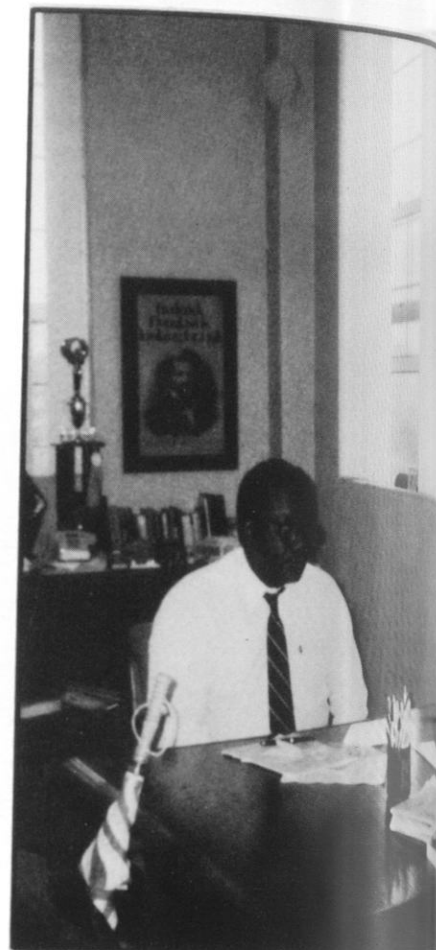

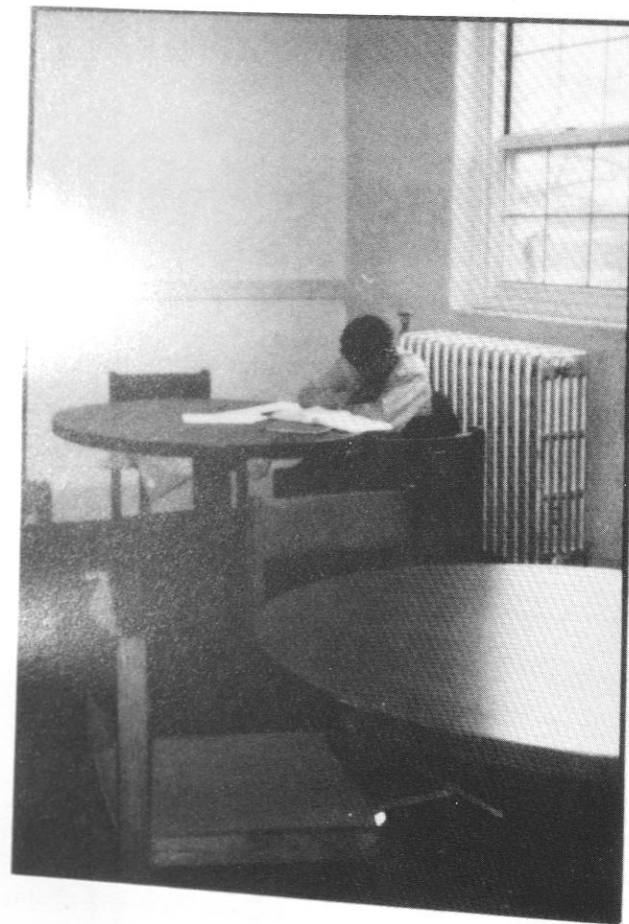

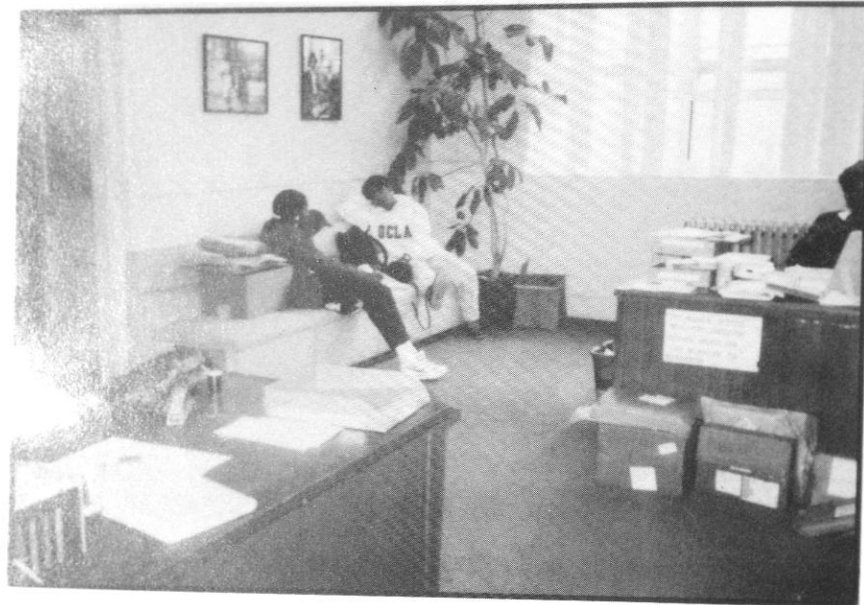

Tearod is hard at work?

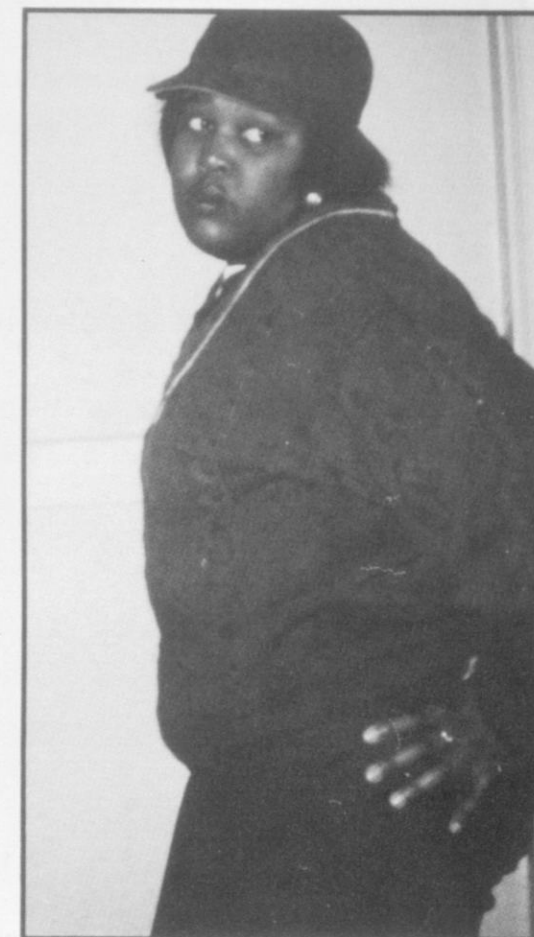

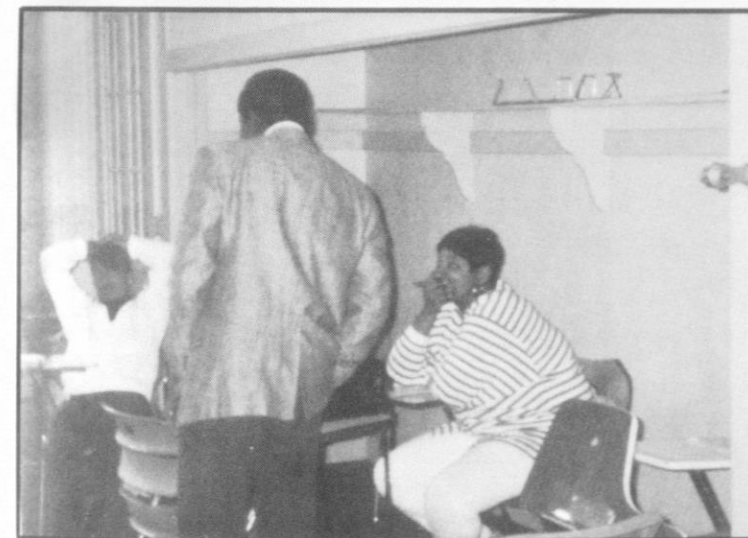

The Architecture and Construction Science and Management programs prepare professionals who are capable of playing an active role in rebuilding our cities and towns so they may become truly meaningful places for all people to work and live.

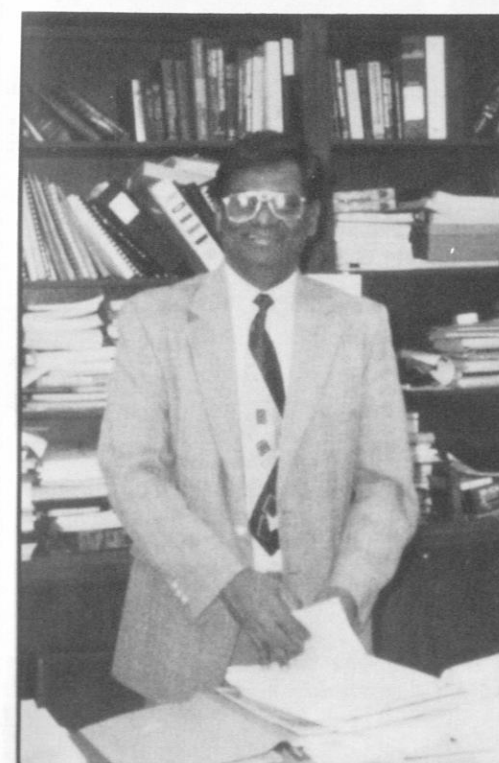

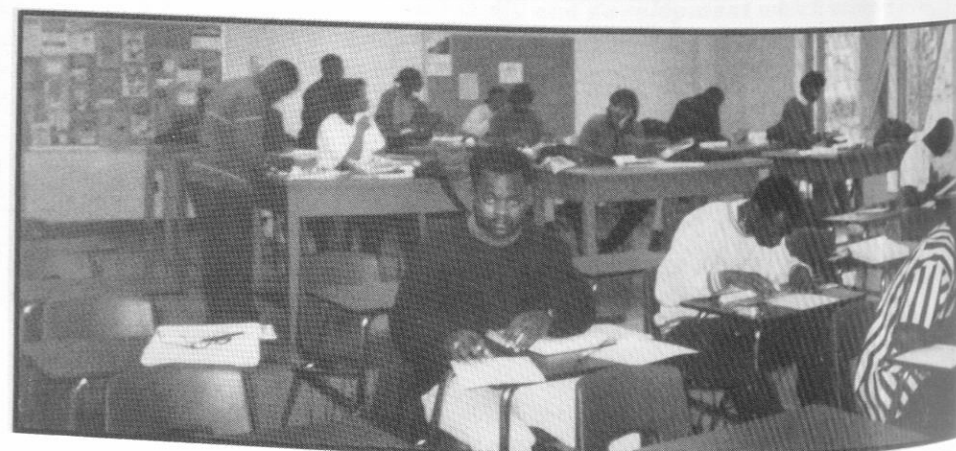

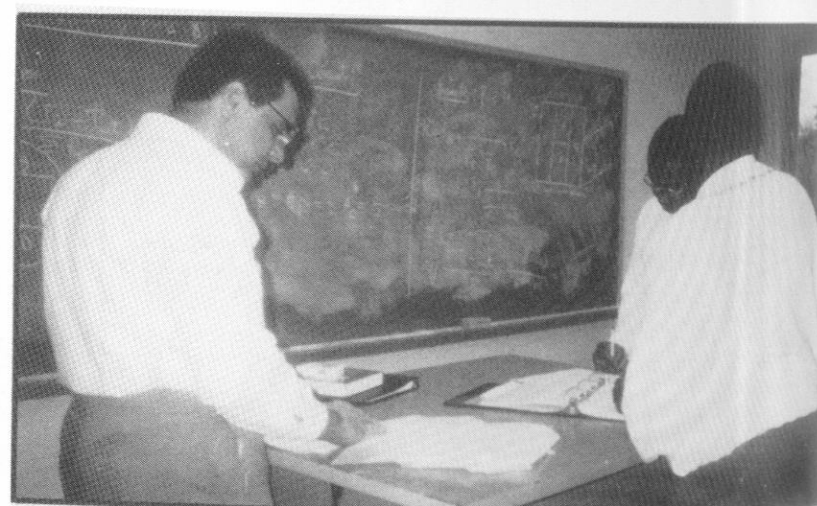

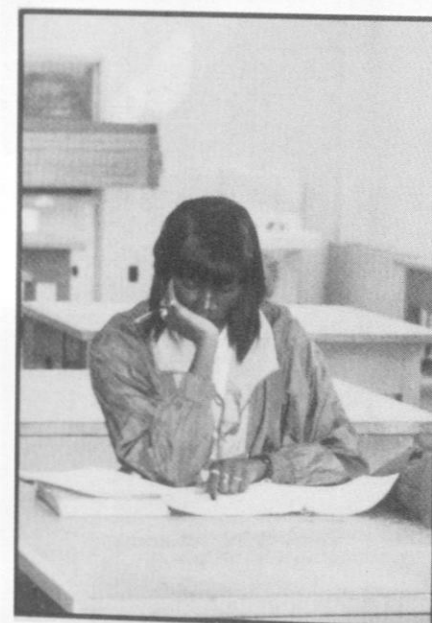

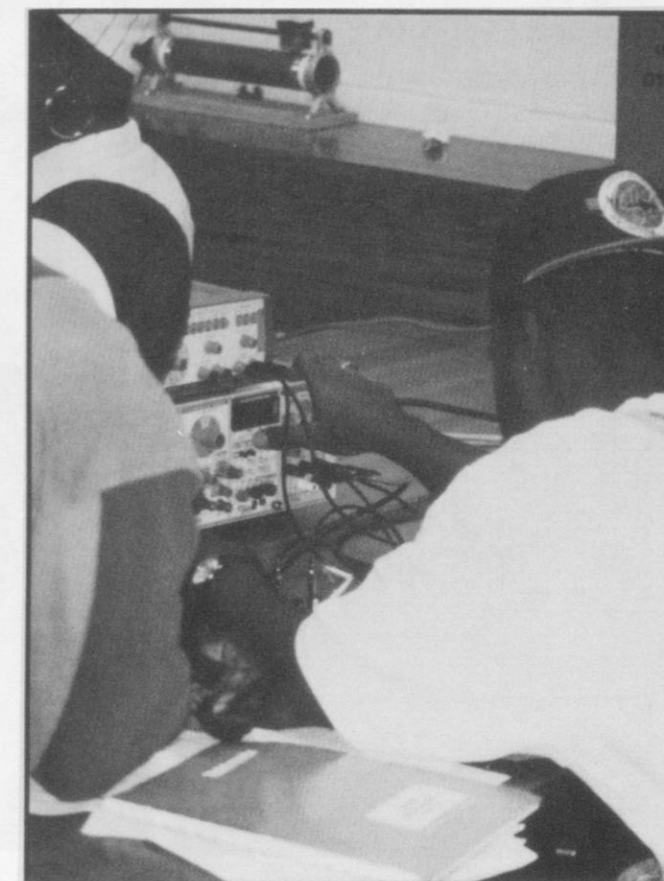

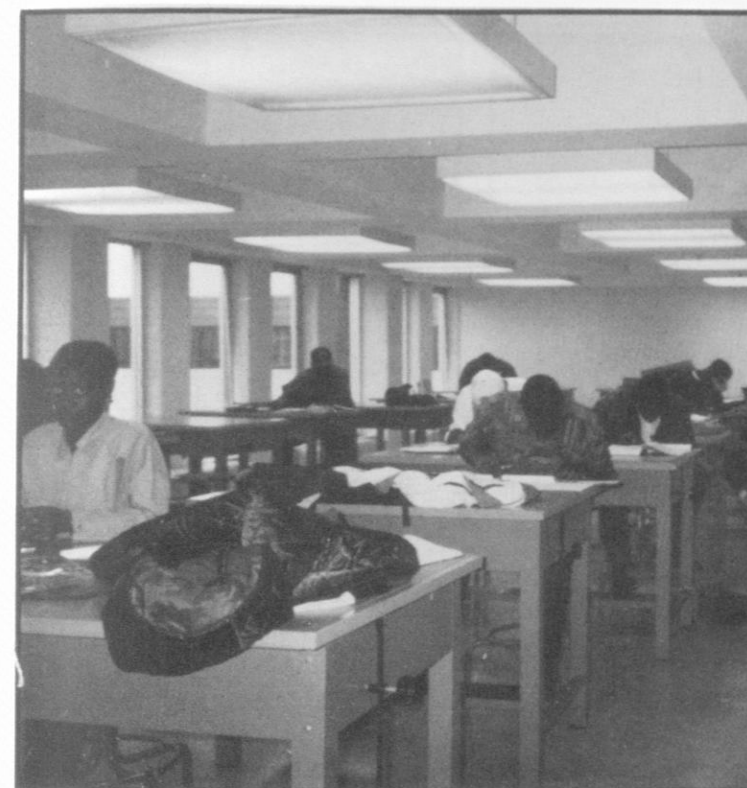

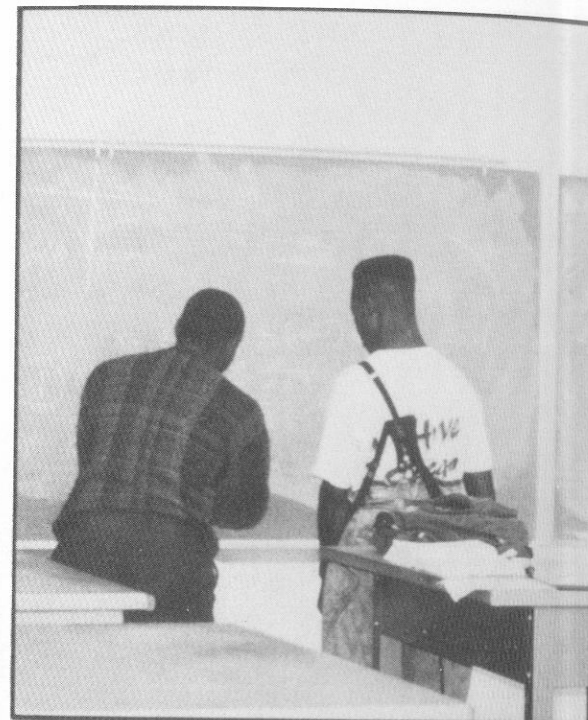

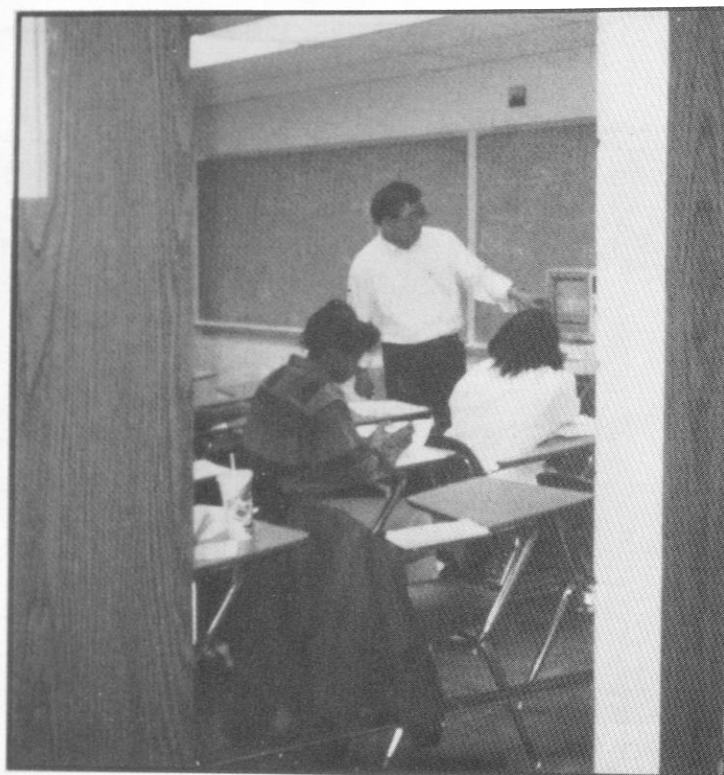

Dean Newhouse

The School of Business, as a professional school, is comprised of the following areas: Accounting, Business Administration, Economics, Finance, Management Science and Marketing. The School engages to provide a challenging opportunity for liberal and technical as well as professional study and development which allows students the flexibility necessary to compete in both the private and public sectors of the economy.

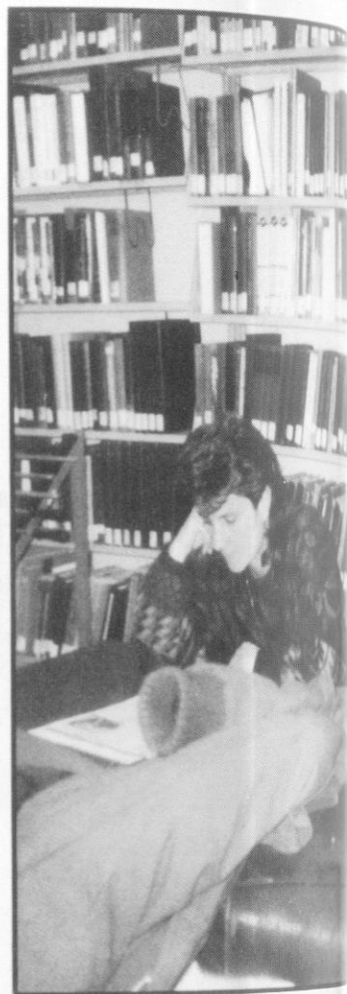

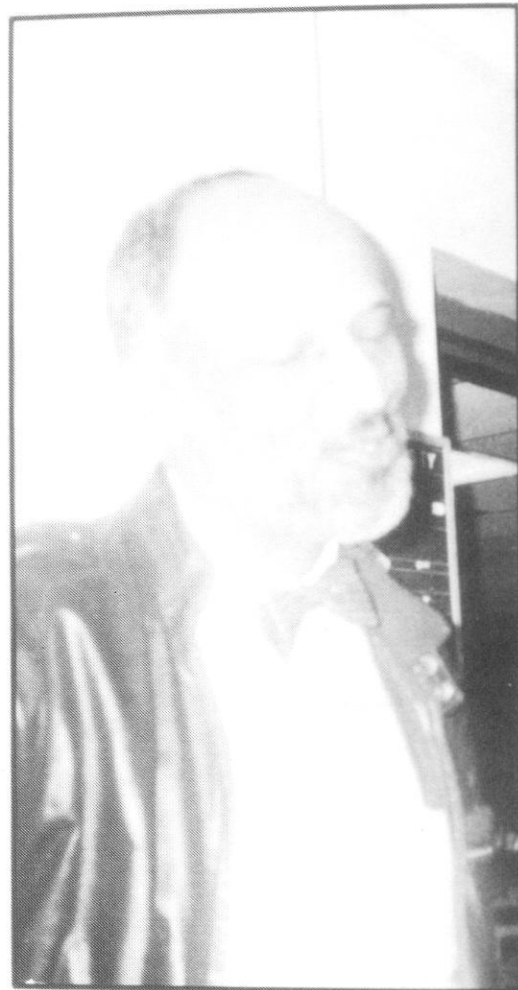

TAKING CARE OF BUSINESS

Dr. Jeelani — Dean of Engineering and Architecture

FROM SLAVESHIP TO SPACESHIP

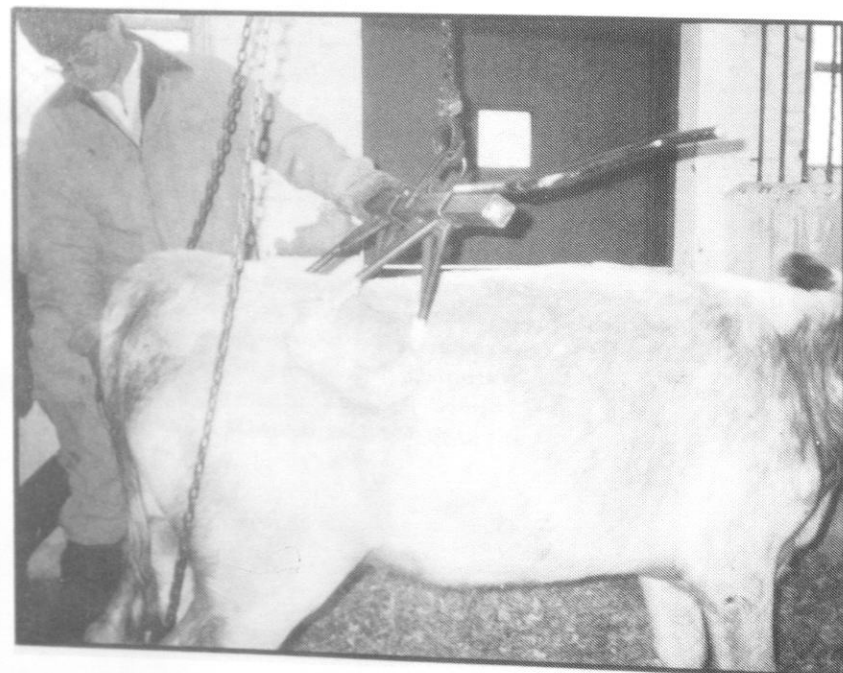

The School of Engineering has as one of its major objectives the preparing of individuals for a full, satisfying and competitive career in an era when society demands comprehensive solutions to environmental and technological problems. The Engineering programs prepare professionals with the ability to apply technology for the benefit of society.

Caring for animals is their specialty.

Mr. Ed???

ANIMAL LAND

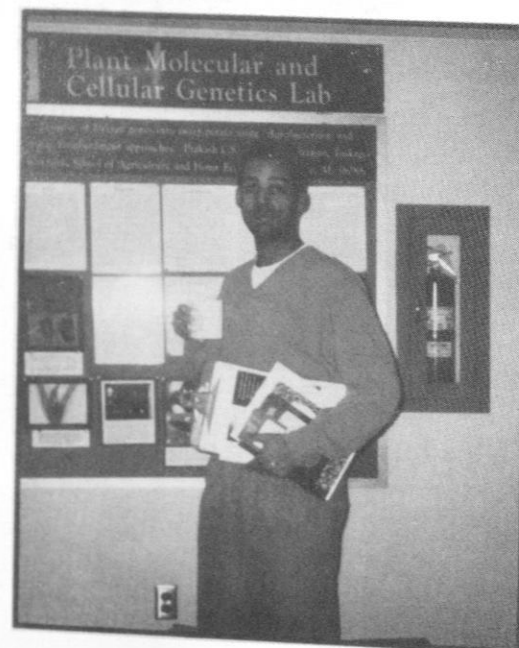

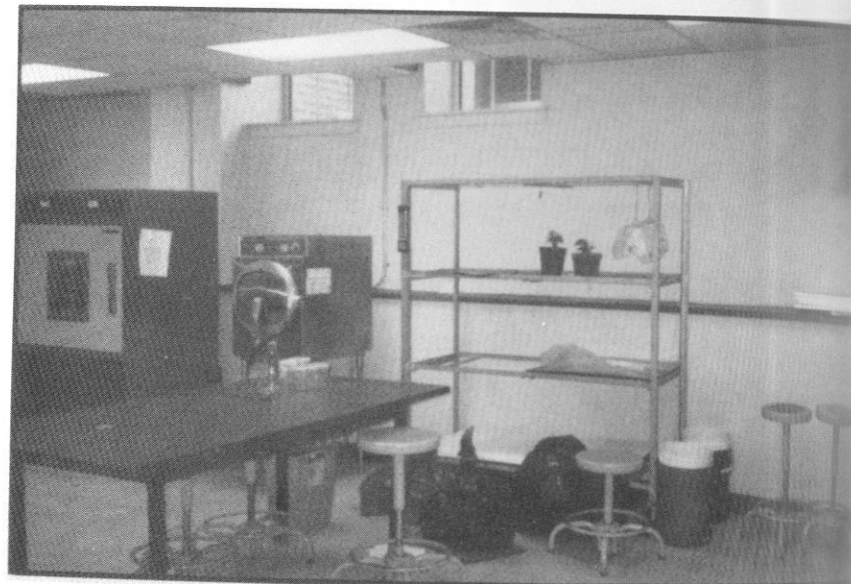

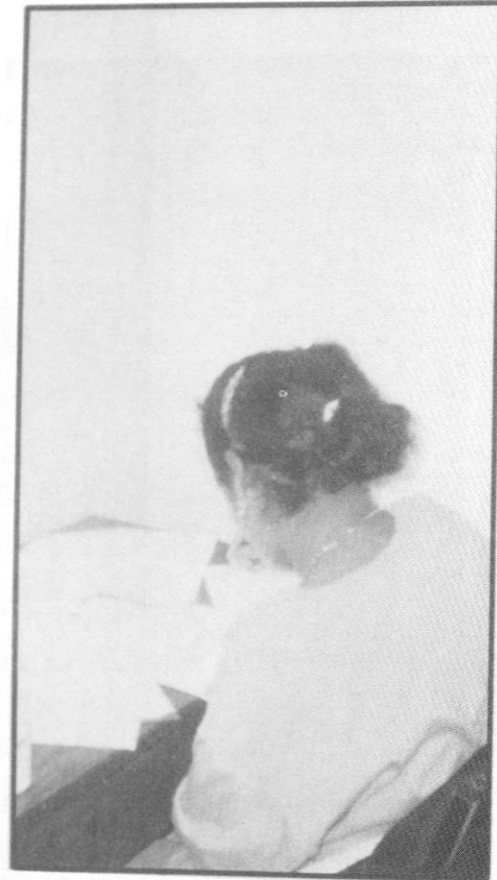

The primary vision of the School of Veterinary Medicine is to provide an environment that nurtures and promotes a spirit of active, independent and self-directed learning, teaching, research and service in veterinary medicine and related disciplines. The school recognizes those values and attributes that promote caring for animals and members of society yet, it is cognizant of the rapid advances in biomedical knowledge and technology.

DRAMATIC SCENES FROM BLUES
FOR MR. CHARLIE

MISS TUSKEGEE

Gail is a senior majoring in Architecture, from Philadelphia, Pennsylvania. Upon graduation, she plans to work for the betterment of communities through city planning or some related field.

Groove Phi Groove

"Upon Morgan State's soil then laid our foundation; Groove Phi Groove Social Fellowship, Inc. was their creation."

On October 12, 1968, a sixteen dedicated young men, with the idea of showing through social functions a small degree of the greatest in men who excel, not only in academics, but in athletics and fine arts as well, organized themselves to achieve this purpose.

The Tiger Chapter was founded on the Tuskegee Institute campus, December 9, 1968. The chapter members numbered ten. They too have adopted the idea of stressing finer manhood, fostering fellowship and brotherhood, while depicting excellence in academics, and the fine arts.

The chapter here is led by Mr. Lonnie Hilliard, while Mrs. M. Scholler, Mr. A. LaBrie, and Mr. J. Preston serve as sponsors.

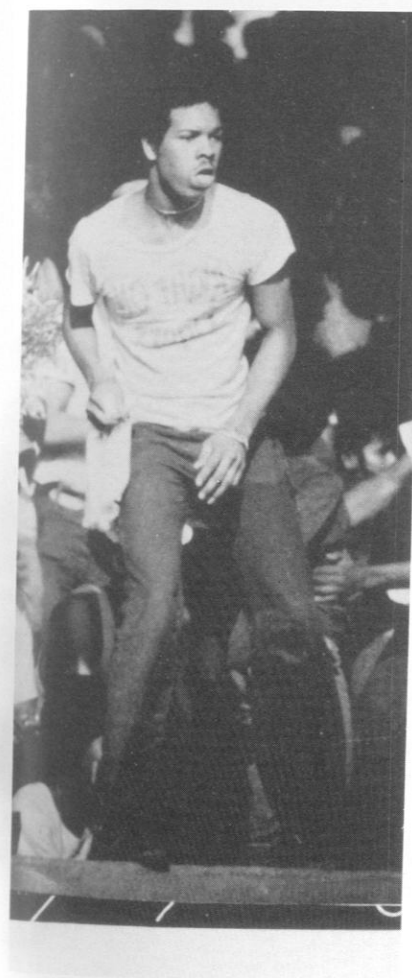

Left to Right: Thomas Jackson, Ben Harrison, Earlie McDaniel, Vernon Cook, Kenneth Swann, Bill Patterson, James Murry, James Harris, John Davis, Lonnie Hilliard, Jr.

Standing, (Left to Right): Lonnie Hilliard, Buck Cooper, Aubrie Labrie, Bradley Bell, Guyann Tolliver, Linda Grooms, Sophronia Darling, Clyde Adams, Unidentified, James Harris, Step, Robert Turner.

Kneeling, (Left to Right): Arthur Pfister, Kenneth Swann, J.T. Yelder, Neal Jackson.

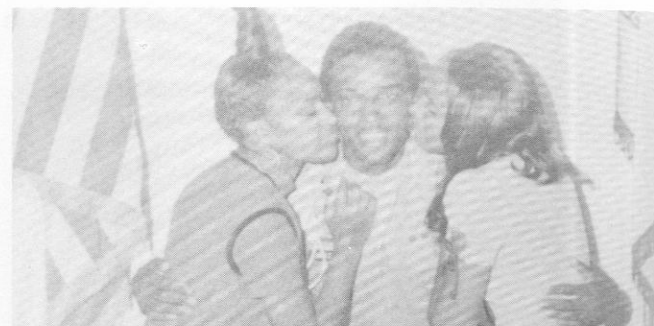

LTC Seabrook, PMS, pins rank of Cadet Lieutenant Colonel on Cadet Thomas Miller, the cadet battalion commander for school year 1972-1973.

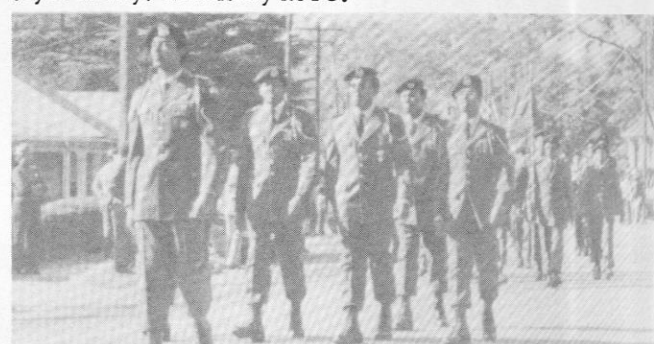

The Pershing Rifle Drill Team always look sharp and snappy. Here they are doing their thing in the Homecoming parade.

The Cadet Battalion Commander, LTC Miller discusses training with fellow Senior student, Cadet 1Lt Elton Bruce.

The coed queens also get involved in support of ROTC. Shown here congratulating Cadet LTC Miller are Joan Floyd: Miss ROTC, and Joyce McRoy: Miss Army ROTC.

101st Spring Commencement

The 101st Spring Commencement was held May 11, 1986 on White Hall Lawn, a joyous occasion for graduates and parents alike. People from all parts of the globe come to celebrate the excellence of these graduates. Now they move into a new phase of their life, taking with them the experiences and memories of their college days. The class of 86 was given words of wisdom from the honorable Sammel Riley Pierce Jr., the Secretary of the U.S. Department of Housing and Urban Development. It was a day of academic achievement for everyone, from the pinning of nurses, to the commissioning of R.O.T.C. students and recognition for outstanding faculty members.

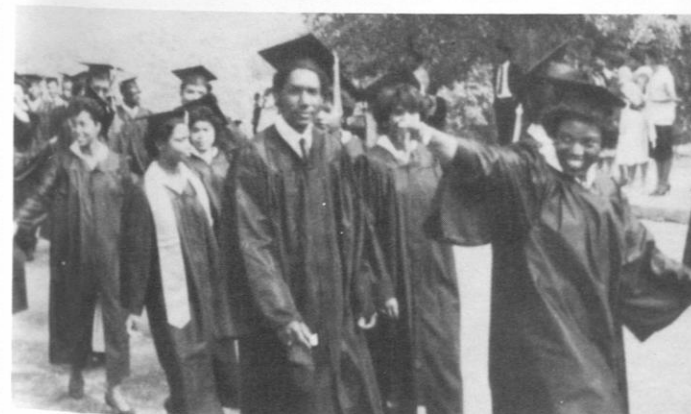

Dr. Benjamin Payton and Samuel Riley Pierce speak to the class of 86.

Friends and Family from all over come and share with the graduates, their day of achievement.

Dean Massey and Dr. Lester await anxiously for the procession to begin.

The College of Arts and Sciences really walked through the precession with spunk.

Rudolph Evans proudly leads the procession with a smile.

We see a great future in doing business with minority companies.

Ford Motor Company goes beyond just doing business with minority companies. We have taken a leadership position in helping minority dealers and suppliers grow to ensure their long-term success. These entrepreneurs and their companies, in turn, can help a whole new generation of minority businesses grow. And this makes good business sense for everyone.

Meet A Different Kind Of Hero

You've probably never heard of Debbie Jackson. She hasn't been in a parade or in the news.

You should get to know Debbie better though. She is more help to you than you think. Deborah Jackson is a Mechanical Engineer with the U.S. Nuclear Regulatory Commission. She's part of the team dedicated to the NRC's mission to protect America's health, safety, and environment in the civilian use of nuclear materials.

Debbie is one of the very best in her field. We want it that way. Our employees receive all the training, education, and encouragement they need to excel in their field. They also have a clear definition of how to achieve professional growth along a career path.

Be a different kind of hero. Consider a career with the U.S. Nuclear Regulatory Commission.

For consideration, forward your resume along with a Federal Employment Application Form (SF-171) and salary needs to: U.S. Nuclear Regulatory Commission, Office of Personnel, W-468, (Dept. A-94005), Recruitment Staff, Washington, DC 20555. Call 1-(800) 368-5642, ext. 24634; in MD call (301) 492-4634.

Making advanced technology work

What does it mean to be the world's leading controls company?

It means we have the best solutions for our customers' business problems.

Solutions that perform beyond human limits and or just make people's lives better.

Solutions that improve productivity, save energy, protect the environment and enhance comfort and safety.

That's why Honeywell is the technology leader in controls for industry, space,

aviation, homes and buildings. And the market leader in 90 countries around the world.

So if you have a business problem that's too precise, too fast, too remote, too boring or too dangerous for anyone else, let us offer the solution.

For more information, call Honeywell at 1-800-345-6770 Ext. 1564.

Few Books Would Leave a Lasting Impression

Due to acid paper, millions of books are meeting an ominous fate. They are deteriorating. More than two-thirds of the books at the Library of Congress alone are already in this unfortunate state.

At Hercules Incorporated, we did something about this situation. Our Paper Technology Group helped pioneer the conversion from acid to alkaline papermaking—a technology that's helping to preserve future books. With the alkaline process, paper has greater longevity, higher opacity, and enhanced whiteness and brightness.

It is Hercules know-how at its best, and it's just part of the diversified technologies being advanced at this international company.

Thanks to the dedicated and determined professionals within the Paper Technology Group, Hercules has rewritten the end for millions of future books. The next rewrite, the next wonder of Hercules, could come from you. Leave your lasting impression and start your career at Hercules. Send your resumé to:

we'd never be so
open and
cooperative.

Few words are as important to NCR than open and cooperative. In fact, they describe most everything about us. Our strategy for enterprise wide computing, our relationship with AT&T and, most importantly, our workplace.

As one of our industry's most successful multinational organizations, we know that the best way to deliver total customer solutions is to bring together diverse skills and experience.

We're accomplishing this by making NCR a company where diversity is welcome. A place where each and every individual delivers their personal best. Only by actively seeking out and encouraging these differences can we realize the value they offer our business.

NCR seeks graduates with degrees in the following: Finance, Accounting, Marketing, MIS, Computer Science, Computer Engineering, Electrical Engineering, and Production Operations. To connect with NCR, write to: Human Resources, Midrange Computer Products Division, NCR Corporation, 3325 Platt Springs Road, West Columbia, SC 29170. LYONDELL-CITGO Refining Company Ltd.

LYONDELL-CITGO Refining Company Ltd. (LCR) operates the nation's ninth largest refinery, with a rated capacity of 265,000 barrels per day. In July of 1993, Lyondell Petrochemical Company entered into a joint venture with CITGO Petroleum Corporation to form LCR. LCR immediately began a project to expand and upgrade the refinery's heavy crude oil processing capabilities. The expansion project is estimated to be completed by the end of 1996. Upon completion, LCR will be able to thrive in most any type of marketplace and economic environment. We are very excited about our future and on becoming a "World-Class" Refining Operation.

Products include gasoline, heating oil, jet fuel, sulfur, petroleum coke and lubricants, including automotive and industrial oils and greases, process oils, and refined white oils. The refinery also produces aromatics including benzene, toluene, paraxylene, orthoxylene and xylenes.

QUALITY DESIGN AND ADVANCED TECHNOLOGY.

BECAUSE LIVES DEPEND ON IT.

Siemens Pacesetter, Inc. makes implantable cardiac devices. Tiny enough to fit in your fist. Powerful enough to sustain life. Innovative enough to have made history. Incredible enough to last a decade or more. Perceptive enough to know when patients are exercising and when they're resting.

But at Siemens Pacesetter, Inc., together with our multi-billion dollar parent company Siemens, we are looking toward the future. We are developing implantable devices that can start a stopped heart. Pacemakers tiny enough to be implanted in premature babies with heart defects. Implantable technology that mimics the human heart down to the subtlest nuances.

The field of cardiac device therapy has come so far so fast, there's no telling where technology will take us in twenty years. If you are an Engineering professional with at least 5 years experience who seeks incredible challenges in a high-tech electronics environment and the opportunity to do work that literally saves and changes lives, you'll find your opportunity to make a difference at Siemens Pacesetter, Inc.

For future consideration, send resume to: Sue Mayes, Employment Representative, Siemens Pacesetter, Inc., Dept. TUSK, 15900 Valley View Court, P.O. Box 9221, Sylmar, CA 91392-9221. AA/EOE.
