### NOTICE TO INSURED

Insurance protection without cost to the insured expires with the termination of aviation cadet or aviation student status, and the insured is required to continue insurance by allotment of pay (W. D., A. G. O. Form No. 29) until permanently released from duty involving participation in regular and frequent aerial flights. Such allotment will continue while the insured remains in the active service, but when such flight status has terminated may be discontinued by the insured's completion and registration of notification of discontinuance of allotment (W. D., A. G. O. Form No. 30) and such insurance may be continued by direct remittance.

Premiums on National Service Life Insurance are due and payable monthly in advance, with a grace period of 31 days from the due date. The due date of a premium is the same day of the month as that on which the insurance became effective. If the premiums are to be paid direct to the Veterans Administration, there should be forwarded without further notice to the Collections Subdivision, Veterans Administration, Washington, D. C., a check, draft, or money order payable to the Treasurer of the United States in the amount of the premium for the insured's attained age upon entry into aviation cadet or aviation student status (see reverse side of blank application form) within 31 days from the end of the period for which premiums were last paid by the United States Government, continuing future payments as they become due or within the grace period of 31 days from the due date.
