*Where shall we begin.....*

# OPENING

# Timeline

1915

Booker T. Washington dies on November 14<sup>th</sup> and major Robert Russa Moten becomes the second president of Tuskegee Institute.

1896

World renowned scientist George Washington Carver comes to Tuskegee. While a professor at the Institute, Carver made considerable contributions to science, including finding over 300 uses for the peanut.

1896

The Chapel is built mainly by student manual labor and designed by Mr. R. R. Taylor, the first African-American graduate of Massachusetts Institute of Technology.

1969

Tuskegee students organize an effective voter registration drive in Macon County. The chapel, that still stands today, was re-opened.

1965

Malcolm X is the first lecturer in the Institute Council's Lecture Series. He later died the same year.

1953

From October 31<sup>st</sup>-November 1<sup>st</sup>, Dr. Luther H. Foster is inaugurated as the fourth president of Tuskegee Institute.

1922

Unveiling of the Booker T. Washington Monument created by sculptor Charles Keck.

1935

Dr. Frederick Patterson becomes the third President of Tuskegee Institute on Monday, October 28<sup>th</sup>.

1943

Dr. George Washington Carver dies on January 5<sup>th</sup> after 47 years of teaching at Tuskegee Institute; Dr. Frederick Patterson, along with the Presidents of Private Negro Colleges, establishes the United Negro College Fund

1970

The George Washington Carver Exhibit is shown in the East Room in the White House.

1971

Former Representative Barbara Jordan was the speaker at Summer Commencement.

1973

The Martin Luther King Jr. Commons Room and Lewis Adams Dormitory were dedicated. Lewis Adams was one of the principal financial donators to the Institute in its early years.

# Timeline

# Timeline

1974

Tuskegee Institute is designated as a National Historic site by the United States Department of the Interior's National Park Service.

1979

Board of Trustees Member Earl Graves is the speaker at Fall Convocation. Graves is the Founder/Editor In Chief of *Black Enterprise* magazine.

1980

Unveiling of mural entitled "Centennial Vision" in Kresge Center. Artist Portia Washington Pittman Fellow and Nelson Stevens created the mural.

1994

The newly renovated Dorothy Hall opens as the Kellogg Center. It is one of 13 in the world and the only four star hotel on a historically Black College Campus.

1999

President William Jefferson Clinton issues a public apology for the role of the U.S. Government in the infamous Tuskegee Syphilis Experiment. As a result the nations only BioEthics Center is established at Tuskegee University.

# Timeline

1975

The Kresge Center, the new administration building is constructed.

1981

Dr. Benjamin F. Payton becomes the fifth president of Tuskegee Institute. A native of South Carolina, Payton began his duties on August 1. He was inaugurated on April 3, 1982.

1985

The name of the Institute changes to Tuskegee University. The University is comprised of five colleges: Liberal Arts and Education, Engineering and Physical Sciences, Veterinary Medicine and Allied Health, Business and Management Sciences, and Agriculture, Environmental and Natural Sciences.

2002

After a year of renovations, the Lincoln Gates re-opened.

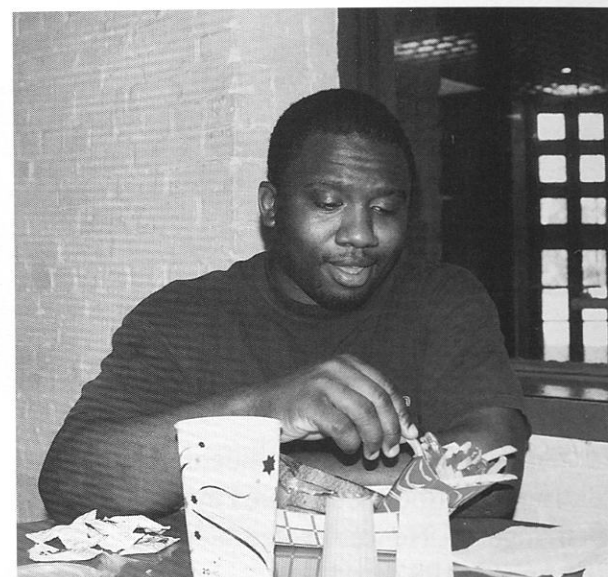

2003

White Hall is being face lifted. The Legacy walkway is opened.

# Dr. Benjamin F. Payton President, Tuskegee University

A native of Orangeburg, South Carolina, Dr. Benjamin F. Payton is the son of Mrs. Sarah M. Payton and the late Reverend Leroy R. Payton. Dr. Payton received the B.A. degree with honors from South Carolina State University in 1955; the B.D. Degree from Harvard University in 1958; the M.A. degree from Columbia University in 1960; and the Ph.D. degree from Yale University in 1963.

Prior to becoming President of Tuskegee University, Dr. Payton was Program Officer, Higher Education and Research, Ford Foundation, New York City (1972-81); President, Benedict College, Columbia, South Carolina (1967-72); Executive Director, Commission on Religion and Race and Department of Social Justice of the National Council of Churches in the U.S.A. (1966); and Assistant Professor, Howard University Community Service Project, Washington, D.C. (1963-65).

Dr. Payton is also a doctor of Humanities, Morgan State University; Doctor of Laws, Eastern Michigan University and Morris Brown College; and Doctor of Literature, University of Maryland. He also holds membership in many professional and social organizations including the American Council on Education, the American Higher Education Association, Alpha Phi Alpha Fraternity, Inc. and Sigma Pi Phi Boule'. His academic honors include membership in Phi Beta Kappa and Alpha Kappa Mu Honor Society.

Dr. Payton serves as Director on numerous boards including AmSouth Bancorporation, AmSouth Bank, Ruby Tuesday, Inc. Liberty Corporation, Praxair Corporation, the National Action Council for Minorities in Engineering, the American Society for Engineering Education Study National Advisory Council, the Alabama Shakespeare Festival Royal Council and the Board of Governors of the U.S. Air Force Civil Air Patrol. He has also served as a member of the Visiting Committee for the Board of Overseers at Harvard University and MIT, the Board of Visitors at Air University, Maxwell Air Force Base, and the director of the Association of Governing Boards, the ITT Corporation, SONAT, Inc. and Morrison Management Specialist, Inc.

Dr. Payton is in strong demand to give speeches across the country. He served as guest lecturer at the Institute for Education Management in the Harvard University Graduate School of Education in 1998. He was selected to give the first George Washington Carver Lecture at the annual meeting of the National Association of State Universities and Land-Grant Colleges in San Francisco in 1999. Additionally, Dr. Payton was a guest speaker at the Presidents Banquet for the Progressive National Baptist Convention in Louisville, Kentucky and gave the Lena Bailey Lecture at Ohio State University in 2001.

President Ronald Reagan appointed Dr. Payton to the Board for International Food and Agriculture Development (BIFAD) and President Bush named him as an educational consultant to travel with him on a seven-nation African tour. In addition to the African countries, the team visited Cape Verde Islands, West Germany and Bermuda. In January 1985, he was named Leader of the President's Task Force on Agriculture and Economic Development to Zaire.

Dr. Payton is married to the former Thelma Plane of Evanston, Illinois, a B.S. degree graduate of Tennessee State University and MSW degree graduate of Columbia University School of Social Work. They have two children: Mark Steven, a B.A. degree graduate of Yale University who also holds the MBA degree from Columbia University Graduate School of Business; and Deborah Elizabeth, a B.A. degree graduate of Spelman College. They are also grandparents of Danielle Marie, Maya Elizabeth and William Isaac Payton.

In recognition of his leadership, intellectual and scholarly achievements, as well as his dedicated service to education, Dr. Payton has received many honors and honorary degrees. Honors include the Danforth Graduate Fellowship (1955-63); First place winner of the Harvard Billings Prize (1957); South Carolinian of the Year (1972); voted "Distinguished Member of the South Carolina State College Class of 1955" during the 25th class reunion, and the Napoleon Hill Foundation Award for Outstanding Leadership in Education (1987). Additionally, Dr. Payton was the first recipient of the Benjamin E. Mays Award at South Carolina State University. Honorary degrees include Doctor of Humane Letters, Benedict College and Lehigh University.

*Where would the world be...*

# FACULTY

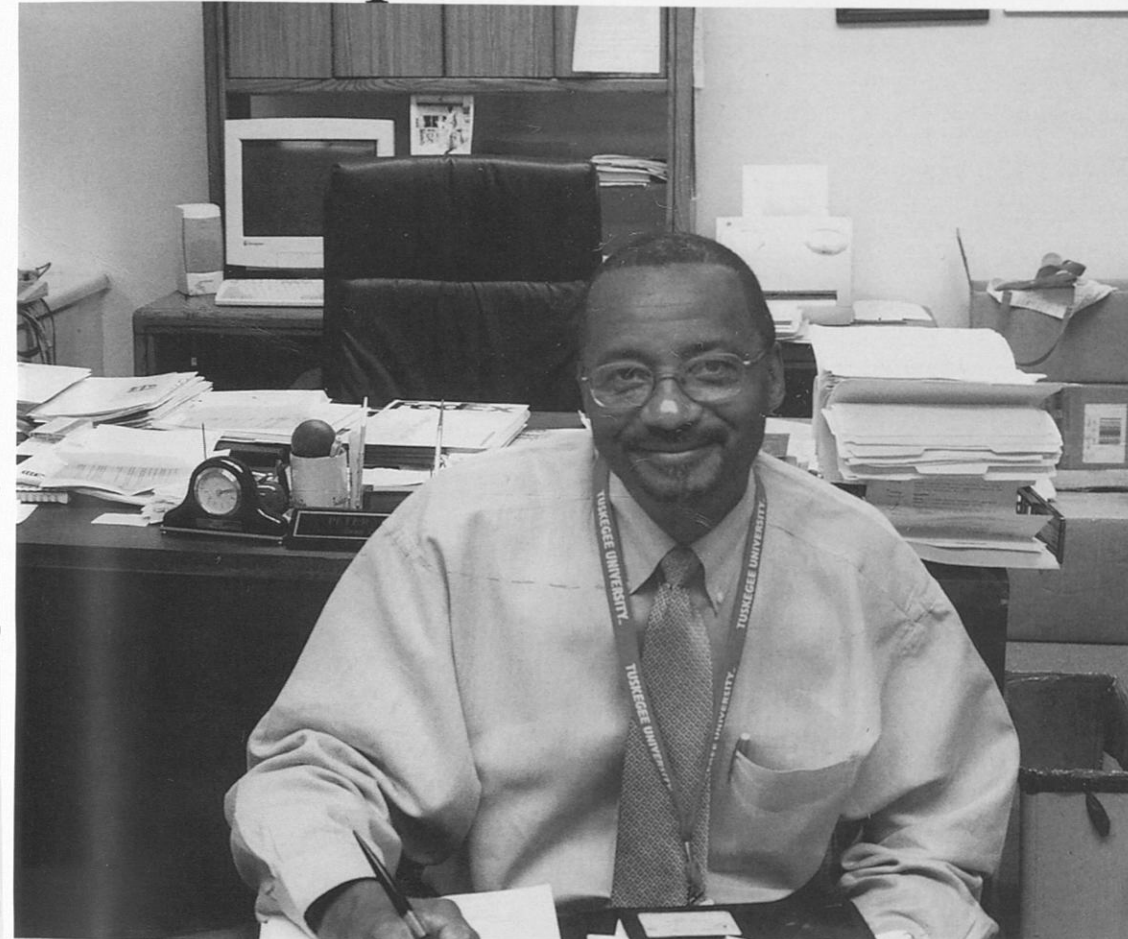

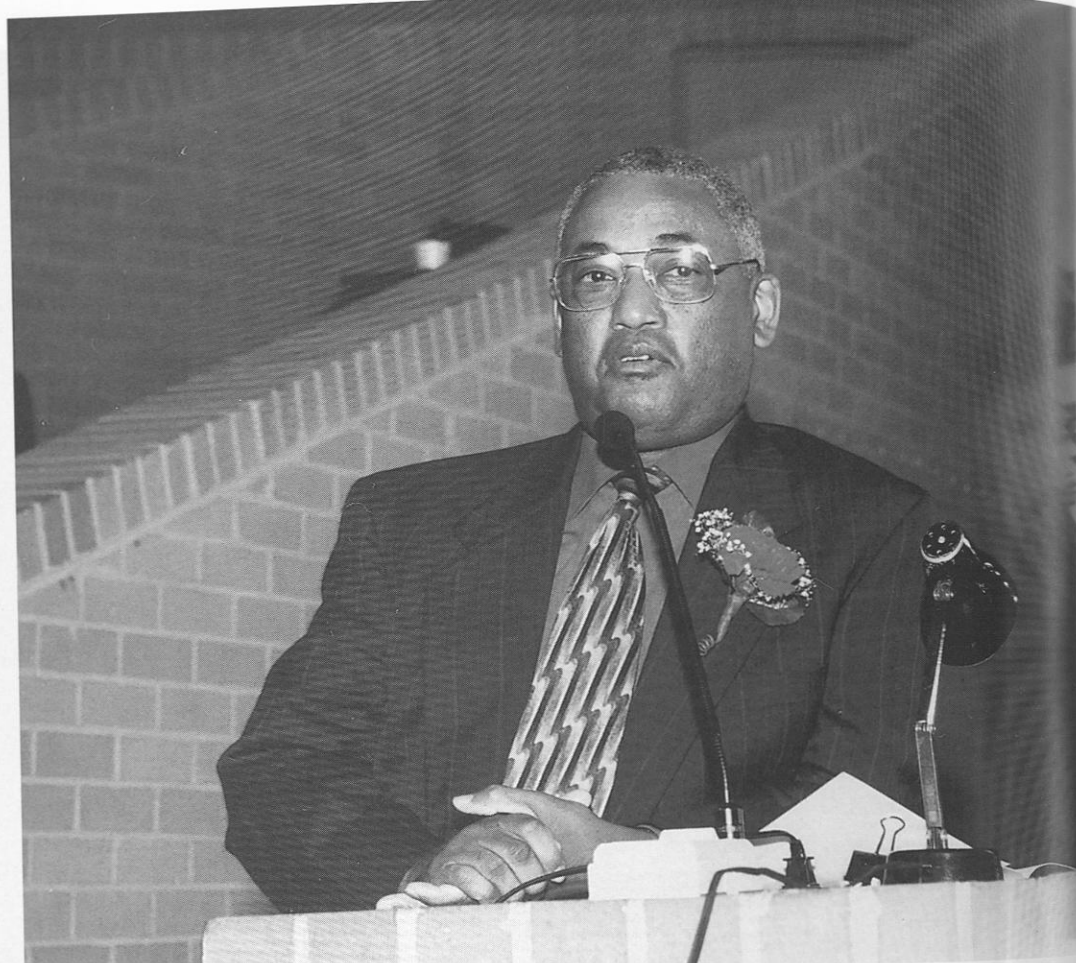

# Dr. William Lester Peter J. Spears

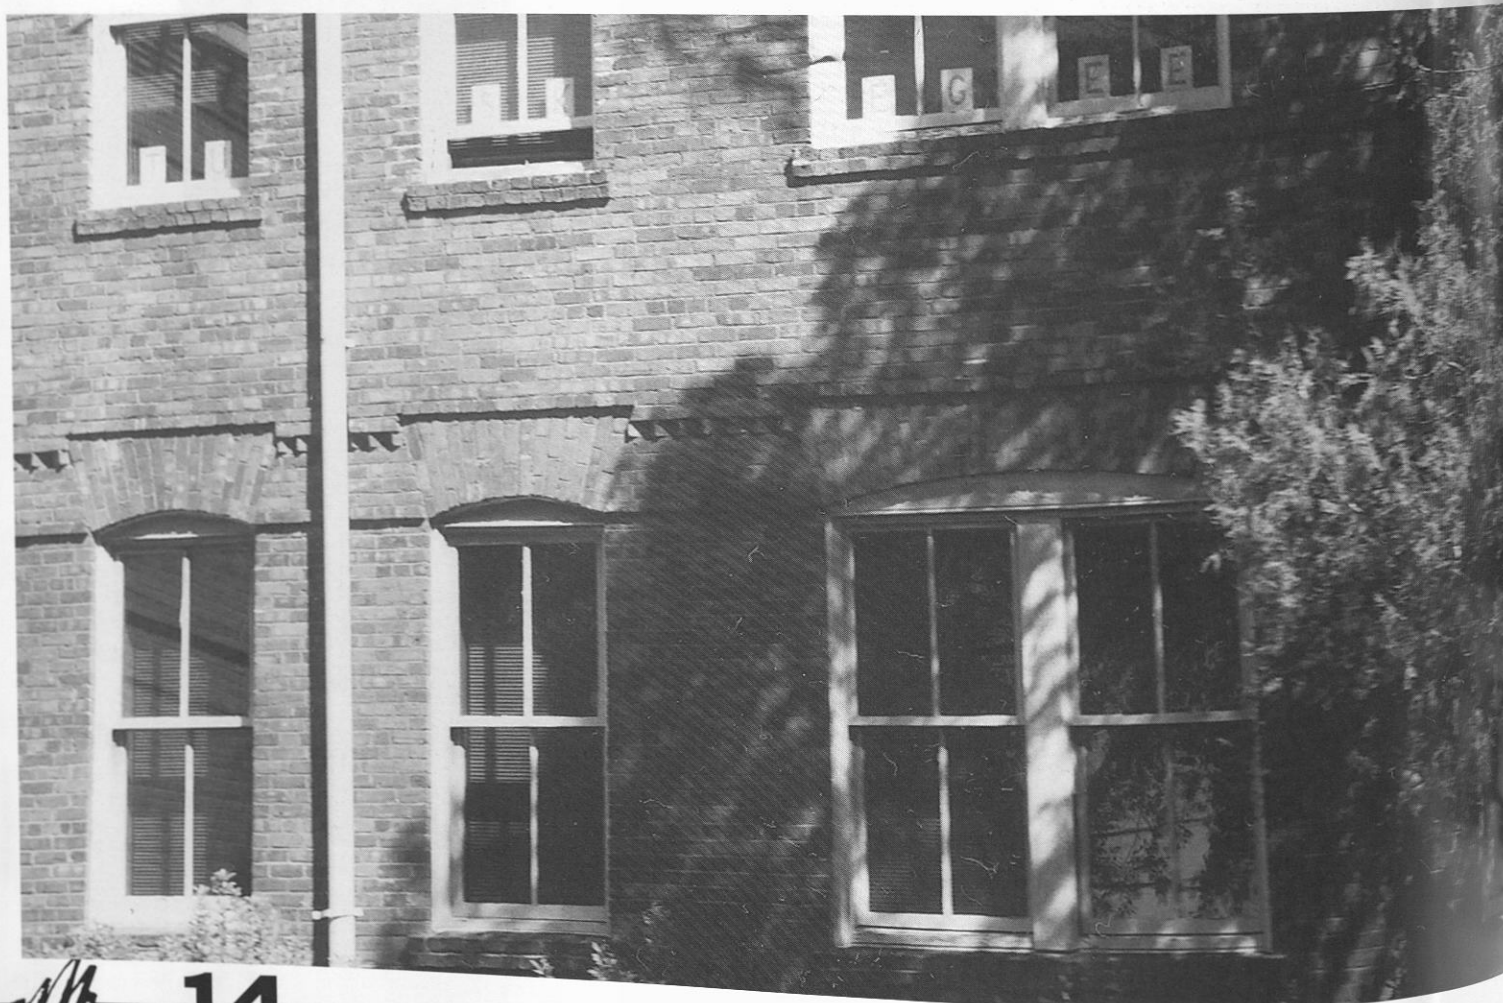

Dr. William Lester has dedicated over 18 years to Tuskegee University. He serves as the provost and works directly under the president. Responsible for academic and student affairs, Dr. Lester has played an important part in the development of major proposals that provide assistants to many academic programs.

## Provost

Mr. Peter J. Spears has served as Dean of Students at Tuskegee University since 1996. An alumnus of Tuskegee, Dean Spears is very involved in various student activities such as the Tuskegee's Honda Campus All-Star Team.

## Dean of Students

# Admissions & Records

Old Administration Building

Financial Aid Staff

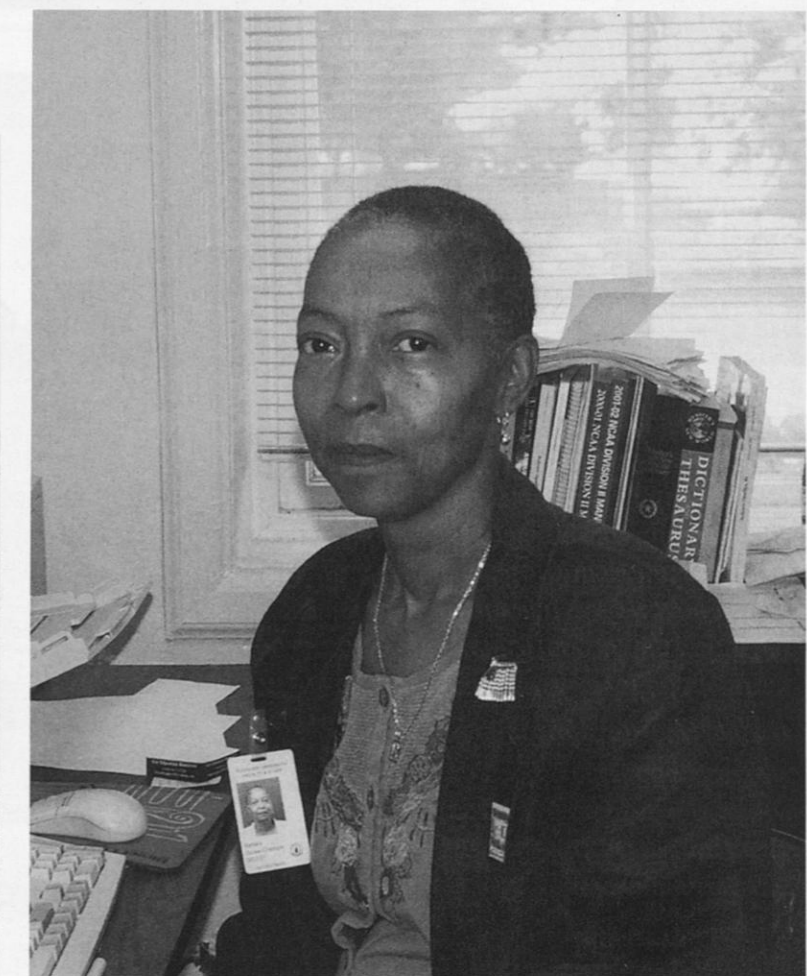

The Office of Admissions is responsible for the identification, recruitment, admission and matriculation of all new students. Its outreach, education and marketing efforts seek to ensure that all potential Tuskegee University students know how the University can contribute to successful academic outcomes for them.

Where is MY PICTURE

# Department of Public Safety and Security

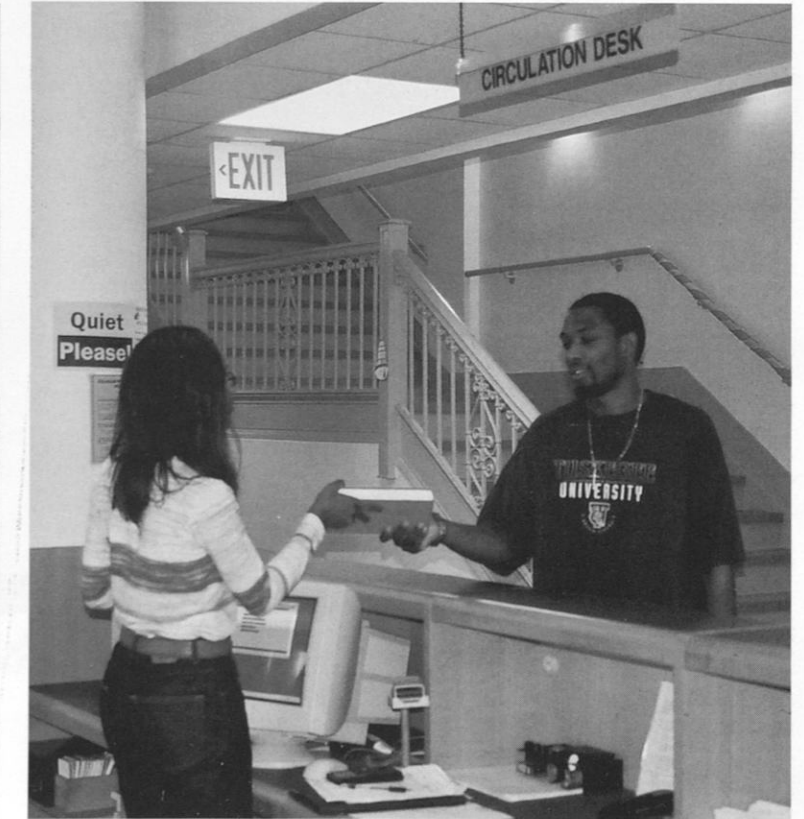

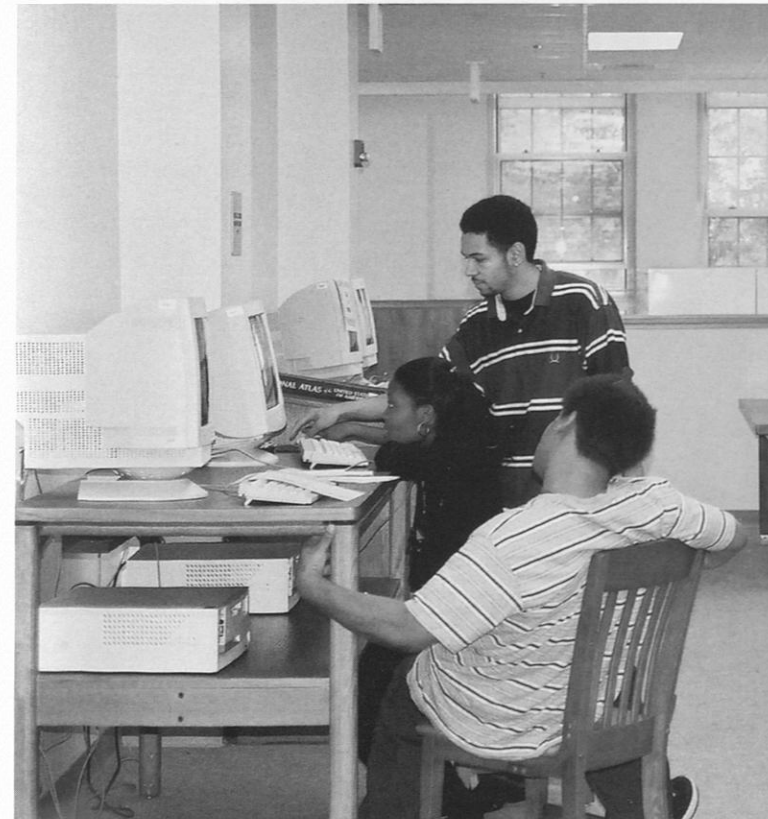

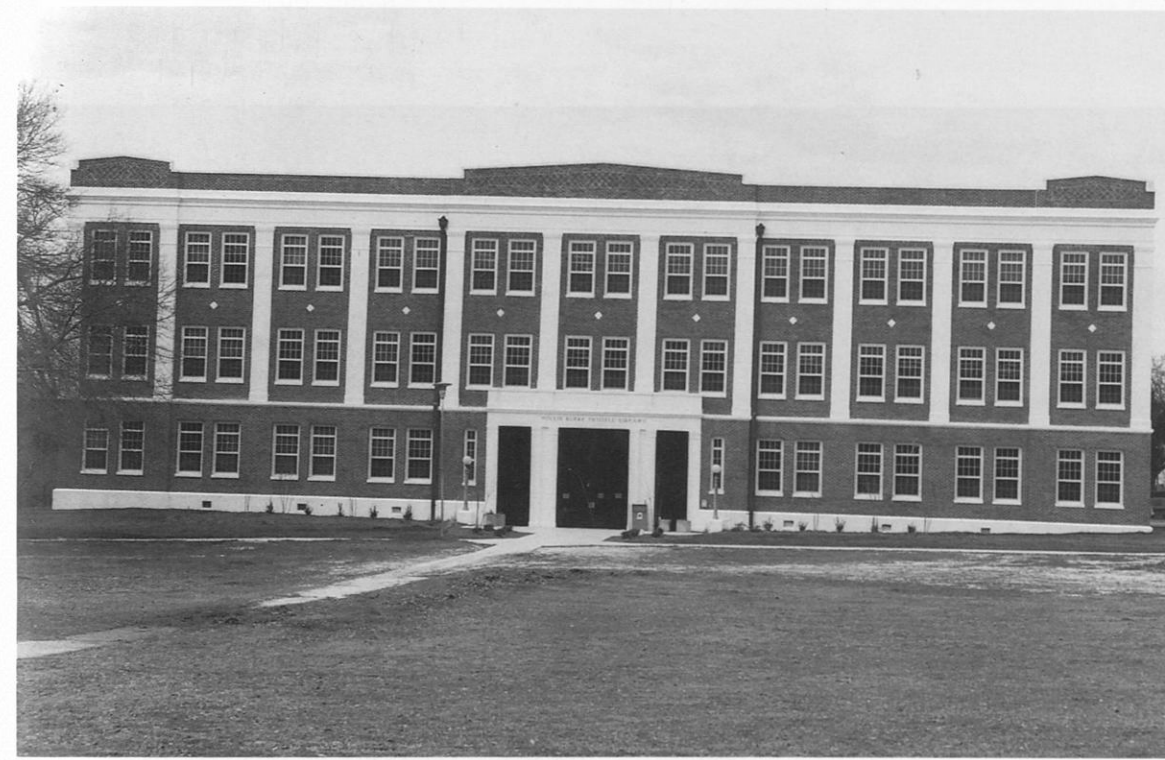

When asked what the Public Safety & Security department believes has changes this year. They had the following response: Obviously there is one particular area we are placing more emphasis on and that is overall security of the student body. The ongoing fence and gate project is the overall security concern for safety, but since September 11, 2001, that concern has heightened. People are checked more closely when visiting our major sporting and entertainment events and there are higher restrictions on vehicles parked in close proximity to those events. There is also an ongoing and systematic approach to our intrusion alarm system. There has been renewed interest on our Crime Prevention and Safety Program, where officers frequently meet with students and discuss safety and security concerns. Another area we have revised upward would be our Physical Fitness Program. The program was initiated October 2000 with the semiannual physical fitness examination 2000-2001.

# Hollis Burke Frissell Library

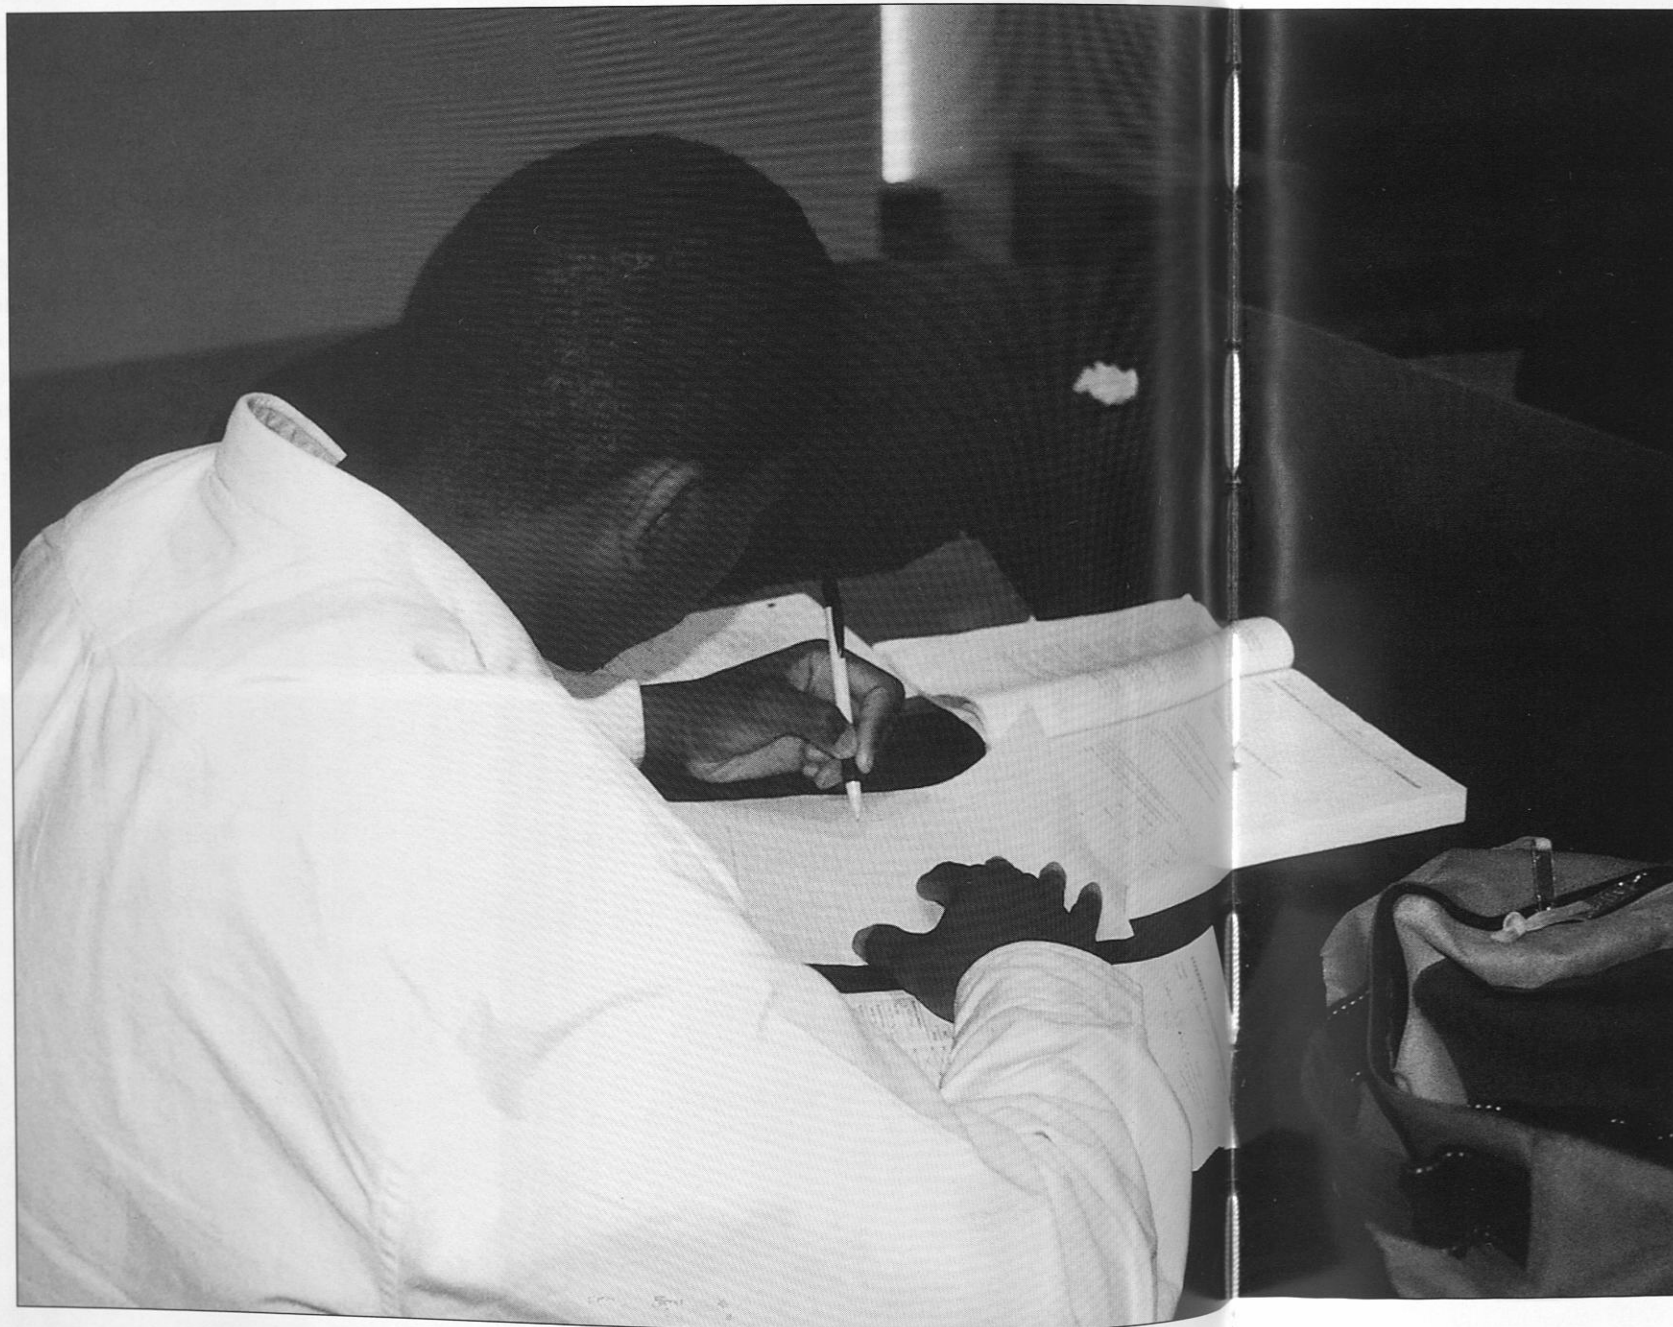

Tuskegee University Libraries consist of the main library, Hollis Burke Frissell and three departmental libraries located in their respective academic areas. Architecture, Engineering, and Veterinary Medicine. The main library, Hollis Burke Frissell, was constructed in 1932

and is named for the late Dr. Hollis Frissell, the second principal of Hampton Institute. The current collections contains approximately 310,000 volumes, including bound journals and more than 1,600 periodical in all disciplines. Tuskegee University libraries provide bibliographies, books, CD-ROM, internet access, journals, newspapers, microfilm, audiovisuals, and other materials necessary to support the objectives of the university. Bibliographic Instructions encompasses all activities designed to teach the library user about library resources and research techniques. The Learning Resource/Media Center is maintained as a teaching resource to support the total instruction program at Tuskegee University.

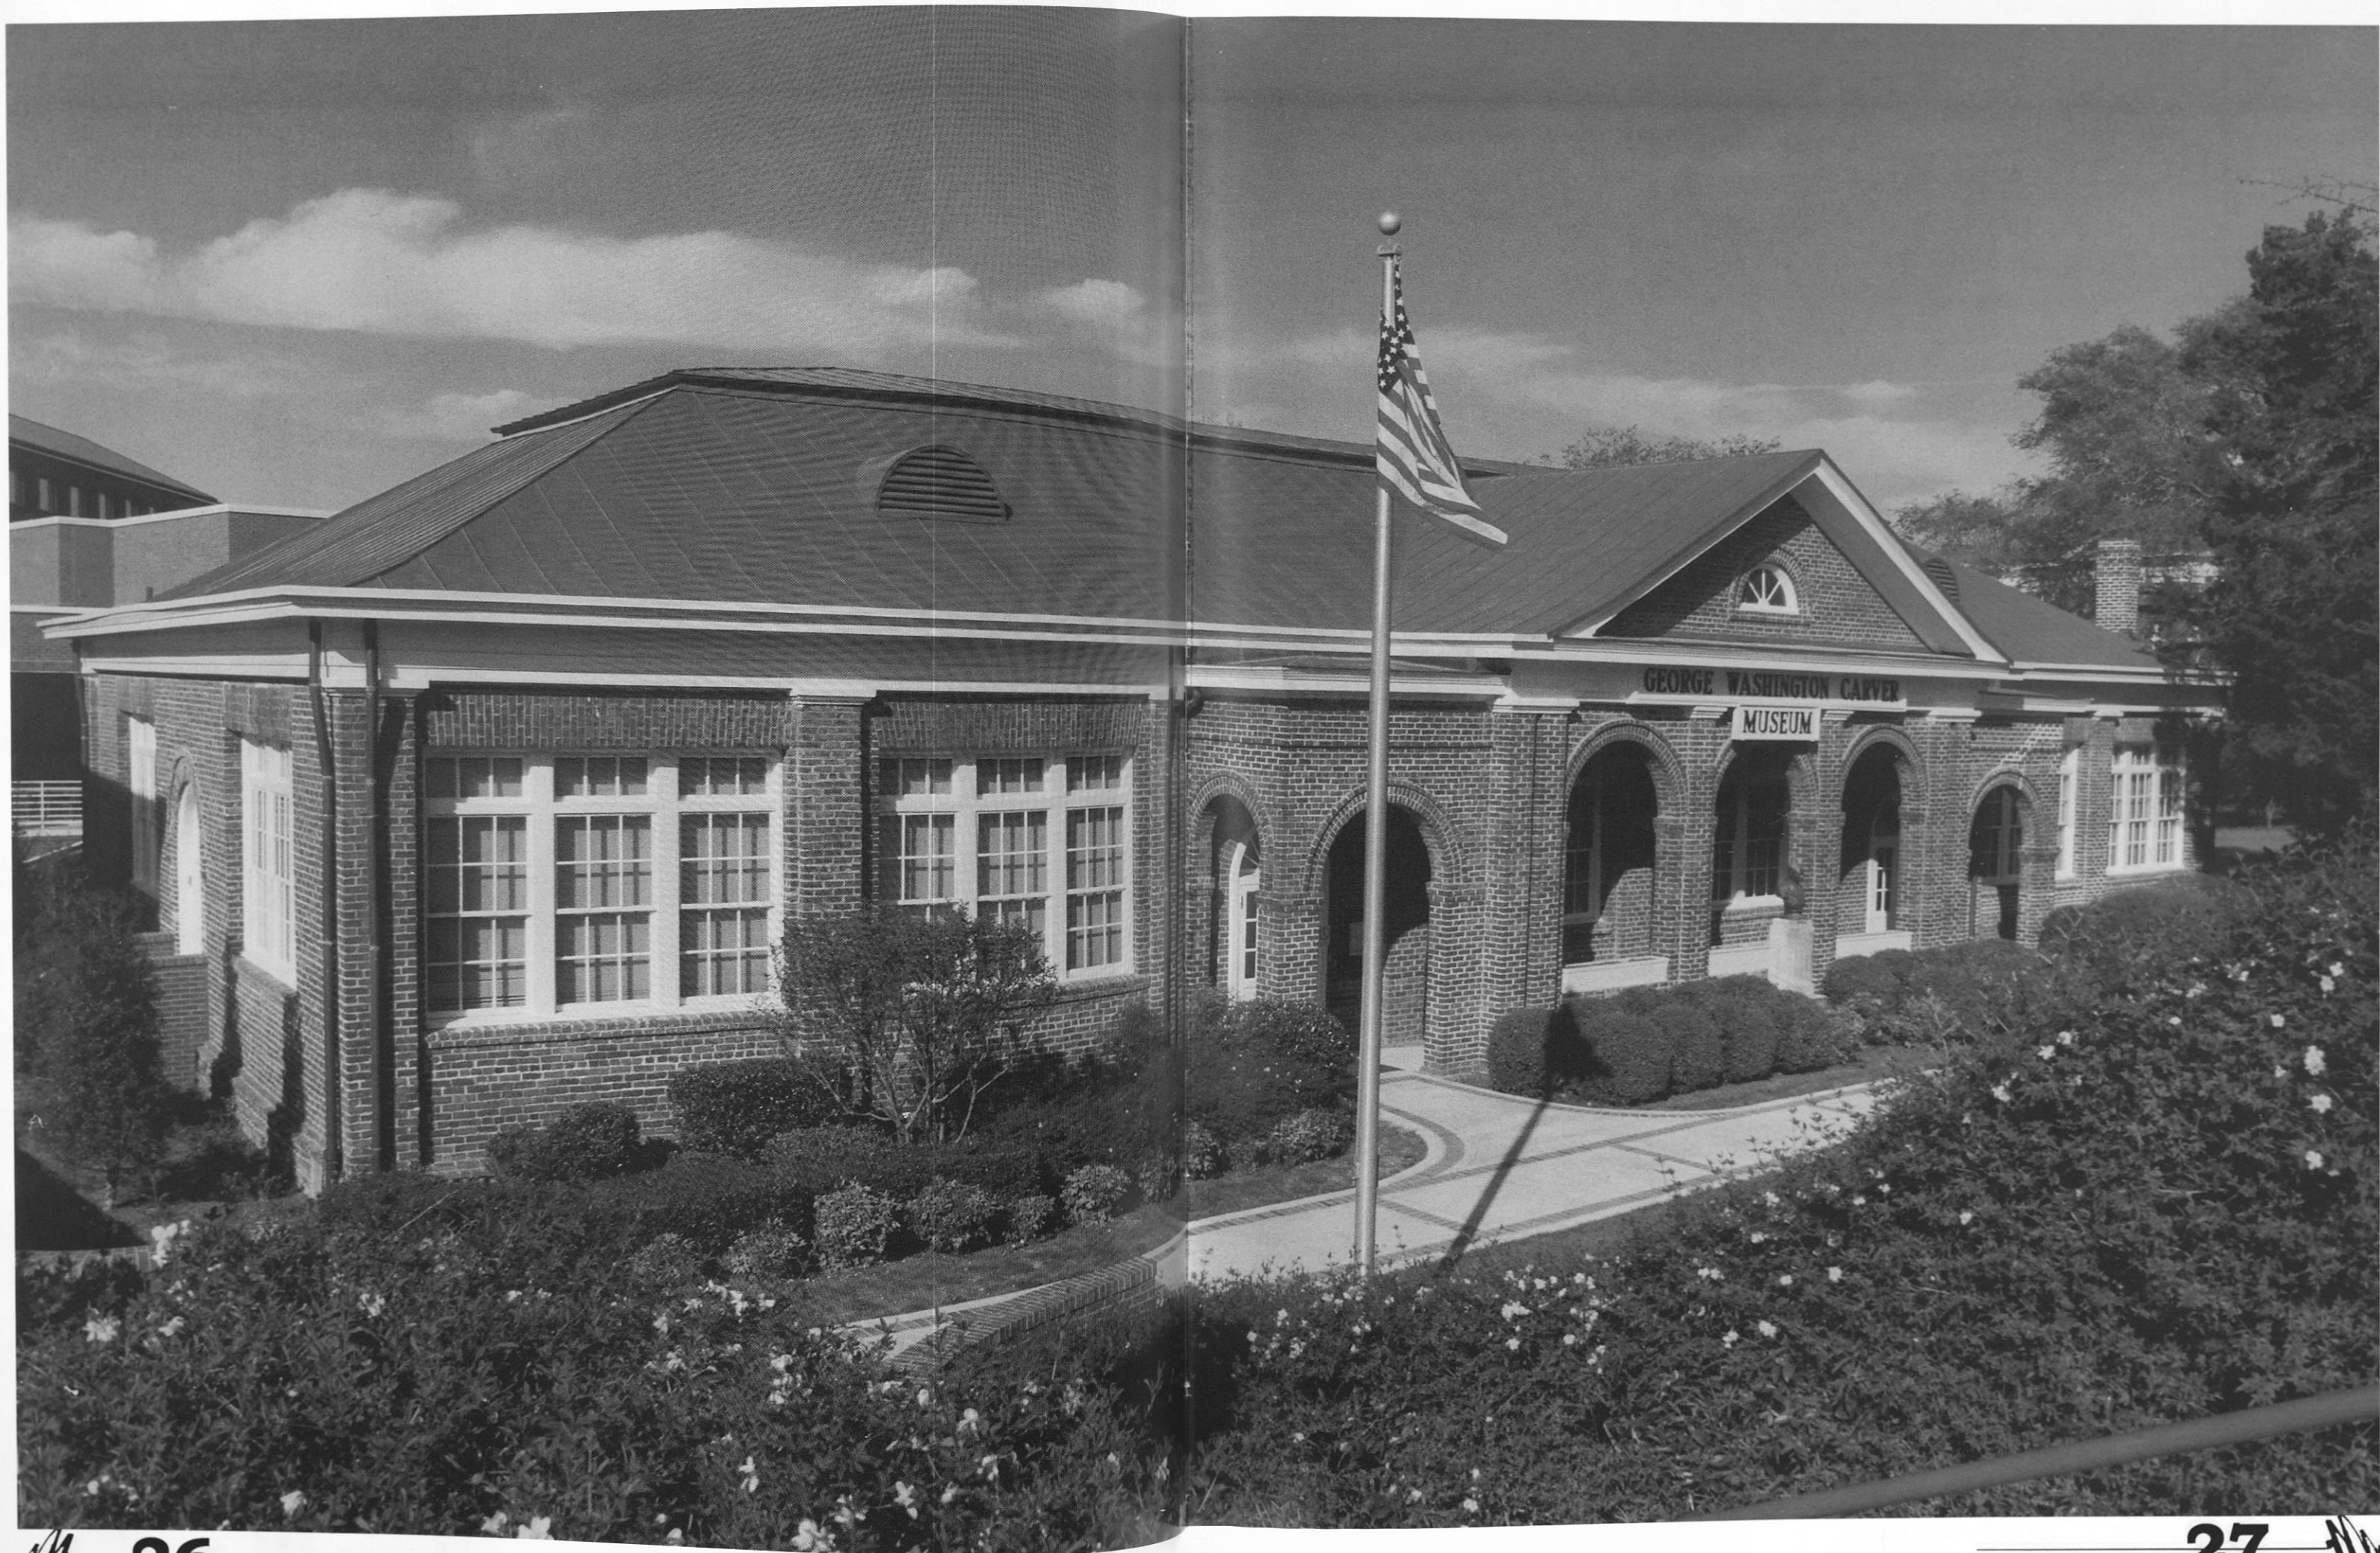

# ACADEMICS

*Words to live by.....*

# College of Business & Information Science

Dr. Alicia J. Jackson, Interim Dean

Its primary mission, as a career-oriented unit, is to provide its students with a challenging opportunity for a liberal, technical, and professional education. Graduates are expected to be well-informed and responsible individuals capable of succeeding in both private and public sectors, with the desire to engage in lifelong learning. The mission of the College of Business, Organization and Management derives from Tuskegee University's rich history and heritage. Presently the College of Business & Information Science strives to prepare young men and women for roles of service to mankind.

The Business House... where professionals are groomed to change the world

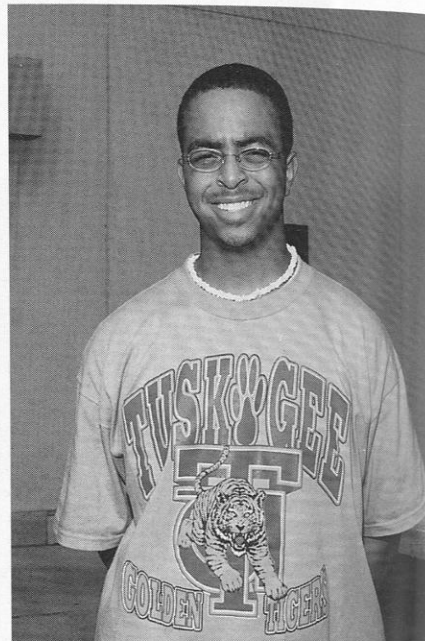

# College of Engineering, Architecture & Physical Science

The College of Engineering, Architecture and Physical Sciences (CEAPS) has as one of its main objectives the preparation of

**Burge, Legand Jr.**  
**Interim Dean**

individuals for a full, satisfying and competitive career in an era when society demands comprehensive solutions to environmental and technological problems. It has become clear that in producing the goods and services demanded by an expanding populace, technical solutions of tomorrow will incorporate multi-faceted problem-solving skills which will not only involve socio-political impact but also with economic and global and ecological components. The Engineering programs prepare professionals with the abilities to apply technology for the benefit of society. The Architecture Construction Science and Management programs prepare professionals who play an active role in rebuilding our cities and towns into a meaningful place for all people to work and live. The Computer Science department emphasizes quality education in computer and information science, concentrating on various computer languages, programming software development and hardware troubleshooting. The Physics department focuses on the various aspects of modern physics and experimentation to prepare physicists to serve the community at large

# College of Veterinary Medicine, Nursing & Allied Health

The College of Veterinary Medicine, Nursing and Allied Health exists to provide an environment which promotes self-directed learning, intellectual curiosity, creativity, and critical thinking. Students, faculty and staff are provided with the necessary tools to participate fully in an educational experience which promotes and nurtures teaching, research and service. The college promotes qualitative and lifelong learning assisted by state-of-the-art technology for the global practice of veterinary medicine, nursing, occupational therapy, and medical technology. It strives to meet the present and future needs of its diverse population of students, faculty and staff. Our Mission has been, since 1945, to provide teaching, research and service to members of our community and to the world. We intend to continue this tradition by reaching out to the world via the internet, world wide web and other electronic media.

# HOME COMING

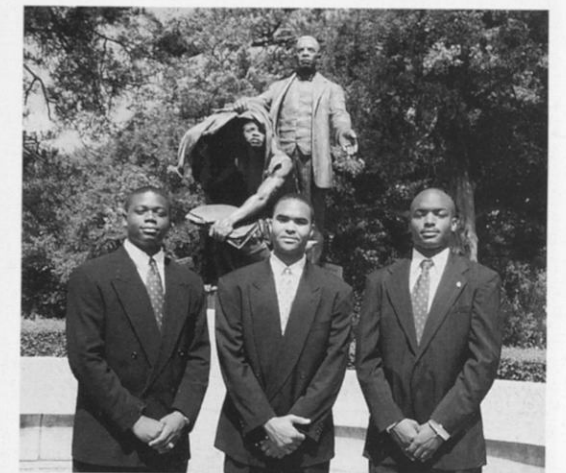

*William Guilford, Jr.*

## Mr. Tuskegee University 2001

Mr. William Guilford, Jr., is a native of Dothan, Alabama. His parents are William and Brenda Guilford also of Dothan. In 1998, William graduated from Northview High School in Dothan, Alabama, where he participated in many sports and organizations. He is now a 21-year-old senior, majoring in

psychology. His plans are to attend law school in the fall of 2002, where he intends to use his learned skills for purposes that go far beyond career ambitions. William describes himself as ambitious yet thoughtful of others. He has initiated programs, such as

the 100 Black Men of America, Inc., that facilitates the growth of African-American youth in the community. William is extremely proud of his experience here at Tuskegee University which will forever be improved because of him.

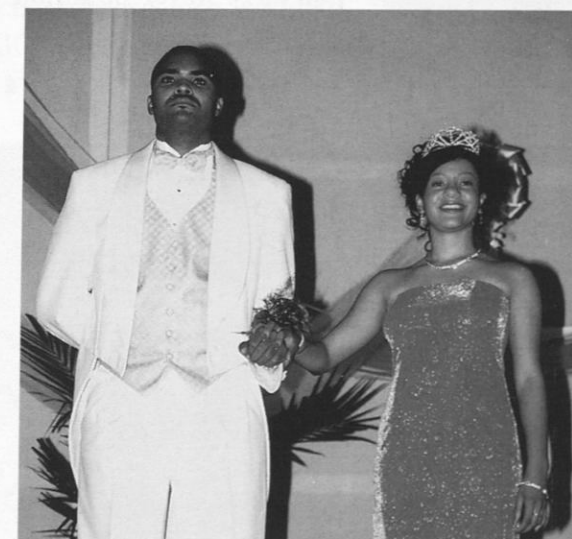

*Erica Tamarah Gunn*

## *Miss Tuskegee University 2001*

Ambition, beauty, class, and grace all describe Miss Erica Tamarah Gunn of Wetumpka, Alabama. Erica is the daughter of Mr. and Mrs. Larry Gunn. At an early age the value of hard work was instilled into her life. Graduating in the top percent of her high school class, not only did she excel in her extracurricular activities, she also excelled academically. Along with all of her academic and extracurricular ac-

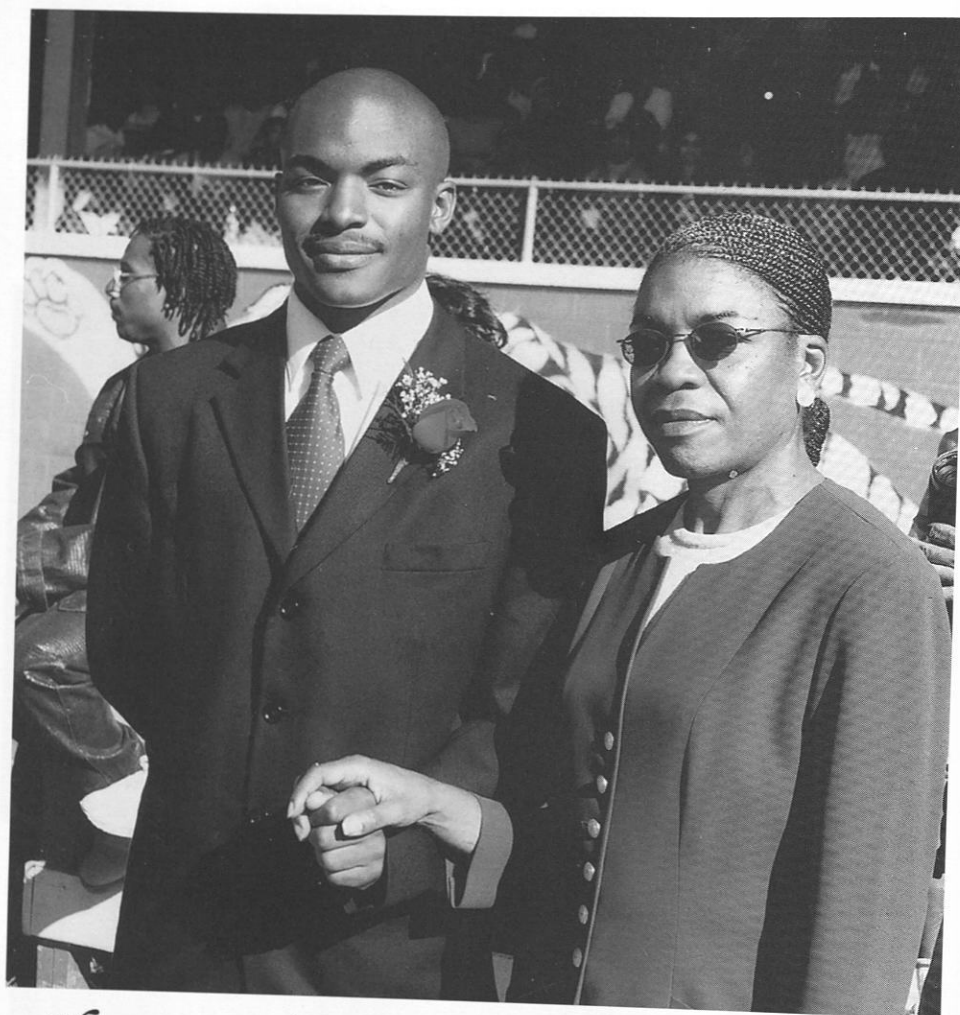

tivities, Erica has always remained active in church and the community. One of her community service activities include volunteering with the American Red Cross. Since being a student at Tuskegee, she has continued to shine both academically and socially having been a member of the Marching Crimson Piperettes and Golden Key Honor Society. This twenty-two year old senior will be

commissioned into The United States Army in May 2002 after receiving a B.S. in biology. Erica plans to pursue a career as a Pediatric Dentist while continuing to uphold the values, which make this nation great. Erica believes "I am only one, but I am one. And all things that I can do, I will do by the grace of God."

## Khary S. Davis

### First Gentleman 2001-2002

Khary S. Davis is a senior, Mechanical Engineering student. He is one of three children of Mr. Ronald Davis & Mrs. Eleanor Davis. Khary Davis' main reason for attending Tuskegee University was the rich history, world-renowned engineering school, and diversity in the student body. Khary came to Tuskegee from Jemison, Alabama. After his graduation from Jemison High School, he enrolled in Tuskegee's FASTREC program in 1998. Throughout his experience at Tuskegee University, Khary has also been a member of several engineering organizations such as the National Society of Black Engineers and the American Society of Black Engineers, as well as a member of Alpha Phi Alpha Fraternity, Inc. During his military tour, Khary plans to receive his Master's in Business Administration. His motto is "after any challenge, there is always a wealth of knowledge whether you are successful or not, so... never be afraid to try your hand at anything."

## Priscilla Madison

### First Attendant 2001-2002

First attendant to Miss Tuskegee University, Priscilla Madison, is a senior honor student majoring in Animal and Poultry Science from Edmond, Oklahoma. She is the daughter of Dr. Major Madison and Mrs. Benita Madison. Priscilla is actively involved in and around the campus community. Priscilla is an active member of the University Escorts, where she has served as president, the Student Government Association's Health and Human Service Division, the Tuskegee University Women's Tennis Team, the Pre-Veterinary Medicine Club, and Angles Flight/Silver Wings. She has been awarded for her academic efforts by being inducted into the Golden Key National Honor Society, Beta Kappa Chi Scientific Honor Society, named a Thomas Monroe Campbell, Sr. Family tuition recipient, Robert A. and Gustine E. Munday Memorial award recipient, and a ConAgra scholar. After graduation in May, Priscilla plans to attend a Veterinary Medical School of her choice. Her life's creed is Proverbs 31:30: "Charm is deceptive and beauty is fleeting, but a woman who fears the Lord is to be praised."

## Shawn Tramaine Lee

### Second Gentleman 2001-2002

Shawn Tramaine Lee, a native of Mobile, Alabama, was born on April 18, 1980. Shawn is the proud son of Antoinette Powell and John Lee. He is currently a graduating senior with a major in Political Science. Shawn is an active member of Pi Sigma Alpha Honor Society, Tuskegee University tennis team, the Student Government Association, the Alabama Club, the Pre-Alumni Council, the Thurgood Marshall Pre-Law Society, the Model NATO Team, a Who's Who among American Colleges and Universities Nominee 2000-2001, the Orientation Leaders Program, the National Association of Student Government Officers (NASGO), the Rave Review Modeling Troupe, and the NAACP. Shawn has immediate plans to attend law school upon graduation, where he will be pursuing a Juris-Doctorate Degree in Sports/Entertainment Law. Since he is a first generation student, his expectations are very high. He believes that with a strong faith in God, he can overcome and conquer any obstacles set before him. His motto is "there are no failures on the road to success, but only set backs on the way."

## Tanerica Washington

### Second Attendant 2001-2002

Second attendant to Miss Tuskegee University is Tanerica Washington. She is a graduating honor student from Montgomery, Alabama. With a major in biology, she plans to further her education by attending Physicians Assistant School to pursue a career, specializing in Anesthesiology. Her parents are LTC Lee E. and Mrs. Geraldine Washington. Tanerica is a member of the Biology Club, Students Addressing the Struggle for Success (SASS), and a Tuskegee University Cheerleader. She regularly volunteers at the Salvation Army, the Tuskegee Veterans Hospital, and Brantwood Foster Home. Her achievements include Cheerleader of the Year, Miss Kappa Alpha Psi Fraternity Inc., Daughters of the American Revolution (DAR), and the Emancipation Proclamation Award. Tanerica's philosophy of life is "Trust in the Lord will all thine heart; and lean not unto thine own understanding. In all thy ways acknowledge Him, and He shall direct thy paths," Proverbs 3:5-6.

# Career Fair

The annual Tuskegee University Career fair was held on Thursday, September 27, 2001 in the Kellogg Conference Center. Over 140 companies, covering 99% of the majors offered at Tuskegee University, were represented. This career fair, as previous ones, was very successful. Representative and student attendance tops the number of previous fairs. Companies such as Proctor and Gamble,

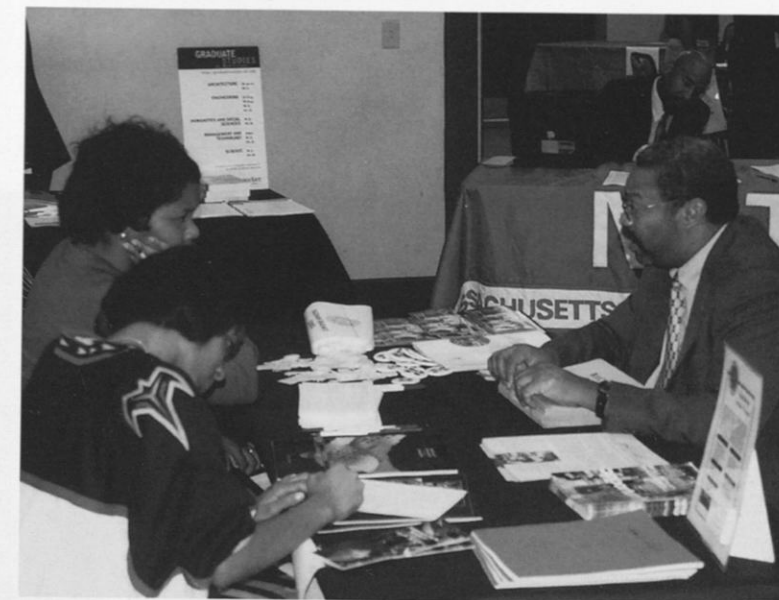

Ford Motor Company, IBM, Microsoft, SunTrust Bank, Cingular Wireless Company and the Center for Disease Control were some of the many that were in attendance. There was an award ceremony where Dr. Payton present plaques to companies who hired the most Tuskegee graduates. Over half of the companies were represented by Tuskegee graduates.

Future Tuskegee Alum Rayford Lee takes interest in career opportunities for after graduation.

How things get notices...

Tuskegee students making plans for the future

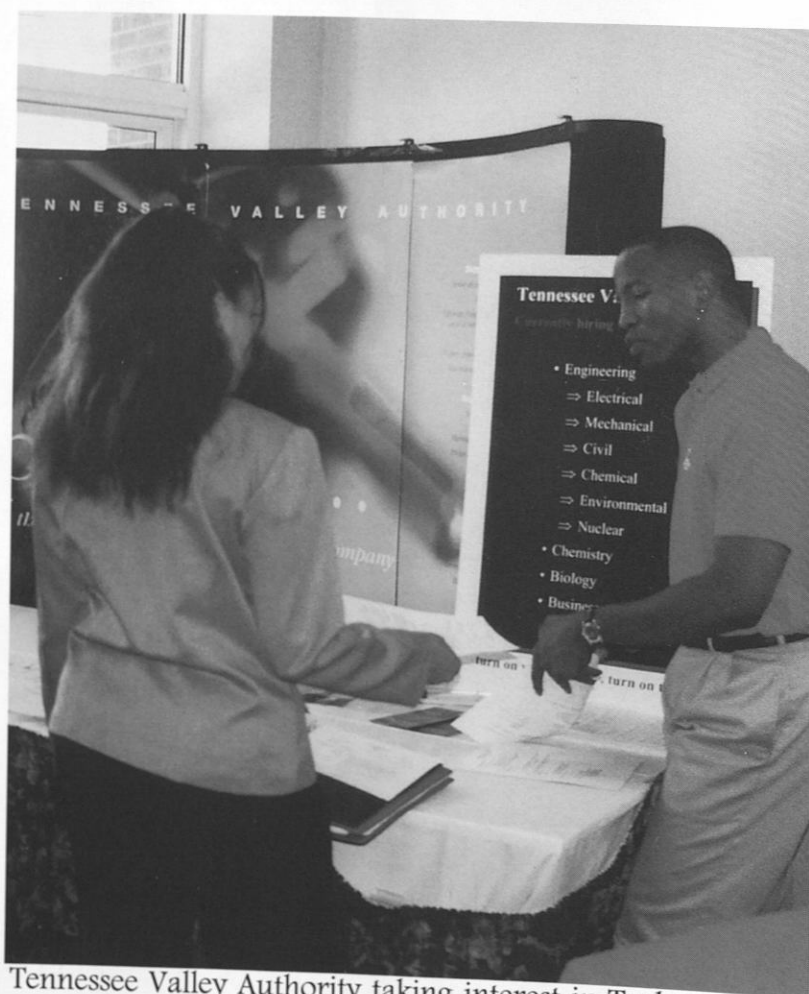

Ms. Strickland Proud, sponsor and coordinator of the Professional/Graduate School Fair.

The Professional & Graduate School Fair was held on Wednesday, October 10, 2001 in the Student Union Ball Room. There were 29 schools including Clemson University, Meharry College, Duke University, University of Alabama at Birmingham and East Tennessee University. Areas such as liberal arts, medicine

and law were covered. This fair was a great opportunity for students interested in furthering their academic career.

## School Fair

# Honda Challenge

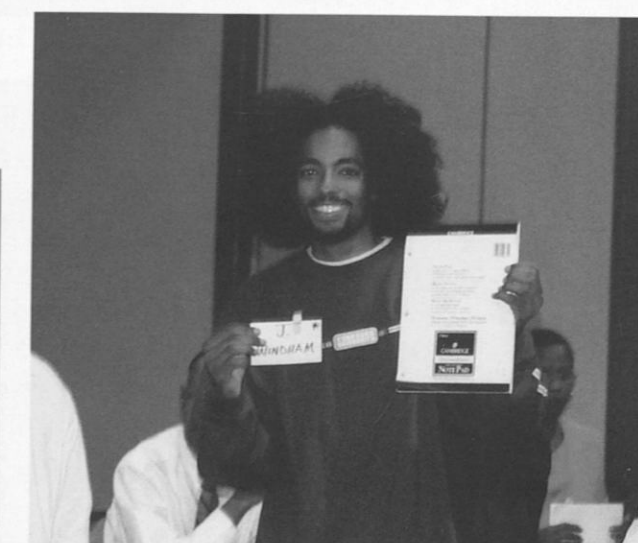

Dean Spears explaining the rules and regulations

Mr. D. announcing the beginning of the CHALLENGE

Team members listening attentively to Mr. Brown's directions

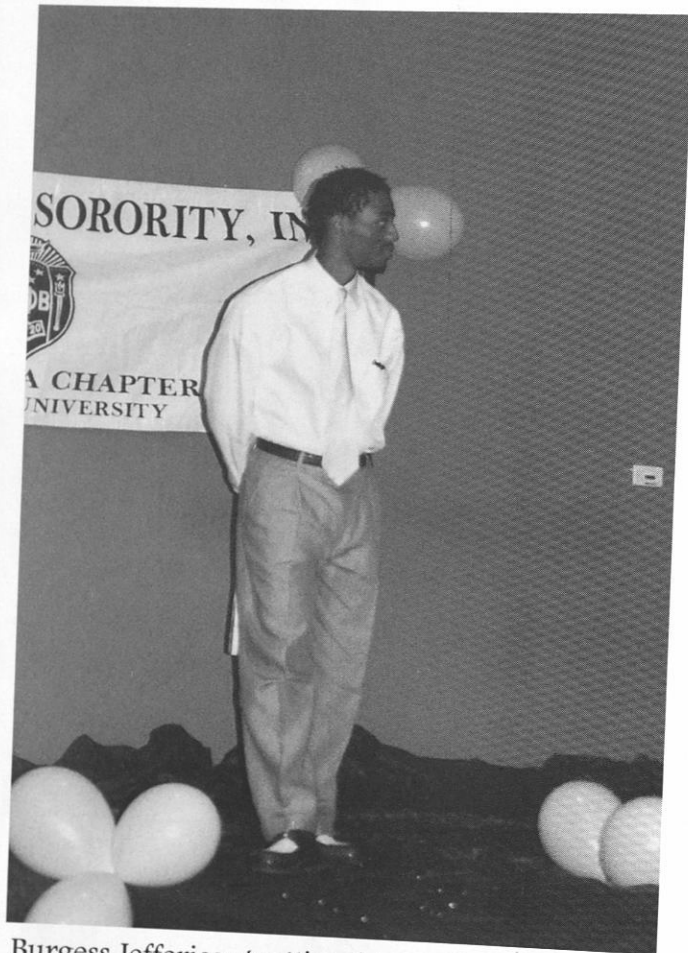

Joseph Windham receiving the 1st prize for most correct answers

# BLOOD DRIVE

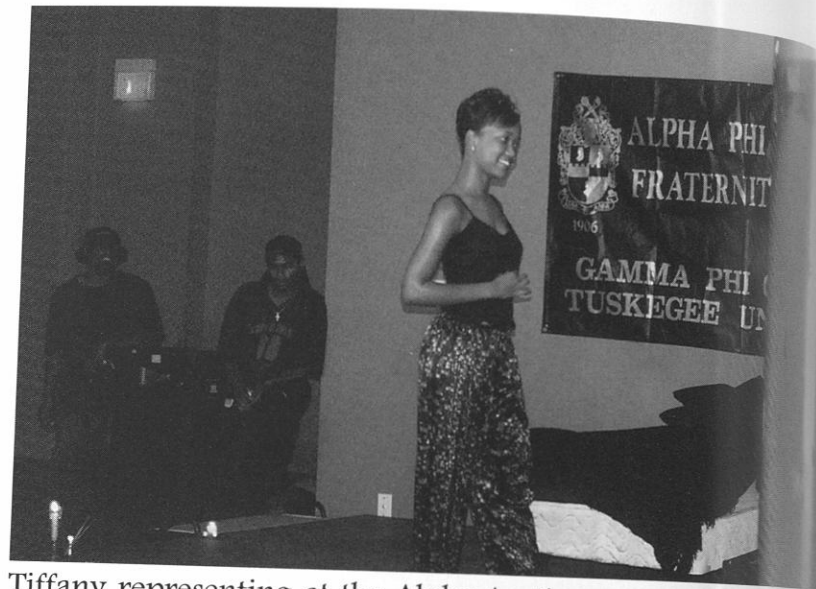

Tuskegee University has numerous blood drives every year. Various organizations work along with the American Red Cross to provide convenient ways for people to donate blood. The pictures shown are from a blood drive organized by the ladies of Zeta Phi Beta Sorority, Inc. The blood drive was held on October 9, 2001 in the student union ballroom servicing about 70 participants. Zeta Phi Beta Sorority, Inc. organizes at least one Blood Drive each semester.

## Where it matters most.

As one of the world's leading diversified technology companies, Raytheon is breaking new ground in everything from **defense and commercial electronics to business aviation and special mission aircraft**. As a Raytheon employee, you'll contribute to the development of exciting, revolutionary technology designed to make life better, easier and safer throughout the world.

But it all starts with you. Your creativity. Your knowledge. And your enthusiasm about the future. In return, we offer exceptional training and professional development opportunities. A supportive, down-to-earth work environment. And incredible benefits, including flexible schedules designed to respect your quality of life.

At Raytheon, we strive to be the employer of choice for a diverse workforce by attracting, retaining, and recognizing the industry's most talented, resourceful and creative people.

**Visit the Career Center for the Fall/Spring  
Recruiting Dates for Raytheon**

*Opportunities are available in the following areas:*

**Computer Science  
Computer Engineering  
Electrical Engineering  
Mechanical Engineering  
Math  
Physics  
Chemical Engineering  
Aeronautical Engineering  
Finance/Accounting  
Human Resources**

Check out our website at **[www.rayjobs.com/campus](http://www.rayjobs.com/campus)** for further information, including a calendar of recruiting events. Start your job search by completing a student profile. U.S. citizenship may be required. Raytheon is an equal opportunity employer.

**They trust they'll be fed. They trust they'll be cared for.  
They trust these hats will eventually be taken off.**

Caring for pets means more than just tending to their most basic needs. Pet owners know that. And so do veterinarians. That's why we're always looking for ways to help veterinarians educate pet owners about the early signs of disease. And why we constantly introduce new products to help people care for pets of all ages.

Together, we can help pets live longer lives. Happier lives.

**Pfizer Animal Health**

*Caring that goes beyond medicine.™*

## U.S. COMPANIES ADVANCE ENGINEERING EDUCATION AT TUSKEGEE

Engineering students at Tuskegee University will soon acquire more state-of-the-art tools, compliments of a consortium of four major U.S. companies. Unigraphics Solutions, General Motors, EDS, and Sun Microsystems have come together to donate 12 Sun computer workstations which run full-blown Unigraphics Computer-Aided-Design/ Computer-Aided-Manufacturing (CAD/CAM) software. This donation of computer hardware and software will allow engineering students to develop product design concepts on the computer, perform engineering analysis on the concepts, and generate manufacturing data from which the components of the product will be made. All of these activities take place seamlessly within the Unigraphics software. The ability of future engineering graduates to work in this type of environment is considered by industry to be crucial to the increasingly compressed product development cycles. The consortium, called **Partners for the Advancement of CAD/CAM Education**, or simply, **PACE**, involves a select group of universities from the US, Canada, and Mexico. The companies have pledged to provide technical support, including software training, free-of-charge to the universities to ensure program success. The Mechanical Engineering faculty at Tuskegee University, in collaboration with their counterparts at the University of Missouri, Rolla, will develop teaching materials that will enhance their students' ability to create solutions to design problems using the latest CAD/CAM tools.

**Unigraphics  
Solutions™**

**EDS**

## There is no substitute.

Electric Boat is the world's foremost designer and builder of nuclear submarines, arguably the most complex machines made by man. The company's industry leadership extends back over a century to 1899 when it produced the first practical submarine for the U.S. Navy. You will have a hand in shaping the technology of the next generation of submarines as well as other advanced systems.

### Engineering Opportunities

- Electric/Power
- Acoustics
- Electronics
- Civil/Structural
- Shock & Vibration
- Software Engineering
- Software CM/QA
- Marine/Mechanical
- Naval Architecture

(Electric Boat is an SEI rated and ISO9001 organization)

We require a Bachelor's or Master's degree in Civil, Electrical, Mechanical, Structural, Aerospace Engineering, or Computer Science/Engineering.

We offer competitive wages and benefits including:

- Medical/Dental/Life Insurance
- Excellent 401K Plan
- Paid Vacation
- Paid Retirement
- Relocation Assistance
- Company Sponsored Technical Education Program

Applicants selected will be subject to a security investigation and must meet eligibility requirements for access to classified information.

Resumes May Be Faxed To (860) 433-4732

## DID THE CIVIL RIGHTS MOVEMENT START IN THE STREETS OF AMERICA OR IN THE SKIES OVER EUROPE?

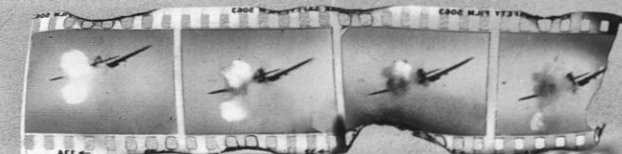

Tuskegee Airmen of the first all-black fighter squadron.

Fifteen years before Rosa Parks refused to yield her seat on a bus, Lieutenant Colonel Benjamin O. Davis refused to yield the skies over Nazi Germany. Colonel Davis was commander of

Benjamin O. Davis  
99th Fighter Squadron

the Tuskegee Airmen, units created to prove the capability of black combat pilots and crews. At a time when black people mostly worked as waiters and shoeshine boys, President Franklin D. Roosevelt gave them a chance to become heroes through the Tuskegee Airmen. They were all-black Army

With nothing left to lose, the 99th rarely did. Gun camera footage shows downing of a Nazi fighter.

Air Corps units that escorted bombers into the European theater.

Early on, many people wanted to see this project fail. But the only thing the Tuskegee Airmen ever failed to do was lose a bomber to enemy fighters.

Thanks in part to the Tuskegee Airmen, when you Cross Into The Blue in the United States Air Force, the world of opportunity and honor is available to everyone. They made the most of their opportunity. What will you do with yours?

MOVING YOU INTO THE FUTURE  
A GENERAL DYNAMICS COMPANY

***Variety makes us strong...***

These are the secrets behind nature's genius. From rain forests in the Amazon to modest backyard gardens, each creature and every species helps maintain the health and stability of these wondrous surroundings. And the more diverse the environment, the more beautiful it is to behold.

***...Harmony makes us successful***

At Delta, we take great pride in the diversity of the people who make us what we are – a company of *many* cultures, languages, backgrounds and experiences. These differences serve to bring us together, make us stronger and give us a unique understanding and sensitivity to the needs of our customers and the communities we serve.

However, like the most dedicated gardener, we're never satisfied with how our garden grows. We constantly strive to build on our achievements to make Delta fertile ground for our employees, partners and suppliers around the globe.

*Delta – sowing the seeds for success worldwide, naturally.*

## Where diverse people inspire unlimited possibilities.

At GlaxoSmithKline, diversity is not a corporate guideline; it's our culture and our commitment. Through the varied talents and experiences of our team, we've become the second largest pharmaceutical company and the number one healthcare company in the United States. And we're growing every day.

Dedicated in our fight against disease, our products successfully reflect our commitment to improve the quality of human life by enabling people to do more, feel better and live longer. Making sure they reach their intended markets is imperative and is only made possible by different perspectives pursuing a common goal. At GSK, what makes you unique makes us all better.

These are just a few of the excellent career opportunities you'll find with GSK: Pharmaceutical Sales, Marketing, Information Technology, Managed Care, Human Resources, and Finance.

Join us, and discover the possibilities your own future holds in a supportive and innovative workplace that values your contributions with ongoing learning, excellent compensation and opportunities for professional advancement.

Make your contributions count. Explore the opportunities of GlaxoSmithKline at: [www.gsk.com](http://www.gsk.com)

Working in the presence of Nobel Laureates  
isn't something you get to do every day.

Why not?

You give so much to others. When was the last time you checked your  
own direction? At UCSF Medical Center, we boast one of the most  
talented, educated and dedicated staff in healthcare. So whatever your  
area of specialty, you're constantly in the presence of greatness. We want  
you to get back what you deserve. Whether it's the generous medical  
coverage, vacation, sick and holiday package, or extensive retirement  
benefits, you'll meet your own needs as well as those you set for your  
patients. And here, you'll feel the pride of working with the most  
prestigious staff in healthcare. It's a pride you'll feel, and one you'll see  
reflected in the eyes of those you treat. We are proud to be an Equal  
Opportunity Employer.

A NEW VISION FOR NURSING EXCELLENCE

**Remember the passion that brought you to nursing?  
So do we.**

Jamie O'Malley,  
Chief Nursing Officer

While nursing continues to undergo change, the reasons individuals get into nursing have not. The inspiration to help others...to put your education and training to work...to collaborate with those who value your knowledge...to find a career that is professionally and financially rewarding are being realized. Jamie O'Malley, our Chief Nursing Officer, is bringing new vision by leading others to discovering the passions that nursing provides. The University of Chicago Hospitals shares this vision. We are committed to creating patient care where clinical expertise, decision making and teamwork are rewarded. We offer an extraordinary benefits package including **referral bonuses, flexible scheduling, educational opportunities like 100% tuition reimbursement and on-campus continuing education** and a great, collaborative team. To realize your passion for nursing, call us at **773-702-1734**, fax us at **773-702-0265** or visit our web site at **[www.uchospitals.edu](http://www.uchospitals.edu)**.

## We're Prince George's Hospital Nurses.

Each day is varied and exciting at Prince George's Hospital Center — a 290-bed acute care teaching hospital, regional referral center, and designated regional trauma center for southern Maryland.

"After 35 years in the profession and 20 of them spent at Prince George's Hospital Center, I invite you to join our staff. Because we care for the most acutely ill, we see it all and deal with a wide range of diagnoses which is both interesting and educational. I have a wonderful staff, as I watch them work with their patients, I can see that they truly love the profession. But patients aren't the only ones getting what they need. Each nurse's professional growth and career satisfaction is important to us. We value the commitment made by our staff and the work they do so well... come see for yourself."

Shirley H. Morgan  
Vice President Inpatient Services  
1967 Graduate, Tuskegee Institute, School of Nursing

### Ascension Health—join our team!

We're a high-touch, high-tech health care ministry. We value creativity, risk-taking and innovation.

We seek balance in our work and in our lives. As a Catholic healthcare organization, we encourage spirituality in the workplace.

We are committed to being an organization that includes associates of both genders, all ethnic backgrounds and all faiths.

We're the nation's largest not-for-profit hospital system, with more than 75 facilities in fifteen states and the District of Columbia. Our 80,000+ associates make a positive difference in the lives of thousands of people every day, one person at a time.

We care about the communities we serve. Last year, we gave more than \$352 million in charity care to the poor and vulnerable.

If you want to focus on people, rather than numbers, and you'd like to be a part of one of the nation's healthcare leaders, join our team.

## Help Us Build History.

Founded in 1898, Bechtel has grown into one of the world's largest engineering-construction firms. Our portfolio includes premier technical, management, and directly related services to develop, manage, engineer, build, and operate installations for our customers worldwide.

Our 50,000 employees are teamed with customers, partners, and suppliers on 950 projects across 67 countries. These partnerships produced \$9.3 billion in new business for 2001 alone. And yet, we fully recognize that our continued global success depends on our ability to attract talented and motivated university students and recent graduates. Your creativity and technological excellence can help us continue to expand the possibilities of engineering.

Bechtel will continue to make history in engineering and construction. And you can be a part of this history. [www.bechtel.com](http://www.bechtel.com)

We are proud to be an Equal Opportunity Employer.

## Environment.

Great pictures reflect the environment around us.

## Community-focused Care

Our vision is a healthy community through caring for people one individual at a time.

As the largest integrated healthcare delivery system in the Greater Cincinnati area, Health Alliance combines the resources of six great hospitals along with the area's top physicians, researchers and healthcare professionals to provide our community with the best possible cost-efficient medical care. In our dynamic learning environment, you can advance your professional development further than you may have imagined.

**The Christ Hospital**  
**The University Hospital**  
**The St. Luke Hospitals**  
**The Jewish Hospital**  
**The Fort Hamilton Hospital**  
**Alliance Primary Care**  
**Health Alliance Business Center**

The Health Alliance offers a variety of benefit choices in health and income protection, for family needs, lifestyles and retirement. Our benefits assist our associates in achieving a balance in their personal and work lives. That's why we have been recognized by *Working Mother* magazine as one of the top 100 companies to work for in the country. Ask us about our unique lifestyle benefits including tuition reimbursement, flexible scheduling options, casual dress, and scholarship opportunities. EOE.

## All you want in A Career & A Community

Greenville Hospital System & Greenville, South Carolina — continually reaching for the best — can lead you right to Greenville Hospital System, South Carolina's largest and most comprehensive health system. Located in the scenic foothills of the Blue Ridge Mountains between Charlotte and Atlanta, we serve upstate South Carolina with:

- A progressive regional medical, teaching and research hospital
- Three community hospitals
- Nationally recognized Children's Hospital
- Rehabilitation Hospital
- Behavioral Health Hospital
- Cancer Center

Through the talents of more than 7,000 employees, we share a single mission — to improve the health of the people in our community. Join our progressive team.

**GREENVILLE HOSPITAL SYSTEM™**  
Healthcare to a Higher Standard

Career opportunities are available in: Allied Health, Nursing, Nursing Management, Patient Care Support, Professional, and Service.

Greenville, South Carolina, has a small-town feel and big city amenities. This is one of the nation's fastest growing areas, ranked as a best place to live and work in America. Affordable housing, nationally recognized schools and mild climate attract people who want to get the most from their career and their community.

For consideration, apply online at: [www.ghs.org](http://www.ghs.org)

Greenville Hospital System, Employment Department, 701 Grove Road, Greenville, SC 29605. Or, call 1-800-768-8776. Fax: 864-455-6218. EOE.

More Choices. Better Choices.

**BETH ISRAEL DEACONESS MEDICAL CENTER**

A member of CAREGROUP

A PROFESSIONAL PRACTICE MODEL THAT CONTINUES TO SET THE STANDARD.

**Invented here.**

Pioneers. The first implantable cardiac pacemaker. The first successful liver transplant. The first minimally invasive coronary bypass surgery in the state. There's no doubt that Beth Israel Deaconess Medical Center has contributed numerous breakthroughs in medical science. But we didn't stop there. We pioneered primary nursing and the professional practice model. And we continue to develop innovative policies and programs to insure our ability to not only attract — but keep — the best nursing talent.

Beth Israel Deaconess Medical Center, a major teaching affiliate of Harvard Medical School, is a prime destination for the best nursing talent in the country. To explore all that we have to offer, contact Maryellen at 617-632-9409; email: [mkiley@caregroup.harvard.edu](mailto:mkiley@caregroup.harvard.edu). We are an equal opportunity employer.

## POWERING THE IMMUNE SYSTEM

Nabi  
Biopharmaceuticals discovers, develops, manufactures and markets products that power the immune system. Our focus is on helping people overcome serious medical challenges, such as Hepatitis B, hospital staph infections, Hepatitis C, and nicotine addiction. Our approach uses proven technologies in new ways to increase and expand the immune system's natural healing powers. In our pipeline, is a first of its kind experimental vaccine intended to reduce most deadly kind of staph infections and an investigational vaccine that could be the first therapy to block the addictive effects of nicotine.

Our quest is to revolutionize the way vaccines and other antibody-based therapies can be used to prevent and treat significant health problems.

For more information about Nabi Biopharmaceutical products, research, development pipeline and employment opportunities: Please visit [www.nabi.com](http://www.nabi.com)
