

Prof. George W. Carver

"The peace which will come after this war, will be laden with many new scientific possibilities, growing out of the destructive ravages of the conflict."

(Quoted from an address by Dr. George W. Carver before the New York Herald Tribune Forum on Current Problems, October, 1939.)

PROGRAM

52nd ANNUAL TUSKEGEE
NEGRO CONFERENCE

DECEMBER 16-17, 1942

General Topic:

Participation Of Negroes In Measures
Essential To Winning The War

TUSKEGEE INSTITUTE, ALABAMA
F. D. Patterson, *President*

CONFERENCE STATEMENT

The human and physical resources of the Nation are being severely taxed to meet the needs of the war. In the South where workers have been plentiful, agriculture predominant and industry expanding, the manpower situation has now become acute. How can we plan for a fuller use in the war effort of the human resources which the South possesses in its Negro population?

GENERAL TOPIC PARTICIPATION OF NEGROES IN MEASURES ESSENTIAL TO WINNING THE WAR
